When Enough Is Enough Carolyn Herring-Moore,2012-02 The book, When Enough is Enough, is an inspirational love story about a journey of Clare s domestic violent life and the man of her dreams. Her life of being married to a minister for 10 years incurred extreme violence which included a broken leg, chokings, punchings, kicks, being spit on, kidnappings and her children being beaten and thrown out of car windows. Clare encountered a life of abuse and being held captive not only by her husband Jerry, but by a church society that played on her emotions. She was torn between doing what they said to do, which was to stay married to an abusive man, or leaving. Clare one day was rescued by the man of her dreams, James. James, a strong military man who rescued Clare and her children was left alone after church folks and Clare s family controlled Clare s love for James. When Clare realizes that she has had enough of her husband and church folks, she risked the loss of the man of her dreams.

Marital Cruelty in Antebellum America Robin C. Sager,2016-07-06 In Marital Cruelty in Antebellum America, Robin C. Sager probes the struggles of aggrieved spouses shedding light on the nature of marriage and violence in the United States in the decades prior to the Civil War. Analyzing over 1,500 divorce records that reveal intimate details of marriages in conflict in Virginia, Texas, and Wisconsin from 1840--1860, Sager offers a rare glimpse into the private lives of ordinary Americans shaken by accusations of cruelty. At a time when the standard for an ideal marriage held that both partners adequately perform their respective duties, hostility often arose from ongoing domestic struggles for power. Despite a rise in the then novel expectation of marriage as a companionate relationship, and even in the face of liberalized divorce grounds, marital conflicts often focused on violations of duty, not lack of love. Sager describes how, in this environment, cruelty was understood as a failure to fulfill expectations and as a weapon to brutally enforce more traditional interpretations of marital duty. Sager's findings also challenge historical literature's assumptions about the regional influences on violence, showing that married southerners were no more or less violent than their midwestern counterparts. Her work reveals how definitions and perceptions of cruelty varied according to the gender of victim and perpetrator. Correcting historical mischaracterizations of women's violence as trivial, rare, or defensive, Sager finds antebellum wives both capable and willing to commit a wide variety of cruelties within their marriages. Her research provides details about the reality of nineteenth-century conjugal unions, including the deep unhappiness buried within them.

The Headship of Men and the Abuse of Women Kevin Giles,2020-06-17 In recent years the issue of domestic abuse and violence has gained a lot of attention as the extent of it has become known. Domestic abuse and violence is now of high concern to most churches because it is evident that domestic abuse figures are much the same in our churches, and possibly higher in evangelical churches where the headship of men and the submission of women is made the God-given ideal. In this book, Kevin Giles surveys competently the scientific information on this matter now available and notes that the consensus is that the most sure indicator of higher incidences of abuse are found in communities where men are privileged and expected to be in charge and women are subordinated. This, he argues, should make complementarians consider afresh if in fact the subordination of women is the God-given ideal, established in creation before the fall.

The (Mis)Representation of Queer Lives in True Crime Abbie E. Goldberg,Danielle C. Slakoff,Carrie L. Buist,2023-08-25 This book examines the representation and misrepresentation of queer people in true crime, addressing their status as both victims and perpetrators in actual crime, as well as how the media portrays them. The chapters apply an intersectional perspective in examining criminal cases involving LGBTQ people, as well as the true crime media content surrounding the cases. The book illuminates how sexual orientation, gender, race, and other social locations impact the treatment of queer people in the criminal legal system and the mass media. Each chapter describes one or more high-profile criminal cases involving queer people (e.g., the murders of Brandon Teena and Kitty Genovese; serial killer Aileen Wuornos; the Pulse nightclub mass shooting). The authors examine how the cases are portrayed in the media via news, films, podcasts, documentaries, books, social media, and more. Each chapter discusses not only what is visible or emphasized by the media but also what is invisible in the accounting or societal focus surrounding the case. Lesser-known (but similar) cases are used in the book to call attention to how race, gender, sexuality, sexual orientation, social class, and/or other features influence the dominant narrative surrounding these cases. Each chapter addresses teachable moments from each case and its coverage, leaving readers with several considerations to take with them into the future. The book also provides media resources and supplemental materials so that curious readers, including scholars, students, content creators, and advocates, can examine the cases and media content further. The book will appeal to scholars and students of criminology, psychology, sociology, law, media studies, sexuality studies, and cultural studies, and people with an interest in true crime.

