World Politics, Human Rights, and International Law Francis A. Boyle, 2021-02-04 World Politics, Human Rights, and International Law examines the functional dynamics between these concepts based upon the author's professional experiences dealing with real world situations, problems, and crises: from the Bush, Obama, and Trump administrations; Iraq, Iran, Palestine, Israel, and Syria; Bosnia and Herzegovina; successfully litigating genocide at the World Court; indicting Slobodan Milosevic at the International Criminal Tribunal for the Former Yugoslavia; prosecuting American torture and enforced disappearances at the International Criminal Court; opposing nuclear, chemical, and biological weapons; citizen civil resistance against state crimes; protecting Indigenous Peoples, etc. The reader can see how the author defined these predicaments from the perspective of international law and human rights, and then proceeded to grapple with them and to rectify them. This book demonstrates the power of international law and human rights to make a positive difference for international peace and justice as well as for the good of humanity in the real world of international power politics. By reading this book the citizen will be empowered and inspired to do the same.

Foundations of World Order Francis Anthony Boyle, 1999 One volume of multi-volume history of international law.

Defending Civil Resistance Under International Law Francis Anthony Boyle, 1987 This work discusses the defense of civil disobedience cases in the United States on the basis of international law. The Supreme Court has held that international law is binding on American law and the strategies of international law arguments in cases of arrests for non-violent resistance are examined.

The Big Black Book of Government Conspiracies Andrè RavenSkül Venås, 2019-09-05 This is a compilation of Government Conspiracies from the U.S. and the World.

The War in Bosnia Muhamed Borogovac, 2016-12-05 Boston, November 5, 1995 The war in Bosnia and Herzegovina is an unheard-of tragedy. Before the eyes of the entire world, a state is being destroyed, and the people (population) of a nation are suffering the genocide and ethnic cleansing. All the principles of humanity, morals, and international rules have been trampled. The question most often asked is, how could that happen today when the genocide committed during World War II is so well known (the Holocaust) and when the international community had the will and the means to protect the Republic of Bosnia and Herzegovina? The international community has shown that it is not the enemy of the Republic of Bosnia and

Herzegovina and that it accepts this state into its membership when it recognized the Republic of Bosnia and Herzegovina on April 7, 1992. With that act, the international community stood up against the Serbian nationalism, which only started to bloody its hands in Bosnia and Herzegovina. So how come that in the fall of 1995, after the innumerable atrocities committed by the Serbs revolted the world, the international community crossed over to the side of the war criminals, giving them 49 percent of Bosnia and Herzegovina with its Dayton peace proposals? Who was the mastermind who succeeded to change the world opinion and what methods did he use? This book answers some of those questions. The reading of this book has to be approached with having faith in no one but a common sense. Besides that, from the reader who comprehends what is truly happening in Bosnia, it is expected that he/she spreads the truth. The ultimate goal is to help in the fight against the forces of betrayal and the division of Bosnia and Herzegovina. Wishing to arm the Bosnian patriots as soon as possible with the knowledge of what is really happening, this book is being written in a hurry. I still hope that this book will reach Bosnians and friends of Republic of Bosnia and Herzegovina all over the world before it is too late and while it is still possible to say no to the division of a member of the United Nations.

Straussophobia Peter Minowitz, 2009-08-15 Leo Strauss and his students have long been accused of mendacity, elitism, and militarism, but the Iraq War has prompted unprecedented levels of caustic and inaccurate denunciations. Inappropriate criticisms have issued from artists (Tim Robbins), politicians (Ron Paul), journalists (Joe Klein), and even highly lauded scholars such as Arthur Schlesinger, Jr., Gordon Wood, Douglas Massey, Stephen Holmes, Anne Norton, Shadia Drury, Sheldon Wolin, John Pocock, John Yolton, Nicholas Xenos, and Brian Leiter. In *Straussophobia*, Peter Minowitz provides a methodical and detailed critique of the major offenders, especially of Drury, who maintains that Strauss established a 'covert tyranny' that would keep the Western world 'mired in perpetual war.' In replying to such charges and to various authors who belittle Strauss's contributions as a scholar, Minowitz highlights the imaginative yet meticulous manner in which Strauss interpreted Thucydides, Plato, Xenophon, Farabi, Machiavelli, Hobbes, Locke, and Carl Schmitt. *Straussophobia* also provides both a comprehensive assessment of Strauss's 1933 letter that commended 'fascist, authoritarian, and imperial' principles, and a compelling account of Strauss's influence, or lack of influence, on neoconservative promoters of the Iraq War (e.g., Paul Wolfowitz, Richard Perle, and Lewis Libby). The book likewise breaks new ground in employing diversity discourse to explain and combat the bigotry and buffoonery that pervade attacks against Strauss and Straussians and in drawing on Strauss to illuminate the distortions that mar some widely-used arguments for affirmative action.

