Axiología de la modernidad Ángel Prior, 2002 La obra de Ágnes Heller puede considerarse como una reflexión sobre la axiología de la modernidad, tanto por el carácter central y la persistencia del motivo axiológico en su pensamiento a lo largo de las décadas en que se ha desarrollado, como porque en ella podemos encontrar una caracterización de la modernidad y de las grandes posiciones filosóficas respecto a la misma, especialmente las llevadas a cabo por Marx, Habermas y Kierkegaard, consideradas en el presente ensayo como significativas de posibilidades de sentido abiertas en nuestro tiempo y que remitirían a los ámbitos axiológicos de la emancipación, la justicia política y la moralidad.

Buscar la filosofía en las ciencias sociales Mario Bunge, 1999 Examen fresco y no ortodoxo de los conceptos filosóficos clave y de las hipótesis en las ciencias sociales. Analizando los campos que la filosofía y las ciencias sociales comparten, como los de hecho, causa y valor, Bunge afirma que los científicos sociales (antropólogos, sociólogos, científicos políticos, economistas, historiadores) no deben dejar la filosofía a los filósofos, que tienen pocas habilidades en, o poco conocimiento de las ciencias sociales. El autor insta a los científicos sociales a involucrarse en la práctica de la filosofía seria y a los filósofos a participar en la investigación social.

Fundamentos y reflexiones de la teoría contable Varios autores,2021-02-03 Fundamentos y reflexiones de la teoría contable es el resultado de la labor de varios profesionales que integran un sólido equipo de investigación en el área contable. Este documento es una verdadera contribución para discutir y reflexionar acerca de la teoría contable, especialmente con relación a ciertos temas que revisten una gran relevancia para procesos de discusión. Se presentan tanto reflexiones como comentarios de distintos profesionales y profesores, mediante aportes extraordinarios que motivan los análisis y discusiones en materia contable. La obra incluye tópicos como la axiología y la teleología contable. Es interesante leer que mientras la axiología estudia los principios que permiten considerar los valores positivos y los valores negativos desde el punto de vista de lo que es o no valioso, la teleología se refiere al establecimiento del fin contable bajo preceptos morales, alcanzar el fin determinado, lo que implica acciones estratégicas para llegar al propósito que se ha definido.

La vocación filosófica de Rafael Carrillo Carlos Elias Luquez Carrillo,2020-04-01 Su vocación por la filosofía, es en nuestro sentir la faceta más importante de su vida, porque a partir de allí, comenzó a edificar toda su obra, haciendo, una ruptura con la filosofía tomista que se venía enseñando en colegios y universidades, e introduciendo el estudio de la filosofía moderna en el país. Este trabajo de investigación y para consulta, podría ser un referente o uno de los tantos insumos que ya existen, para que las nuevas generaciones, se decidan en algún momento, escribir la Historia de la Filosofía en Colombia y Latinoamérica, dada ya nuestra tradición en esta disciplina. Sin un destinatario específico, la idea de escribir este libro obedeció a mi interés por dar a conocer su obra, y despertar el interés de las nuevas generaciones que deseen dedicarse a una actividad intelectual, seria y rigurosa. Rafael Carrillo es uno de esos paradigmas.
