The Changeling Sea Patricia A. McKillip, 2003-04-14 World Fantasy Award winner Patricia A. McKillip tells an enchanting fantasy that is tinged with realism and romance. (School Library Journal) Since the day her father's fishing boat returned without him, Peri and her mother have mourned his loss. Her mother sinks into a deep depression and spends her days gazing out at the sea. Unable to control her anger and sadness any longer, Peri uses the small magic she knows to hex the sea. And suddenly into her drab life come the King's sons—changelings with strange ties to the underwater kingdom—a young magician, and, finally, love. McKillip is a master storyteller; her tale rings true as if it were being told from memory.—Kirkus Reviews, pointer review

Shadow Speaker Nnedi Okorafor,2023-09-26 Amazon Editor's Pick, Best SFF September 2023 • The Strand, Science Fiction Pick of the Month October 2023 Deluxe, expanded edition of an out-of-print early novel from Africanfuturist luminary Nnedi Okorafor, with a brand-new introduction from the author. Niger, West Africa, 2074 It is an era of tainted technology and mysterious mysticism. A great change has happened all over the planet, and the laws of physics aren't what they used to be. Within all this, I introduce you to Ejii Ugabe, a child of the worst type of politician. Back when she was nine years old, she was there as her father met his end. Don't waste your tears on him: this girl's father would throw anyone under a bus to gain

power. He was a cruel, cruel man, but even so, Ejii did not rejoice at his departure from the world. Children are still learning that some people don't deserve their love. Now 15 years old and manifesting the abilities given to her by the strange Earth, Ejii decides to go after the killer of her father. Is it for revenge or something else? You will have to find out by reading this book. I am the Desert Magician, and this is a novel I have conjured for you, so I'm certainly not going to just tell you here.

New World Orders in Contemporary Children's Literature C. Bradford, K. Mallan, J. Stephens, R.

McCallum, 2008-03-13 This book demonstrates how contemporary children's texts draw on utopian and dystopian tropes in their projections of possible futures. The authors explore the ways in which children's texts respond to social change and global politics. The book argues that children's texts are crucially implicated in shaping the values of their readers.

Women in Science Fiction and Fantasy Robin Anne Reid, 2008-12-30 Works of science fiction and fantasy increasingly explore gender issues, feature women as central characters, and are written by women writers. This book examines women's contributions to science fiction and fantasy across a range of media and genres, such as fiction, nonfiction, film, television, art, comics, graphic novels, and music. The first volume offers survey essays on major topics, such as sexual identities, fandom, women's writing groups, and feminist spirituality; the second provides alphabetically arranged entries on more specific subjects, such as Hindu mythology, Toni Morrison, magical realism, and Margaret Atwood. Entries are written by expert contributors and cite works for further reading, and the set closes with a selected, general bibliography. Students and general readers love science fiction and fantasy. And science fiction and fantasy works increasingly explore gender issues, feature women as central characters, and are written by women writers. Older works demonstrate attitudes toward women in times past, while more recent works grapple with contemporary social issues. This book helps students use science fiction and fantasy to understand the contributions of women writers, the representation of women in the media, and the experiences of women in society.

Children's Book Prizes Ruth Allen, 2019-01-22 First published in 1998, this book is the first comprehensive survey of the awards made to children's books in the English-speaking world. The Volume covers nearly forty different prizes including well-known and established ones such as the Newbery Award, prizes instigated by the commercial sector such as the Smarties Prize, as well as nationally sponsored awards and prizes for illustrators. Detailed lists are provided of the winning titles and, where appropriate, the runners-up in each year that the award has been given. Ruth Allen also presents some fascinating and often entertaining insights into the motivations behind awards and how they are viewed by authors, illustrators, publishers, librarians, booksellers and potential purchasers. The various criteria applied by judges of these awards are also examined, with an assessment of whether they have always achieved the 'right' result. This Volume is both a useful guide for adults wishing to buy good books for children and an important tool for those researching the history of the children's book industry.

