*Ranger Medic Handbook* U.S. Department of Defense, 2016-01-19 Historically in warfare, the majority of all combat deaths have occurred prior to a casualty ever receiving advanced trauma management. The execution of the Ranger mission profile in the Global War on Terrorism and our legacy tasks undoubtedly will increase the number of lethal wounds. Ranger leaders can significantly reduce the number of Rangers who die of wounds sustained in combat by simply targeting optimal medical capability in close proximity to the point of wounding. Directing casualty response management and evacuation is a Ranger leader task; ensuring technical medical competence is a Ranger Medic task. A solid foundation has been built for Ranger leaders and medics to be successful in managing casualties in a combat environment. The true success of the Ranger Medical Team will be defined by its ability to complete the mission and greatly reduce preventable combat death. Rangers value honor and reputation more than their lives, and as such will attempt to lay down their own lives in defense of their comrades. The Ranger Medic will do no less.

1. I will always remember that these are the finest Infantry on this earth, and that as such they deserve the finest health care.
2. No Ranger or Ranger dependent who comes to me for health care will ever be turned away without their needs being addressed, even if their paperwork/administrative requirements are not in order.
3. I will never let slip my mind the fact that in chaos of battle, I am all that stands between that bleeding, wounded Ranger and the finality of death. I will perform my job with such skill that the grim reaper will walk away empty-handed.
4. I will always remember that I must not only treat wounded Rangers, I must also carry them sometimes. I will maintain the physical conditioning necessary to accomplish this.
5. I will always remember that uniforms, weapons and supplies can all be DX'd but that each Ranger only comes with one body. I will never jeopardize the safety and/or recovery of that body by performing medical tasks beyond my skill and training.
6. I will always be cognizant of the fact that people do not suddenly get well after 1700 hours and on weekends, and that as such, I will willingly provide or coordinate for health care 24 hours a day, 7 days a week.
7. I will never do anything stupid because they or regulations require it to be so. I will find a way to accomplish my mission and serve the Rangers of this Regiment.
8. I will always remember that everything I use is paid for by US citizens. I will remember those tax dollars are collected from the American people and given to the Rangers because those people believe that in exchange for that money they will be kept safe from the tyrants of the world.
9. I will never forget that this is an Infantry unit supported by a medical team; not a medical team supported by a plethora of Infantry.
10. I will never forget that when the tyrants of the earth look towards the USA and plot mischief, they see a wall of cold steel backed up by determined men wearing Tan Berets; and then they plot their mischief somewhere else. The extent to which I support that wall is the extent to which I have a right to consume oxygen. BUY YOUR COPY TODAY!

Features: Comprehensive coverage of the use of X-rays both in medical radiology and industrial testing The first handbook published to be dedicated to the physics and technology of X-rays Handbook edited by world authority, with contributions from experts in each field

**Texas Rangers, Ranchers, and Realtors** Thomas O. McDonald,2021-03-25 A native Georgian, James Hughes Callahan (1812-1856) migrated to Texas to serve in the Texas Revolution in exchange for land. In Seguin, Texas, where he settled, he

met and married a divorcée, Sarah Medissa Day (1822-1856). The lives of these two Texas pioneers and their extended family would become so entwined in the events and experiences of the nascent nation and state that their story represents a social history of nineteenth-century Texas. From his arrival as a sergeant with the Georgia Battalion, through the ill-fated 1855 expedition that bears his name, to his shooting death in a feud with a neighbor, Callahan was a soldier, a Texas Ranger, a rancher, and a land developer, at every turn making his mark on the evolving Guadalupe River Basin. Separately, Sarah's family's journey reflected the experience of many immigrants to Texas after its war of independence. Thomas O. McDonald traces the pair's respective paths to their meeting, then follows as, together, they contend with conflict, troublesome social mores, the emergence of new industries, and the taming of the land, along the way helping to shape the Texas culture we know today. With a sharp eye for character and detail, and with a wealth of material at his command, author Thomas O. McDonald tells a story as crackling with life as it is steeped in scholarly research. In these pages the lives of the Callahan and Day families become a canvas on which the history of Texas—from revolution, frontier defense, and Indian wars to Anglo settlement and emerging legal and social systems—dramatically, inexorably unfolds.
