Theologies of Pain Lucas Hardy, 2024-10-17 With the arrival of Puritan settlers in New England in the middle decades of the 17th-century, accounts of sickness, colonial violence, and painful religious transformation quickly emerged, enabling new forms of testimonial writing in prose and poetry. Investigating a broad transatlantic archive of religious literature, historical medical science, and philosophies of sensation, this book explores how Puritan America contemplated pain and ascribed meaning to it in writing. By weaving the experience of pained bodies into popular public discourse, Hardy shows how Puritans imagined the pained Christian body, whilst simultaneously marginalizing and vilifying those who expressed suffering by different measures, including Indigenous Americans and unorthodox colonists. Focusing on pain as it emerged from spaces of inchoate settlement and colonial violence, he provides new understandings of early American nationalism and connected racial tropes which persist today.

The Joy of Pain Richard H. Smith, 2013-07-02 Few people will easily admit to taking pleasure in the misfortunes of others. But who doesn't enjoy it when an arrogant but untalented contestant is humiliated on American Idol, or when the embarrassing vice of a self-righteous politician is exposed, or even when an envied friend suffers a small setback? The truth is that joy in someone else's pain—known by the German word *schadenfreude*—permeates our society. In *The Joy of Pain*, psychologist Richard Smith, one of the world's foremost authorities on envy and shame, sheds much light on a feeling we dare not admit. Smith argues that *schadenfreude* is a natural human emotion, one worth taking a closer look at, as it reveals much about who we are as human beings. We have a passion for justice. Sometimes, *schadenfreude* can feel like getting one's revenge, when the suffering person has previously harmed us. But most of us are also motivated to feel good about ourselves, Smith notes, and look for ways to maintain a positive sense of self. One common way to do this is to compare ourselves to others and find areas where we are better. Similarly, the downfall of others—especially when they have seemed superior to us—can lead to a boost in our self-esteem, a lessening of feelings of inferiority. This is often at the root of *schadenfreude*. As the author points out, most instances of *schadenfreude* are harmless, on par with the pleasures of light gossip. Yet we must also be mindful that envy can motivate, without full awareness, the engineering of the misfortune we delight in. And envy-induced aggression can take us into dark territory indeed, as Smith shows as he examines the role of envy and *schadenfreude* in the Nazi persecution of the Jews. Filled with engaging examples of *schadenfreude*, from popular reality shows to the Duke-Kentucky basketball rivalry, *The Joy of Pain* provides an intriguing glimpse into a hidden corner of the human psyche.

Encountering Pain Deborah Padfield, Joanna M. Zakrzewska, 2021-02-15 What is persistent pain? How do we communicate pain, not only in words but in visual images and gesture? How do we respond to the pain of another, and can

we do it better? Can explaining how pain works help us handle it? This unique compilation of voices addresses these and bigger questions. Defined as having lasted over three months, persistent pain changes the brain and nervous system so pain no longer warns of danger: it seems to be a fault in the system. It is a major cause of disability globally, but it remains difficult to communicate, a problem both to those with pain and those who try to help. Language struggles to bridge the gap, and it raises ethical challenges in its management unlike those of other common conditions. *Encountering Pain* shares leading research into the potential value of visual images and non-verbal forms of communication as means of improving clinician-patient interaction. It is divided into four sections: hearing, seeing, speaking, and a final series of contributions on the future for persistent pain. The chapters are accompanied by vivid photographs co-created with those who live with pain. The volume integrates the voices of leading scientists, academics and contemporary artists with poetry and poignant personal testimonies to provide a manual for understanding the meanings of pain, for healthcare professionals, pain patients, students, academics and artists. The voices and experiences of those living with pain are central, providing tools for discussion and future research, shifting register between creative, academic and personal contributions from diverse cultures and weaving them together to offer new understanding, knowledge and hope.

The Forest and the Trees Richard A. Widder,Wendy Widder,2008-03-01 Why do we have to learn this? For as long as there have been students, teachers have been answering this question, but we haven't always answered it very well--for our students or for ourselves. We sometimes forget that everything we teach, whether sacred or secular, has value because it is part of God's truth, and integrating that truth across the curriculum is what makes an education Christian. This book from a father-and-daughter team of seasoned Christian educators offers a comprehensive, biblically based presentation of integration. Its goal is to help readers view all aspects of the curriculum within the framework of God's story as told from Genesis to Revelation. By organizing subject areas under five broad categories--nature, people, communication, beauty, and ultimate issues--the authors demonstrate that each subject area flows from the biblical story. Each chapter concludes with a summary of the truths presented, a set of teacher tips, and a list of additional resources.