Children's Book Award Handbook Diana F. Marks, 2006-03-30 Diana Marks looks at children's and young adult book awards in depth. The history, award criteria, and a biography of the person behind each of the well-known awards is included. Also of interest are lists of the winners in each category, teaching and exploration activities, reproducible teaching aides, and a timeline of events leading up to the establishment of the award. Information about well-known awards is accompanied by information on the lesser known, Pura Belpré, Jane Addams, etc. Information is formatted in quick, easy-to-read tables and charts suitable for classroom duplication. Although some of this information is available online, this is a one stop handbook that contains lesser-known awards, and offers activities for enriching the study of each award, whether well-known or not. Grades K-8.

Children's Books for Grown-Up Teachers Peter Appelbaum, 2017-09-25 Teachers and prospective teachers read children's books, but that reading is often done as a teacher – that is, as planning for instruction – rather than as a reader engaged with the text. *Children's Books for Grown-Up Teachers* models the kind of thinking about teaching and learning – the sort of curriculum theorizing – accomplished through teachers' interactions with the everyday materials of teaching. It starts with children's books, branches out into other youth culture texts, and subsequently to thinking about everyday life itself. Texts of curriculum theory describe infrastructures that support the crafts of inquiry and learning, and introduce a new vocabulary of poaching, weirding, dark matter, and jazz. At the heart of this book is a method of reading; Each reader pulls idiosyncratic concepts from children's books and from everyday life. Weaving these concepts into a discourse of curriculum theory is what makes the difference between going through the motions of teaching and designing educational experiences. This book was awarded the 2009 AERA Division B (Curriculum Studies) Outstanding Book Award.

Educating the Posthuman John A. Weaver, 2010-01-01 *Educating the Posthuman* is an exciting and refreshing book. This book is unique and unusual. Weaver explores the intersections between literature, biosciences and curriculum theory. Understanding the posthuman best happens when scholars explore these three interrelated areas of study.

Everything I Need to Know I Learned from a Children's Book Anita Silvey, 2009-10-13 What children's book changed the way you see the world? Anita Silvey asked this question to more than one hundred of our most respected and admired leaders in society, and she learned about the books that shaped financiers, actors, singers, athletes, activists, artists, comic book creators, novelists, illustrators, teachers... The lessons they recall are inspiring, instructive, and illuminating. Neo-Imperialism in Children's Literature About Africa Yulisa Amadu Maddy, Donnarae MacCann, 2008-12-28 In this book, the authors expose the neo-imperialist overtones of contemporary children's fiction about Africa. Examining the portrayal of

African social customs, religious philosophies, and political structures in fiction for young people, Maddy and MacCann reveal the Western biases that often infuse stories by well-known Western authors.

The Lord of Opium Nancy Farmer, 2013-09-03 As the teenage ruler of his own country, Matt must cope with clones and cartels in this riveting sequel to the modern classic *House of the Scorpion*, winner of the National Book Award, a Newbery Honor, and a Printz Honor. Matt has always been nothing but a clone--grown from a strip of old El Patron's skin. Now, at age fourteen, he finds himself suddenly thrust into the position of ruling over his own country. The Land of Opium is the largest territory of the Dope Confederacy, which ranges on the map like an intestine from the ruins of San Diego to the ruins of Matamoros. But while Opium thrives, the rest of the world has been devastated by ecological disaster--and hidden in Opium is the cure. And that isn't all that awaits within the depths of Opium. Matt is haunted by the ubiquitous army of eejits, zombielike workers harnessed to the old El Patron's sinister system of drug growing--people stripped of the very qualities that once made them human. Matt wants to use his newfound power to help, to stop the suffering, but he can't even find a way to smuggle his childhood love, Maria, across the border and into Opium. Instead, his every move hits a roadblock, some from the enemies that surround him...and some from a voice within himself. For who is Matt really, but the clone of an evil, murderous dictator?