Small Wonder Fred Dallmayr, 2005-09-08 *Small Wonder* presents the dangers of the underside of modernity: the unleashing of unlimited lust for (global) power and wealth. Relying on leading critical intellectuals, Dallmayr offers a critique of the self-deceptions of our age, arguing in favor of the cultivation of the small wonder of everyday life.

Prohibition of Nuclear Weapons: The Relevance of International Law Elliott Meyrowitz, 2025-02-03 The United States is the only nation to have used nuclear weapons in warfare and claims—not only through its State Department, but through a Congressional vote as late as 1999—that the use of nuclear weapons is lawful. Can such a claim, with its undeniable assurance of the greatest degree of destruction of life and property this planet will ever have seen, be sustained? The author investigates this question as a prelude to a more extensive inquiry into the options of legal scholars on the legal status of nuclear weapons and international law. Published under the Transnational Publishers imprint.

The Genocide Convention John B. Quigley, 2006 The Genocide Convention explores the question of whether the law and genocide law in particular can prevent mass atrocities. The volume explains how genocide came to be accepted as a legal norm and analyzes the intent required for this categorization. The work also discusses individual suits against states for genocide and, finally, explores the utility of genocide as a legal concept.

The Wuhan Cover-Up Robert F. Kennedy Jr., 2023-12-06 “RFK Jr. exposes the decades of lies.”—Luc Montagnier, Nobel laureate From the New York Times, Wall Street Journal, USA Today, and Publishers Weekly bestselling author of *The Real Anthony Fauci* comes an explosive exposé of the cover-up behind the true origins of COVID-19. “Gain-of-function” experiments are often conducted to deliberately develop highly virulent, easily transmissible pathogens for the stated purpose of developing preemptive vaccines for animal viruses before they jump to humans. More insidious is the “dual use” nature of this research, specifically directed toward bioweapons development. The *Wuhan Cover-Up* pulls back the curtain on how the US government's increase in biosecurity spending after the 2001 terror attacks set in motion a plan to transform the National Institute of Allergy and Infectious Diseases (NIAID), under the direction of Dr. Anthony Fauci, into a de facto Defense Department agency. While Dr. Fauci zealously funded and pursued gain-of-function research, concern grew among some scientists and government officials about the potential for accidental or deliberate release of weaponized viruses from labs that might trigger worldwide pandemics. A moratorium was placed on this research, but true to form, Dr. Fauci found ways to continue unperturbed—outsourcing some of the most controversial experiments offshore to China and providing federal funding to Wuhan Institute of Virology's (WIV's) leading researchers for gain-of-function studies in partnership with the Chinese military and the Chinese Communist Party. Robert F. Kennedy Jr.'s meticulously researched and rigorously sourced analysis leads readers on a staggering journey to learn about: the key enablers and henchmen pushing for gain-of-function research the economic motives behind gain-of-function research successfully engineered “chimeric viruses” that can

infect and kill humans the coordinated effort to silence speculation of COVID-19's laboratory genesis the complicity of scientific journals to hide the origins of COVID-19 the role of the Wuhan Institute of Virology in China's biowarfare/biodefense program the relationships between US health, military, and intelligence bureaucracies and scientists and their Chinese counterparts the roles of Bill Gates and Sir Jeremy Farrar in orchestrating a global cover-up The Wuhan Cover-Up unveils a global conspiracy of epic proportion and lethal consequence.

Prophecy and the Fundamentalist Quest Farzana Hassan,2008-01-29 This work traces the origins of apocalyptic prophecy in Christianity and Islam through in-depth examinations of several texts found within the Bible, the Quran, and the Hadith. The author contends that Christianity and Islam, often seen as two of the primary fundamentalist and proselytizing world faiths, remain pitted against each other in an ongoing struggle to impose their religious ideology on the rest of the world through either force or persuasion. The religious prophecies discussed in this book are largely focused on end-time or apocalyptic scenarios (such as the Book of Revelation from the Bible's New Testament, the prophesized hour of judgment in the Quran, and the Book of Tribulations in the Hadith). The final two chapters provide an analysis of current world politics, including the Iraq War, within the context of Christian and Islamic prophecy.

God, School, 9/11 and JFK Bruce de Torres,2021-05-21 GOD, SCHOOL, 9/11 AND JFK by Bruce de Torres exposes the lies that are killing us (we are poor, miserable sinners who deserve God's condemnation and school's incarceration; salvation and careers depend on doing what we are told) and the truth that sets us free (we are eternal love and consciousness, creating all we behold). The lies of 9/11 and the JFK assassination prove our government was hijacked by elites, who strip our rights, wage wars of aggression, and accumulate unspendable riches as they seek to rule the world. The ideals of the American Founding enthrone our sovereignty, our right to be free and oversee a transparent and accountable government. What is seen by those who die and return suggests eternal life and safety. The truth restores our sanity, braces us to play this game of life, and allows us to love each other as ourselves as we create the solutions that we need.
