Milan Army Ammunition Plant. Remedial Investigation Report. Volume 4. Appendices M - T. ,1991

Milan Army Ammunition Plant, Remedial Investigation Report. Volume I. ,1991 A Remedial Investigation at the Milan Army Ammunition Plant, TN, was conducted for the U.S. Army Toxic and Hazardous Materials Agency, under the terms of an Interagency Agreement with the State of Tennessee and the U.S. Environmental Protection Agency. The study focused on the CERCLA site and selected RCRA regulated units identified by previous studies as potential sources of contamination. A broad range of chemicals including metals, explosives, and other organic compounds were found in source areas and in groundwater. The results of a risk assessment indicate that unacceptable levels of human health risks potentially exist. Conceptual models of site and unit characteristics were formulated to explain major findings, and areas not contributing to the problem were identified. For many source areas, major unknowns exist regarding hydrology, extent of contamination, and current and future impacts to groundwater quality.

Historic Properties Report: Milan Army Ammunition Plant, Milan, Tennessee Jeffrey A. Hess,BUILDING TECHNOLOGY INC SILVER SPRING MD.,1984 This report presents the results of an historic properties survey of the Milan Army Ammunition Plant (MAAP). Prepared for the United States Army Materiel Development and Readiness Command (DARCOM), the report is intended to assist the Army in bringing this installation into compliance with the National Historic Preservation Act of 1966 and its amendments, and related federal laws and regulations. To this end, the report focuses on the identification, evaluation, documentation, nomination, and preservation of historic properties at the MAAP. Chapter 1 sets forth the survey's scope and methodology; Chapter 2 presents an architectural, historical, and technological overview of the installation and its properties; and Chapter 3 identifies significant properties by Army category and sets forth preservation recommendations. Illustrations and an annotated bibliography supplement the text.

Energy Engineering Analysis Study Report, Milan Army Ammunition Plant, Milan, Tennessee: Executive Summary, 1982 This is a summary of the Energy Engineering Analysis for the Milan Army Ammunition Plant (MAAP) in Milan, Tennessee. It includes the recommendations for the development of a Basewide Energy Plan consisting of energy conservation projects and other recommendations for reduction of the installation's 1985 source energy consumption. Milan Army Ammunition Plant, containing 22,541 acres, is situated in both Gibson and Carroll Counties, Tennessee, and is approximately equally divided longitudinally into the two counties. Milan, Tennessee, is 5 miles west and has a population of 8,100; Humboldt is 17 miles southwest with a population of 10,200; Trenton is 18 miles northwest with a population of 4,600; and Jackson is 28 miles south with a population of 49,100. The Mississippi River is approximately 55 miles west of the plant, the Tennessee River 45 miles east. Milan Army Ammunition Plant and the surrounding area is gently rolling terrain. The elevation of the plant varies from a high of approximately 590 feet on the south side, to a low of approximately 320 feet on the north boundary of the reservation. The Milan area experiences typically short mild winters and long warm summers. With the exception of a few modernized facilities, the overwhelming majority of buildings at MAAP were constructed for World War II ammunition production.

Superfund Record of Decision United States. Environmental Protection Agency, United States. Environmental Protection Agency. Office of Emergency and Remedial Response, 1993

Milan Army Ammunition Plant. Focused Feasibility Study for the Northern Industrial Area Soil Ronald Locandro, ICF Kaiser Engineers Inc Abingdon MD, 1995 ICF Kaiser Engineers (ICF) and Environmental Resources Management (ERM) have been contracted by the U.S. Army Environmental Center (USAEC) to perform a Focused Feasibility Study (FS) for contaminated soil within the northern industrial areas of Milan Army Ammunition Plant (MAAP), Tennessee. This work is being performed under Contract No. DAAA15-91-D-0014, Task Order 2. The purpose of the Focused FS is to develop and evaluate remedial alternatives such that an appropriate remedy can be selected for the site. The MAAP Remedial Investigation (RI) performed in 1989-1991 (USAEC, 1991a) confirmed that the O-Line Ponds area, facility drainage ditches that received industrial wastewater, and manufacturing and disposal areas have been sources of groundwater contamination. One finding of the RI Report was that sufficient information was available concerning the O-Line Ponds area to proceed with a Focused FS. The O-Line Ponds area was further divided into two operable units (OUs): OU1 is the groundwater immediately downgradient of the O-Line Ponds area, and OU2 is the soil, surface water, and sediment at the O-Line Ponds area. A Proposed Plan and Record of Decision (ROD) for OU1 were finalized in 1992, which called for groundwater extraction, treatment, and reinjection of the treated water upgradient of the O-Line Ponds. The design of this system was completed in 1993, and construction of the system is currently underway. For OU2, the Proposed Plan and ROD (finalized in 1993) called for the extension of the existing multi-layered cap to cover the contaminated soil around the perimeter of the existing cap. The design of the cap extension

was completed in 1994, and construction will begin in late 1994.