Cartographies of Empowerment Vimala Ramachandran ,Kameshwari Jandhyala,2014-03-11 Mahila Samakhya is as much a story of a government programme for women's education and empowerment as it is of the celebration of the struggles of poor women for gender just rights. Spread across eight states and more than 150 districts in India, the Mahila Samakhya programme grew out of a unique partnership between the women's movement and the government. In this collection of essays, concerned scholars from different parts of India chart Mahila Samakhya's fascinating journey of setting up poor women's collectives and women's agency in establishing an equal space and voice in the public domain - a radical departure from the more common approaches of organising women around economic concerns. The writers explore broad gender issues grounded within the field experience of Mahila Samakhya, providing insights into the workings of the programme at different levels, its conceptual challenges, strategic choices, the opportunities and pitfalls of partnership with government and above all the willingness of poor women to come together voluntarily to address and overcome gender barriers.

Some Men Michael A. Messner,Max A. Greenberg,Tal Peretz,2015 What does it mean for men to join with women as allies in preventing sexual assault and domestic violence? Based on life history interviews with men and women anti-violence activists aged 22 to 70, *Some Men* explores the strains and tensions of men's work as feminist allies. When feminist women began to mobilize against rape and domestic violence, setting up shelters and rape crisis centers, a few men asked what they could do to help. They were directed upstream, and told to talk to the men with the goal of preventing future acts of violence. This is a book about men who took this charge seriously, committing themselves to working with boys and men to stop violence, and to change the definition of what it means to be a man. The book examines the experiences of three generational cohorts: a movement cohort of men who engaged with anti-violence work in the 1970s and early 1980s, during the height of the feminist anti-violence mobilizations; a bridge cohort who engaged with anti-violence work from the mid-1980s into the 1990s, as feminism receded as a mass movement and activists built sustainable organizations; a professional cohort who engaged from the mid-1990s to the present, as anti-violence work has become embedded in community and campus organizations, non-profits, and the state. Across these different time periods, stories from life history interviews illuminate men's varying paths--including men of different ethnic and class backgrounds--into anti-violence work. *Some Men* explores the promise of men's violence prevention work with boys and men in schools, college sports, fraternities, and the U.S. military. It illuminates the strains and tensions of such work--including the reproduction of male privilege in feminist spheres--and explores how men and women navigate these tensions. COVID-19 J. Michael Ryan,2020-12-27 The SARS-CoV-2 virus, and the associated COVID-19 pandemic, is perhaps the greatest threat to life, and lifestyles, the world has known in more than a century. The scholarship included here provides critical insights into the ethics and ideologies, inequalities, and changed social understandings that lie at the heart of this

pandemic. This volume maps out the ways in which the pandemic has impacted (most often disproportionately) societies, the successes and failures of means used to combat the virus, and the considerations and future possibilities – both positive and negative – that lie ahead. While the pandemic has brought humanity together in some noteworthy ways, it has also laid bare many of the systemic inequalities that lie at the foundation of our global society. This volume is a significant step toward better understanding these impacts. The work presented here represents a remarkable diversity and quality of impassioned scholarship and is a timely and critical advance in knowledge related to the pandemic. This volume and its companion, COVID-19: Volume II: Social Consequences and Cultural Adaptations, are the result of the collaboration of more than 50 of the leading social scientists from across five continents. The breadth and depth of the scholarship is matched only by the intellectual and global scope of the contributors themselves. The insights presented here have much to offer not just to an understanding of the ongoing world of COVID-19, but also to helping us (re-) build, and better shape, the world beyond.

The Battered Wife Nancy Nason-Clark, 1997-01-01 Nason-Clark's sociological research reveals how churches and secular organizations have responded - sometimes with assistance, sometimes not - to victims of violence in their midst and how their response could be more effective. By exploring the relationship between violence and Christians' response to it from various perspectives - those of victim, clergy, congregation - this book ultimately encourages a pastoral assistance that reduces violence in the world and helps victims find the inner strength to leave their gardens.

Routledge International Handbook of Crime and Gender Studies Claire Renzetti, Susan Miller, Angela Gover, 2013-05-02
Criminological research has historically been based on the study of men, boys and crime. As a result, the criminal justice system's development of policies, programs, and treatment regimes was based on the male offender. It was not until the 1970s that some criminologists began to draw attention to the neglect of gender in the study of crime, but today, the study of gender and crime is burgeoning within criminology and includes a vast literature. The Routledge International Handbook of Crime and Gender Studies is a collection of original, cutting-edge, multidisciplinary essays which provide a thorough overview of the history and development of research on gender and crime, covering topics based around: theoretical and methodological approaches gender and victimization gender and offending gendered work in the criminal justice system future directions in gender and crime research. Alongside these essays are boxes which highlight particularly innovative ideas or controversial topics – such as cybercrime, restorative justice, campus crime, and media depictions. A second set of boxes features leading gender and crime researchers who reflect on what sparked their interest in the subject. This engaging and thoughtful collection will be invaluable for students and scholars of criminology, sociology, psychology, public health, social work, cultural studies, media studies, economics and political science.