Language Pangs Ilit Ferber,2019 We usually think about language and pain as opposites: the one is about expression and communication, the other very private, unspeakable and isolating. *Language Pangs* challenges these familiar conceptions and proposes a reconsideration of the relationship between pain and language in terms of an essential interconnectedness, rather than the common exclusive opposition. *Language Pangs* brings together discussions of philosophical as well as literary texts focusing on the relationship between pain and language. It provides close readings of Johann Gottfried Herder's *Treatise on the Origin of Language*, Martin Heidegger's seminar on Herder's text about language, and Sophocles' play, *Philoctetes*.

Disinterested Pleasure and Beauty Larissa Berger,2023-07-24 The conception of disinterested pleasure is not only central

to Kant's theory of beauty but also highly influential in contemporary philosophical discourse about beauty. However, it remains unclear, what exactly disinterested pleasure is and what role it plays in experiences of beauty. This volume sheds new light on the conception of disinterested pleasure from the perspectives of both Kant scholarship and contemporary aesthetics. In the first part, the focus is on Kant's theory of beauty as grounded on the conception of disinterested pleasure. In the second part, disinterested pleasure is investigated in the light of contemporary debates on beauty. The volume clarifies the meaning, role, and implications of one of the most influential conceptions in traditional as well as contemporary approaches to beauty.

Pleasure and Pain in Nineteenth-Century French Literature and Culture ,2008-01-01 From Sade at one end of the nineteenth century to Freud at the other, via many French novelists and poets, pleasure and pain become ever more closely entwined. Whereas the inseparability of these themes has hitherto been studied from isolated perspectives, such as psychoanalysis, sadism and sado-masochism, melancholy, or post-structuralist textual jouissance, the originality of this collaborative volume lies in its exploration of how pleasure and pain function across a broader range of contexts. The essays collected here demonstrate how the complex relationship between pleasure and pain plays a vital role in structuring nineteenth-century thinking in prose fiction (Balzac, Flaubert, Musset, Maupassant, Zola), verse and the memoir as well as socio-cultural studies, medical discourses, aesthetic theory and the visual arts. Featuring an international selection of contributors representing the full range of approaches to scholarship in nineteenth-century French studies – historical, literary, cultural, art historical, philosophical, and sociopolitical – the volume attests to the vitality, coherence and interdisciplinarity of nineteenth-century French studies and will be of interest to a wide cross-section of scholars and students of French literature, society and culture.

Signifying Pain Judith Harris,2012-02-01 A deeply personal yet universal work, Signifying Pain applies the principles of therapeutic writing to such painful life experiences as mental illness, suicide, racism, domestic abuse, and even genocide. Probing deep into the bedrock of literary imagination, Judith Harris traces the odyssey of a diverse group of writers—John Keats, Derek Walcott, Jane Kenyon, Michael S. Harper, Robert Lowell, and Ai, as well as student writers—who have used their writing to work through and past such personal traumas. Drawing on her own experience as a poet and teacher, Harris shows how the process can be long and arduous, but that when exercised within the spirit of one's own personal compassion, the results can be limitless. Signifying Pain will be of interest not only to teachers of creative and therapeutic writing, but also to those with a critical interest in autobiographical or confessional writing more generally.

Romantic Love and Personal Beauty Henry T. Finck, 1887

Experiencing Pain in Imperial Greek Culture Daniel King, 2018 This volume investigates the history and nature of pain in Greek culture under the Roman Empire (50-250 CE). Traditional accounts of pain in this society have focused either on philosophical or medical theories of pain or on Christian notions of 'suffering'; fascination with the pained body has often been assumed to be a characteristic of Christian society, rather than Imperial culture in general. This book employs tools from contemporary cultural and literary theory to examine the treatment of pain in a range of central cultural discourses from the first three centuries of the Empire, including medicine, religious writing, novelistic literature, and rhetorical ekphrasis. It argues instead that pain was approached from an holistic perspective: rather than treating pain as a narrowly defined physiological perception, it was conceived as a type of embodied experience in which ideas about the body's physiology, the representation and articulation of its perceptions, as well as the emotional and cognitive impact of pain were all important facets of what it meant to be in pain. By bringing this conception to light, scholars are able to redefine our understanding of the social and emotional fabric of Imperial society and help to reposition its relationship with the emergence of Christian society in late antiquity.

