**Houman A. Sadri**

*An Empire in Decline: 50 Years after Aurangzeb's Reign: The Beginning of the End of the Mughals* Professor Devi Pattnaik, Imagine, if you will, standing at the precipice of a magnificent, ancient edifice. For nearly two centuries, its spires had touched the heavens, its foundations had cradled a continent, and its very name had commanded awe and allegiance. This was the Mughal Empire, a colossus of unparalleled wealth, military might, and cultural brilliance that had cast its long shadow over much of the Indian subcontinent. Yet, in the spring of 1707, as the last breath left the body of its formidable emperor, Aurangzeb, the very air seemed to thicken with a foreboding quiet. The colossus, outwardly still imposing, now stood revealed, to those with discerning eyes, to possess feet of clay. Welcome to *An Empire in Decline: 50 Years after Aurangzeb's Reign*, a journey into one of the most critical, turbulent, and tragically captivating periods in Indian history. I promise an exploration grounded in meticulous factual accuracy, yet woven with the drama and human intrigue that defined these momentous decades. This is not merely a recounting of dates and names; it is an intimate glimpse into the processes of imperial decay, the desperate struggles for power, and the birth of new forces that would forever alter the destiny of a subcontinent.

**Music of a Thousand Years** Ann E. Lucas, 2019-10-22 A free open access ebook is available upon publication. Learn more at [www.luminosoa.org](http://www.luminosoa.org). Iran's particular system of traditional Persian art music has been long treated as the product of an ever-evolving, ancient Persian culture. In *Music of a Thousand Years*, Ann E. Lucas argues that this music is a modern phenomenon indelibly tied to changing notions of Iran's national history. Rather than considering a single Persian music history, Lucas demonstrates cultural dissimilarity and discontinuity over time, bringing to light two different notions of music-making in relation to premodern and modern musical norms. An important corrective to the history of Persian music, *Music of a Thousand Years* is the first work to align understandings of Middle Eastern music history with current understandings of the region's political history.

*Explorations in History and Globalization* Cátia Antunes, Karwan Fatah-Black, 2016-04-14 Considering the ways in which the 'global turn' is changing the theory and practice of historical disciplines, *Explorations in History and Globalization* engages with the concept and methodology of globalization, challenging traditional divisions of space and time to offer a range of perspectives on how globalization has affected social, economic, political and cultural history. Each chapter covers a

specific theme, discussing how globalization has shaped these themes and how they have contributed to globalization throughout history. Including topics such as ecological exchanges, trade, exchanges of knowledge, migration, empire and urbanization, this volume both explains historical trajectories through a global analytical framework and provides tools that students can employ when posing their own research questions about historical globalization. Containing suggestions for further reading and guidance on the ways in which primary source material can be used as a basis for global historical studies, this is the ideal volume for all students interested in the global exchanges between people throughout history.

Understanding Iran William R. Polk, 2024-09-04 A digestible history of this tortured land is something Americans sorely need. . . . Polk carefully constructs one. — USA Today William R. Polk provides an informative, readable history of a country which is moving quickly toward becoming the dominant power and culture of the Middle East. A former member of the State Department's Policy Planning Council, Polk describes a country and a history misunderstood by many in the West. While Iranians chafe under the yolk of their current leaders, they also have bitter memories of generations of British, Russian and American espionage, invasion, and dominance. There are important lessons to be learned from the past, and Polk teases them out of a long and rich history and shows that it is not just now, but for decades to come that an understanding of Iran will be essential to American safety and well-being. A superb and insightful historical account of Iran and the evolution of the Persian culture. —General Anthony C. Zinni USMC (Retired), co-author of *Leading the Charge* and *The Battle for Peace* A great scholar's brilliant appreciation of Iranian culture and history. —Dr. Khodadad Farmanfarmaian, former Deputy Prime Minister of Iran A thoughtful, clear-eyed look at America's entanglement in the Middle East. . . . sharp, smart analysis. —David Ignatius, columnist for the Washington Post and author of *The Increment* William Polk presents the reader with the full sweep of Iraq's history. . . . a comprehensive tour. — Washington Times Haunting. . . . One of the clearest prescriptions for success in Iraq yet to emerge. — Publishers Weekly

The New Cambridge History of Islam: Volume 3, The Eastern Islamic World, Eleventh to Eighteenth Centuries David O. Morgan, Anthony Reid, 2010-11-04 This volume traces the second great expansion of the Islamic world eastwards from the eleventh century to the eighteenth. As the faith crossed cultural boundaries, the trader and the mystic became as important as the soldier and the administrator. Distinctive Islamic idioms began to emerge from other great linguistic traditions apart from Arabic, especially in Turkish, Persian, Urdu, Swahili, Malay and Chinese. The Islamic world transformed and absorbed new influences. As the essays in this collection demonstrate, three major features distinguish the time and place from both earlier and modern experiences of Islam. Firstly, the steppe tribal peoples of central Asia had a decisive impact on the Islamic lands. Secondly, Islam expanded along the trade routes of the Indian Ocean and the South China Sea. Thirdly, Islam interacted with Asian spirituality, including Hinduism, Sikhism, Buddhism, Taoism and Shamanism. It was during this period that Islam became a truly world religion.