Holy Bullies and Headless Monsters Alvin A. McEwen, 2007 Through dubious methods, the religious right have successfully demonized gays and lesbians in the eyes of people of faith. McEwen reveals the truth behind their false claims about the gay and lesbian community, including: Gay men have short life spans, Lesbians have a high rate of domestic violence, Gay men molest children at a high rate. McEwen also examines their tactics, revealing a pattern of generalizations, bad science, and out-and-out deceptions.

Feminism, Law, and Religion Marie Failinger, Elizabeth Schiltz, Susan J. Stabile, 2016-04-15 With contributions from some of the most prominent voices writing on gender, law and religion today, this book illuminates some of the conflicts at the intersection of feminism, theology and law. It examines a range of themes from the viewpoint of identifiable traditions such as Judaism, Christianity, Islam and Buddhism, from a theoretical and practical perspective. Among the themes discussed are the cross-over between religious and secular values and assumptions in the search for a just jurisprudence for women, the application of theological insights from religious traditions to legal issues at the core of feminist work, feminist legal readings of scriptural texts on women's rights and the place that religious law has assigned to women in ecclesiastic life. Feminists of faith face challenges from many sides: patriarchal remnants in their own tradition, dismissal of their faith commitments by secular feminists and balancing the conflicting loyalties of their lives. The book will be essential reading for legal and

religious academics and students working in the area of gender and law or law and religion.

Gendered Voices H.B. Holmarsdottir, V. Nomlomo, A.I. Farag, Z. Desai, 2013-02-11 Internationally, there is growing awareness that the target of Education for All by 2015 will not be met unless more strident efforts are made to improve access for marginalized, hard-to-reach children (most often girls). For almost four decades gender equality in education has been one of the key global concerns and as a result various organizations at national and international levels along with governments have initiated programs focusing on achieving gender equality, women's empowerment and improving girls' access to education. By focusing on access alone (i.e. gender parity) we may not understand how education can be used to achieve empowerment and influence cultural practices that are gender insensitive. In this volume we attempt to call into question the content of gender equality as simple parity and in doing so we reflect upon the following questions: • Do the global (macro) discourses on gender equality in education lead to a focus on numbers only or to more profound sustainable changes at the national (meso) level and the school (micro) level? • To what extent have national policies been adjusted to reflect the global discourses on gender equality? • Are schools/classrooms (micro) expected to adjust to these global discourses and if so in what ways has this happened? • What are the challenges of providing access to good quality education for girls in both countries? • Is there a dichotomy between the schools/classrooms on the one hand and the community on the other in terms of gender equality/equity? • To what extent is gender equality/equity imposed upon schools and communities and does it take into account the cultural practices in traditional communities? Key words: Gender equality, education, Global vs. local concerns 3 selling points: • The volume highlights that although research has shown how global educational policies homogenize national educational policies and are therefore playing what can be termed a neo-colonial role in identifying pivotal themes and topics in education across the world such as gender equality, literacy and quality education in local contexts, they are often steeped in a Western logic which is not always culturally relevant or conducive. Making global recommendations for education across cultures and places is thus not always unproblematic. • The volume highlights that a push for girls' schooling must navigate wisely in sensitive terrain where complex contextual aspects must be understood and taken into account. Girls' attendance and retention in school are important first steps in the struggle for epistemic access, but must be followed by serious deliberations about what kind of school and what kind of knowledge in the schools is appropriate, and about equality and equity. • The volume attempts to understand how the global gender goals in education affect both local policies and local practice and in doing so it attempts to question the simple focus on access only.

Living in sin Ginger Frost, 2013-07-19 *Living in sin* is the first book-length study of cohabitation in nineteenth-century England, based on research into the lives of hundreds of couples. 'Common-law' marriages did not have any legal basis, so the Victorian courts had to wrestle with unions that resembled marriage in every way, yet did not meet its most basic requirements. The majority of those who lived in irregular unions did so because they could not marry legally. Others chose

not to marry, from indifference, from class differences, or because they dissented from marriage for philosophical reasons. This book looks at each motivation in turn, highlighting class, gender and generational differences, as well as the reactions of wider kin and community. Frost shows how these couples slowly widened the definition of legal marriage, preparing the way for the more substantial changes of the twentieth century, making this a valuable resource for all those interested in Gender and Social History.