Representations of Pain in Art and Visual Culture Maria Pia Di Bella, James Elkins, 2013-06-26 The presentation of bodies in pain has been a major concern in Western art since the time of the Greeks. The Christian tradition is closely entwined with such themes, from the central images of the Passion to the representations of bloody martyrdoms. The remnants of this tradition are evident in contemporary images from Abu Ghraib. In the last forty years, the body in pain has

also emerged as a recurring theme in performance art. Recently, authors such as Elaine Scarry, Susan Sontag, and Giorgio Agamben have written about these themes. The scholars in this volume add to the discussion, analyzing representations of pain in art and the media. Their essays are firmly anchored on consideration of the images, not on whatever actual pain the subjects suffered. At issue is representation, before and often apart from events in the world. Part One concerns practices in which the appearance of pain is understood as expressive. Topics discussed include the strange dynamics of faked pain and real pain, contemporary performance art, international photojournalism, surrealism, and Renaissance and Baroque art. Part Two concerns representations that cannot be readily assigned to that genealogy: the Chinese form of execution known as lingchi (popularly the death of a thousand cuts), whippings in the Belgian Congo, American lynching photographs, Boer War concentration camp photographs, and recent American capital punishment. These examples do not comprise a single alternate genealogy, but are united by the absence of an intention to represent pain. The book concludes with a roundtable discussion, where the authors discuss the ethical implications of viewing such images.

Bewilderments Avivah Gottlieb Zornberg, 2017-09-05 Through the magnificent literary, scholarly, and psychological analysis of the text that is her trademark, Avivah Gottlieb Zornberg tackles the enduring puzzlement of the book of Numbers. What should have been for the Israelites a brief journey from Mount Sinai to the Holy Land becomes a forty-year death march. Both before and after the devastating report of the Spies, the narrative centers on the people's desire to return to slavery in Egypt. At its heart are speeches of complaint and lament. But in the narrative of the book of Numbers that is found in mystical and Hasidic sources, the generation of the wilderness emerges as one of extraordinary spiritual experience, fed on miracles and nurtured directly by God: a generation of ecstatic faith, human partners in an unprecedented conversation with the Deity. Drawing on kabbalistic sources, the Hasidic commentators depict a people who transcend prudent considerations in order to follow God into the wilderness, where their spiritual yearning comes to full expression. Is there a way to integrate this narrative of dark murmurings, of obsessive fantasies of a return to Egypt, with the celebration of a love-intoxicated wilderness discourse? What effect does the cumulative trauma of slavery, the miracles of Exodus, and the revelation at Sinai have on a nation that is beginning to speak? In *Bewilderments*, one of our most admired biblical commentators suggests fascinating answers to these questions.

British Romanticism and the Reception of Italian Old Master Art, 1793-1840 Maureen McCue, 2016-05-23 As a result of Napoleon's campaigns in Italy, Old Master art flooded into Britain and its acquisition became an index of national

prestige. Maureen McCue argues that their responses to these works informed the writing of Romantic period authors, enabling them to forge often surprising connections between Italian art, the imagination and the period's political, social and commercial realities. Dr McCue examines poetry, plays, novels, travel writing, exhibition catalogues, early guidebooks and private experiences recorded in letters and diaries by canonical and noncanonical authors, including Felicia Hemans, William Buchanan, Henry Sass, Pierce Egan, William Hazlitt, Percy Shelley, Lord Byron, Anna Jameson, Maria Graham Callcott and Samuel Rogers. Her exploration of the idea of connoisseurship shows the ways in which a knowledge of Italian art became a key marker of cultural standing that was no longer limited to artists and aristocrats, while her chapter on the literary production of post-Waterloo Britain traces the development of a critical vocabulary equally applicable to the visual arts and literature. In offering cultural, historical and literary readings of the responses to Italian art by early nineteenth-century writers, Dr McCue illuminates the important role they played in shaping the themes that are central to our understanding of Romanticism.

Rhetorical Pain Tiara Good, 2024-10-17 This book provides close-textual analysis of traditional and mediated, popular memorials that tackle some of the most significant sources of pain in United States. In doing so, Tiara K. Good argues that pain is highly rhetorical and functions to form collectives and instigate change. This book also demonstrates how popular media texts, such as Nia DaCosta's 2021 *Candyman* and Hulu's original 2021 series *Dopesick*, hold enormous potential to be effective memorials by virtue of their accessibility and quality of being unbounded by space and place. Tiara K. Good analyzes how each memorial rhetorically operates to demand witness and craft witnesses into people whom can make change. Scholars of rhetoric, public memory, and communication will find this book of particular interest.