Superstates Alasdair Roberts, 2022-11-29 In this century, the world will conduct an extraordinary experiment in government. In 2050, forty percent of the planet's population will live in just four places: India, China, the European Union, and the United States. These are superstates – polities that are distinguished from normal countries by expansiveness, population, diversity, and complexity. How should superstates be governed? What must their leaders do to hold these immense polities together in the face of extraordinary strains and shocks? Alasdair Roberts looks to history for answers. Superstates, he contends, wrestle with the same problems of leadership, control, and purpose that plagued empires for centuries. But they also bear heavier burdens than empires – including the obligation to improve life for ordinary people and respect human rights. One axiom of history was that empires always died. Size and complexity led to fragility, and imperial rulers improvised constantly to put off the day of reckoning. Leaders of superstates are doing the same today, pursuing radically different strategies for governing at scale that have profound implications for democracy and human rights. History shows that there are ways to govern these sprawling and diverse polities well. But this requires a different way of thinking about the art and methods of statecraft.

**A Military History of Afghanistan** Ali Ahmad Jalali, 2017-03-17 The history of Afghanistan is largely military history. From the Persians and Greeks of antiquity to the British, Soviet, and American powers in modern times, outsiders have led military conquests into the mountains and plains of Afghanistan, leaving their indelible marks on this ancient land at the juncture of Europe, Asia, and the Middle East. In this book Ali Ahmad Jalali, a former interior minister of Afghanistan, taps a deep understanding of his country's distant and recent past to explore Afghanistan's military history during the last two hundred years. With an introductory chapter highlighting the major military developments from early times to the foundation of the modern Afghan state, Jalali's account focuses primarily on the era of British conquest and Anglo-Afghan wars; the Soviet invasion; the civil war and the rise of the Taliban; and the subsequent U.S. invasion. Looking beyond persistent stereotypes and generalizations—e.g., the graveyard of empires designation emerging from the Anglo-Afghan wars of the 19th century and the Soviet experience of the 1980s—Jalali offers a nuanced and comprehensive portrayal of the way of war pursued by both state and non-state actors in Afghanistan against different domestic and foreign enemies, under changing social, political, and technological conditions. He reveals how the structure of states, tribes, and social communities in Afghanistan, along with the scope of their controlled space, has shaped their modes of fighting throughout history. In particular, his account shows how dynastic wars and foreign conquests differ in principle, strategy, and method from wars initiated by non-state actors including tribal and community militias against foreign invasions or repressive government. Written by a professional soldier, politician, and noted scholar with a keen analytical grasp of his country's military and political history, this magisterial work offers unique insight into the military history of Afghanistan—and thus, into Afghanistan itself.

**Crisis, Collapse, Militarism and Civil War** Michael Axworthy, 2018 The history of 18th century Iran has been neglected but is vital for understanding contemporary Iran, and is a fascinating drama in its own right. This book presents contributions from the leading experts on this period worldwide, and is a major advance in this important area of Iranian Studies.

**Conflict and Cooperation in the South Caucasus Region** Houman A. Sadri, 2023-12-19 Conflict and Cooperation in the South Caucasus Region: From Theory to Policy combines IR theory and policy in a readable format. Houman A. Sadri discusses the distinctive challenges of the South Caucasus region and offers a survey of relevant IR theories. Armenia, Azerbaijan, and Georgia are covered in-depth since independence. These former Soviet republics have experienced major conflicts and cooperation since independence in the early 1990s. The 2008 Russian invasion of Georgia and the Armenian-Azeri Wars captured headlines and affected markets, but the completion of energy pipelines exposed the complexity of cooperation in connecting the regional and global political economy. Conflict and Cooperation in the South Caucasus Region has three major purposes: 1) To provide a survey of the major developments of the Caucasus States, 2) To analyze the application of IR prominent theories, and 3) To offer practical policy options for policymakers seeking to understand the South Caucasus region. What does the remainder of the 21st Century hold for Armenia, Azerbaijan, and Georgia? Where are the main sources of threats? How can these threats be effectively dealt with?

**Western Representations of the Muslim Woman** Mohja Kahf, 2010-01-01 Veiled, secluded, submissive, oppressed—the odalisque image has held sway over Western representations of Muslim women since the Enlightenment of the eighteenth century. Yet during medieval and Renaissance times, European writers portrayed Muslim women in exactly the opposite way, as forceful queens of wanton and intimidating sexuality. In this illuminating study, Mohja Kahf traces the process through which the termagant became an odalisque in Western representations of Muslim women. Drawing examples from medieval *chanson de geste* and romance, Renaissance drama, Enlightenment prose, and Romantic poetry, she links the changing images of Muslim women to changes in European relations with the Islamic world, as well as to changing gender dynamics within Western societies.

