**Journeys to the Great Canals of the World: Suez, Panama & Hangzhou** Kalman Dubov, 2023-05-21 Human ingenuity has created three great canals in different locations on our planet. Each of these transformed the country and the world in its own way and time. The oldest canal to be constructed was the Grand Canal, an important Chinese waterway, connecting Suzhou and Beijing, a distance of 1,104 miles (1,776 km). This is the longest artificial canal in the world and is a UNESCO World Heritage Site. Not as well known as the other great canals, this important waterway enabled merchants to bring grain and other goods over this long distance so that merchants could transport goods throughout the kingdom. The Grand Canal was first constructed by Fuchai, King of the State of Wu, whose capital is in present-day Suzhou, in 486 BCE. Over the centuries, the Grand Canal was expanded and rebuilt and is still in use in China. The second oldest canal was constructed in ancient Egypt when the waterways of the Nile River were expanded to ease shipping goods throughout the country. Much later, modern engineers reconstructed the Suez Canal, an effort that required much ingenuity and effort to bring this project to fruition. This waterway, at 120.1 miles, was opened in 1869, transforming modern shipping of goods by reducing the journey by between Britain and India by 4,500 miles. Up to this time, ships had to travel around Africa's Cape of

Good Hope or past the tip of South America (Magellan or Drake Passages) to reach the other side of the world. Both of these points are dangerous with many ships lost at sea. The Suez Canal completely bypassed this difficulty. However, the territorial disputes and enmities between the Egyptians and Israelis soon saw conflict across these placid waters. In each of the major wars fought between these two countries, the passage of mercantile ships through the Suez Canal became dangerous. Once peace was established between Egypt and Israel, maritime traffic resumed and the world benefited from that peace. Today, there is peace between these two countries, and I recount the instances when I sailed on the Suez Canal. The last canal to be built was in Panama, making travel between the Atlantic and Pacific oceans possible. French engineers tried to construct this canal but failed for various reasons. The United States then took over the project and in vast effort, saw the project to completion. Two years of preparatory effort was necessary to construct infrastructure for the thousands of workers who would toil in the earthworks being moved to create the Panama Canal. A notable effort was addressing the lethal malaria, yellow fever, and other tropical diseases endemic in this country. In the end, yellow fever was completely eradicated from Panama, though malaria cases, though low, continue to be present. The Panama Canal is 50 miles in length and opened on 15 August 1914. Today, thousands of ships, carrying passengers and goods, travel through this, and the other canals, thereby transforming our world.

[A Historical Archaeology of Early Spanish Colonial Urbanism in Central America](#) William R. Fowler, 2022-01-04 In this milestone work, William Fowler uses archaeology, history, and social theory to show that the establishment of cities was essential to Spanish colonialism. Fowler draws upon decades of archaeological research on the landscape, built environment, and architecture of Ciudad Vieja, a sixteenth-century site located in present-day El Salvador and the best-preserved Spanish colonial city in Latin America. Fowler compares Ciudad Vieja to other urban sites in the region and to the tradition of urbanism in early modern Spain to determine how the Spanish grid-plan layout was modified and implemented in the Americas. Using extensive archival material, Fowler describes how this layout reflected and perpetuated power structures that benefited the Spanish although the city's Indigenous population was greater in number. Fowler analyzes recorded interactions between colonists, Indigenous peoples, and enslaved Africans to demonstrate the ways the cityscape affected the relationships among individuals and cultural groups. Offering an unparalleled view into a critical moment in Latin American history, this book offers new ways of looking at urbanism and colonialism as intertwined forces in the emergence of the early modern world.

**Francisco López de Gómara's General History of the Indies**, 2024-01-02 This work is the first English translation of the entire text of part one of sixteenth-century Spanish historian Francisco López de Gómara's General History of the Indies. Including substantial critical annotations and providing access to various readings and passages added to or removed from the successive editions of the 1550s, this translation expands the archive of texts available to English speakers reconsidering

the various aspects of the European invasion of America. General History of the Indies was the first universal history of the recent discoveries and conquests of the New World made available to the Old World audience. At publication it consisted of two parts: the first a general history of the European discovery, conquest, and settlement of the Americas, and the second a detailed description of Cortés's conquest of Mexico. Part one—in the multiple Spanish editions and translations into Italian and French published at the time—was the most comprehensive, popular, and accessible account of the natural history and geography of the Americas, the ethnology of the peoples of the New World, and the history of the Spanish conquest, including the most recent developments in Peru. Despite its original and continued importance, however, it had never been translated into English. Gómara's history communicates Europeans' general understanding of the New World throughout the middle and later sixteenth century. A lively, comparatively brief description of Europe's expansion into the Americas with significant importance to today's understanding of the early modern worldview, Francisco López de Gómara's General History of the Indies will be of great interest to students of and specialists in Latin American history, Latin American literature, anthropology, and cultural studies, as well as specialists in Spanish American intellectual history and colonial Latin America.