Milan Army Ammunition Plant O-Line Ponds Area Focused Feasibility Study for Operable Unit One

Groundwater Alternatives. Final Document ,1992 A Feasibility Study is being conducted for the O-Line Ponds area at the Milan Army Ammunition Plant, TN. The purpose of the study is to identify remedial technologies which have the potential to treat, contain, or dispose of contaminated media and to develop remedial alternatives which will mitigate the risks posed to human health and the environment by conditions at the site. Additional field sampling and analysis will be performed to address the data gaps identified by the Remedial Investigation concerning the contaminant migration mechanisms at the O-Line Ponds. This Focused Feasibility Study report addresses remediation of Operable Unit 1, groundwater in the vicinity of and downgradient from the O-Line Ponds area. The report summarizes conditions at the O-Line Ponds area based on the RI, introduces and screens general response actions, technology types, and process options appropriate for remediation of groundwater (OUI) based on site-specific conditions and the potential to satisfy remedial action objectives. Process options are screened and developed into eight alternatives. Each alternative is evaluated in detail using the nine criteria identified in the NCP (40 CFR 300.430 (e)). A-comparison of remedial alternatives is then performed. Milan Army Ammunition Plant, Focused Feasibility. Study, Remedial Action Objectives, Remedial Technologies, UV- Oxidation, Granular Activated Carbon, Ion Exchange.

Rethinking Governance of the Army's Arsenals and Ammunition Plants William Michael Hix,2003 With its large industrial base of ammunition plants and arsenals, the Army has more ordnance manufacturing capacity than it needs. This study proposes a strategic vision for this capacity and explores four options for managing it: privatization, creation of a federal government corporation, consolidation, and recapitalization on multifunction posts. It weighs the options from different perspectives, including feasibility, economic viability, and risk posed to national interests. ISBN: 0-8330-3322-0 Price: \$30.00 Page count: 350

Final Remedial Investigation Sampling Plan Addendum. Milan Army Ammunition Plant Remedial Investigation Southern Study Area (Operable Unit No. 5). ,1997 This sampling plan addendum was developed to provide additional field data

necessary to address environmental regulatory comments regarding the Draft Milan Army Ammunition Plant (MLAAP) Remedial Investigation, Southern Study Area (Operable Unit No. 5) prepared by Fluor Daniel, Inc. (Fluor Daniel) in March 1996. The report was distributed through the MLAAP to federal and state environmental regulators under the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA) Federal Facility Agreement and Consent Order (FFA) currently in affect at the site. Review comments were received from the U.S. Environmental Protection Agency (USEPA) and the State of Tennessee Department of Environment & Conservation (TDEC) in January 1997 and July 1996, respectively. The majority of comments raised by the regulators focused on the need for additional technical clarification or references to support report conclusions. However, some additional field data is necessary to fully address regulatory comments. Response to comments and submittal of a revised remedial investigation (RJ) report will be provided following completion of field activities specified in the sampling plan addendum. This addendum also provides additional data requested by the MLAAP to support the ongoing feasibility study being conducted by QST Environmental (formerly Environmental Science & Engineering, Inc. (ESE)). The draft remedial investigation report characterized the nature and extent of risks posed by contamination present within the MLAAP Southern Study Area, and provided data to support the evaluation of potential remedial cleanup options (as necessary). The report presented background research results, field investigation procedures, field investigation results, contaminant fate and transport evaluation results, and baseline risk assessment results pertaining to human health and environment.

Milan Army Ammunition Plant Introduction

Milan Army Ammunition Plant Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Milan Army Ammunition Plant Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Milan Army Ammunition Plant : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet

Archive for Milan Army Ammunition Plant : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Milan Army Ammunition Plant Offers a diverse range of free eBooks across various genres. Milan Army Ammunition Plant Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Milan Army Ammunition Plant Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Milan Army Ammunition Plant, especially related to Milan Army Ammunition Plant, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Milan Army Ammunition Plant, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some

Milan Army Ammunition Plant books or magazines might include. Look for these in online stores or libraries. Remember that while Milan Army Ammunition Plant, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Milan Army Ammunition Plant eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Milan Army Ammunition Plant full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Milan Army Ammunition Plant eBooks,

including some popular titles.

FAQs About Milan Army Ammunition Plant Books

What is a Milan Army Ammunition Plant PDF? A PDF (Portable Document Format) is a file format developed by Adobe that preserves the layout and formatting of a document, regardless of the software, hardware, or operating system used to view or print it. **How do I create a Milan Army Ammunition Plant PDF?** There are several ways to create a PDF: Use software like Adobe Acrobat, Microsoft Word, or Google Docs, which often have built-in PDF creation tools. Print to PDF: Many applications and operating systems have a "Print to PDF" option that allows you to save a document as a PDF file instead of printing it on paper. Online converters: There are various online tools that can convert different file types to PDF. **How do I edit a Milan Army Ammunition Plant PDF?** Editing a PDF can be done with software like Adobe Acrobat, which

allows direct editing of text, images, and other elements within the PDF. Some free tools, like PDFescape or Smallpdf, also offer basic editing capabilities. **How do I convert a Milan Army Ammunition Plant PDF to another file format?** There are multiple ways to convert a PDF to another format: Use online converters like Smallpdf, Zamzar, or Adobe Acrobats export feature to convert PDFs to formats like Word, Excel, JPEG, etc. Software like Adobe Acrobat, Microsoft Word, or other PDF editors may have options to export or save PDFs in different formats. **How do I password-protect a Milan Army Ammunition Plant PDF?** Most PDF editing software allows you to add password protection. In Adobe Acrobat, for instance, you can go to "File" -> "Properties" -> "Security" to set a password to restrict access or editing capabilities. Are there any free alternatives to Adobe Acrobat for working with PDFs? Yes, there are many free alternatives for working with PDFs, such as: LibreOffice: Offers PDF editing features. PDFsam: Allows splitting, merging, and editing PDFs.

Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