*The Champions' of the True Faith* Farid Adel, 2016-09-29 Thereafter, Farid wrote numerous books related to the terrorists such as Al Qaeda, ISIS, the Ayatollahs, including with their perverted ideology in relation to the message of the Quran and Islam. Now he is ready to inform the people of this country about the Quran/Islam and the excellent personalities of the followers of this great faith. His new book, *The Champions of the True Faith*, will lead and shine light into the truth of Islam. He concluded that this book is not a religious one but, to a large extent, is one with historical facts.

*The Legendary Biographies of Tamerlane* Ron Sela, 2011-04-29 Timur (or Tamerlane) is famous as the fourteenth-century conqueror of much of Central Eurasia and the founder of the Timurid dynasty. His reputation lived on in his native lands and

reappeared some three centuries after his death in the form of fictional biographies, authored anonymously in Persian and Turkic. These biographies have become part of popular culture. Despite a direct continuity in their production from the eighteenth century to the present, they remain virtually unknown to people outside the region. This remarkable and rigorous scholarly appraisal of the legendary biographies of Tamerlane is the first of its kind in any language. The book sheds light not only on the character of Tamerlane and how he was remembered and championed by many generations after his demise, but also on the era in which the biographies were written and how they were conceived and received by the local populace during an age of crisis in their own history.

Islam Through Western Eyes Jonathan Lyons, 2014-01-01 Despite the West's growing involvement in Muslim societies, conflicts, and cultures, its inability to understand or analyze the Islamic world threatens any prospect for East-West rapprochement. Impelled by one thousand years of anti-Muslim ideas and images, the West has failed to engage in any meaningful or productive way with the world of Islam. Formulated in the medieval halls of the Roman Curia and courts of the European Crusaders and perfected in the newsrooms of Fox News and CNN, this anti-Islamic discourse determines what can and cannot be said about Muslims and their religion, trapping the West in a dangerous, dead-end politics that it cannot afford. In *Islam Through Western Eyes*, Jonathan Lyons unpacks Western habits of thinking and writing about Islam, conducting a careful analysis of the West's grand totalizing narrative across one thousand years of history. He observes the discourse's corrosive effects on the social sciences, including sociology, politics, philosophy, theology, international relations, security studies, and human rights scholarship. He follows its influence on research, speeches, political strategy, and government policy, preventing the West from responding effectively to its most significant twenty-first-century challenges: the rise of Islamic power, the emergence of religious violence, and the growing tension between established social values and multicultural rights among Muslim immigrant populations. Through the intellectual archaeology of Michel Foucault, Lyons reveals the workings of this discourse and its underlying impact on our social, intellectual, and political lives. He then addresses issues of deep concern to Western readers—Islam and modernity, Islam and violence, and Islam and women—and proposes new ways of thinking about the Western relationship to the Islamic world.

*Imperial Meridian* C. A. Bayly, 2016-09-17 In this impressive and ambitious survey Dr Bayly studies the rise, apogee and decline of what has come to be called 'the Second British Empire' -- the great expansion of British dominion overseas (particularly in Asia and the Middle East) during the French Revolutionary and Napoleonic era that, coming between the loss of America and the subsequent partition of Africa, constitutes the central phase of British imperial history.

**Religious Fundamentalism in the Middle East** Mansoor Moaddel, Stuart A. Karabenick, 2013-07-04 In *Religious Fundamentalism in the Middle East*, Moaddel and Karabenick analyze fundamentalist beliefs and attitudes across nations (Egypt, Iran, Lebanon, and Saudi Arabia), faith (Christianity and Islam), and ethnicity (Azari-Turks, Kurds, and Persians among Iranians), using comparative survey data. For them, fundamentalism is not just a set of religious beliefs. It is rather a set of beliefs about and attitudes toward whatever religious beliefs one has. In this analysis, the authors show that fundamentalist beliefs and attitudes vary across national contexts and individual characteristics, and predict people's orientation toward the same set of historical issues that were the concerns of fundamentalist intellectual leaders and activists. The authors' analysis reveals a cycle of spirituality that reinforces the critical importance of taking historical and cultural contexts into consideration to understand the role of religious fundamentalism in contemporary Middle Eastern societies.

**Iran at War** Kaveh Farrokh, 2011-12-20 Following on from his award-winning book on the history of ancient Persia, Kaveh Farrokh goes on to examine Iran's wartime history from the Safavid dynasty of the 16th and 17th century through to the 1979 Revolution and beyond. He shows how the early military successes were followed by centuries of defeat as the external influences of nations like Russia and Britain began to shape the internal history of Iran, before unraveling the complex, violent 20th century military history of the country, which encompasses two world wars, regional movements, foreign intervention, anti-government revolts, conflicts on the Soviet border, a revolution and an eight-year war with Iraq. Illustrated with contemporary illustrations and photographs this book provides an unparalleled investigation into the bloody martial history of Iran.