**Memories of a Lost Age** Jaime Acosta Allen, 2022-02-02 'A long era of chaos, disease and death is approaching. The hairy men who have arrived in our world bear the seeds of many ills that will afflict our nations.' The prophetic words of the Supreme Shaman. At the turn of the 16th century, a young Tairona sets out on a long journey to the hallowed place called Rapa in the high mountains of the Andes, to become a Shaman and 'The Messenger of the Future.' His training begins along the way in a canoe on the mighty River Yuma with the enigmatic Jawi. However, the invaders also possess a skill that will be exceedingly valuable and it is one of the enemy who holds the key... A moving, unforgettable story of endeavour, survival and love set in a sacred land; first published with great success in Spanish.

African Maroons in Sixteenth-Century Panama Robert C. Schwaller, 2021-09-02 From the 1520s through the 1580s, thousands of African slaves fled captivity in Spanish Panama and formed their own communities in the interior of the isthmus. African Maroons in Sixteenth-Century Panama, a primary source reader, edited by Robert C. Schwaller, documents this marronage in the context of five decades of African resistance to slavery. The self-sufficiency of the Maroons, along with their periodic raids against Spanish settlements, sparked armed conflict as Spaniards sought to conquer the maroon communities and kill or re-enslave their populations. After decades of struggle, Maroons succeeded in negotiating a peace with Spanish authorities and establishing the first two free Black towns in the Americas. The little-known details of this dramatic history emerge in these pages, traced through official Spanish accounts, reports, and royal edicts, as well as excerpts from several English sources that recorded alliances between Maroons and English privateers in the region. The contrasting Spanish and English accounts reveal Maroons' attempts to turn European antagonism to their advantage; and,

significantly, several accounts feature direct testimony from Maroons. Most importantly, this reader includes translations of the first peace agreements made between a European empire and African Maroons, and the founding documents of the free-Black communities of Santiago del Príncipe and Santa Cruz la Real—the culmination of the first successful African resistance movement in the Americas. Schwaller has translated all the documents into English and presents each with a short introduction, thorough annotations, and full historical, cultural, and geographical context, making this volume accessible to undergraduate students while remaining a unique document collection for scholars.

**Humanities** Lawrence Boudon, 2005-02-01 The one source that sets reference collections on Latin American studies apart from all other geographic areas of the world.... The Handbook has provided scholars interested in Latin America with a bibliographical source of a quality unavailable to scholars in most other branches of area studies. —Latin American Research Review Beginning with volume 41 (1979), the University of Texas Press became the publisher of the Handbook of Latin American Studies, the most comprehensive annual bibliography in the field. Compiled by the Hispanic Division of the Library of Congress and annotated by a corps of more than 130 specialists in various disciplines, the Handbook alternates from year to year between social sciences and humanities. The Handbook annotates works on Mexico, Central America, the Caribbean and the Guianas, Spanish South America, and Brazil, as well as materials covering Latin America as a whole. Most of the subsections are preceded by introductory essays that serve as biannual evaluations of the literature and research under way in specialized areas. The Handbook of Latin American Studies is the oldest continuing reference work in the field. Lawrence Boudon, of the Library of Congress Hispanic Division, has been the editor since 2000, and Katherine D. McCann has been assistant editor since 1999. The subject categories for Volume 60 are as follows: Art History (including ethnohistory) Literature (including translations from the Spanish and Portuguese) Music Philosophy: Latin American Thought

**The Maritime Landscape of the Isthmus of Panamá** James P. Delgado, Tomás Mendizábal, Frederick H. Hanselmann, Dominique Rissolo, 2016-08-30 In its 11,000 year human history, the Isthmus of Panamá has been dominated by its relationship to the sea and the rivers that feed it. A unique marine environment, the land bridge shaped its inhabitants' activities, and those inhabitants shaped the Isthmus—from harvesting resources to physically transforming the land to link

two oceans. This seminal work explores this intersection between people and the environment, mining the archaeological and ethnological record created during the formation and development of Panamá's maritime cultural landscape. Assessing sites both submerged and on land, the authors explore the maritime history of the isthmus through its many stages: from its prehistoric period through Spanish colonialism to the building of the canal and its function as a route for modern-day maritime traffic. Combining archaeology, history, geography, and economic history, this volume situates Panamá's canal and isthmus in the global economy and world maritime culture, while providing a more complex understanding of human adaptation and the persistence of culture.
