González, Hugh Gusterson, Gustaaf Houtman, 2019-12-06 Militarization: A Reader offers a range of critical perspectives on the dynamics of militarization as a social, economic, political, cultural, and environmental phenomenon. It portrays militarism as the condition in which military values and frameworks come to dominate state structures and public culture both in foreign relations and in the domestic sphere. Featuring short, readable essays by anthropologists, historians, political scientists, cultural theorists, and media commentators, the Reader probes militarism's ideologies, including those that valorize warriors, armed conflict, and weaponry. Outlining contemporary militarization processes at work around the world, the Reader offers a wide-ranging examination of a phenomenon that touches the lives of billions of people. In collaboration with Catherine Besteman, Andrew Bickford, Catherine Lutz, Katherine T. McCaffrey, Austin Miller, David H. Price, David Vine

The Long War Andrew J. Bacevich, 2009-06-22 Essays by a diverse and distinguished group of historians, political scientists, and sociologists examine the alarms, emergencies, controversies, and confusions that have characterized America's Cold War, the post-Cold War interval of the 1990s, and today's Global War on Terror. The developments of this

Long War have left their imprint on virtually every aspect of American life, and by considering the period as a whole, this volume is the first to take a truly comprehensive look at America's response to the national-security crisis touched off by the events of World War II. Contributors consider topics ranging from grand strategy and strategic bombing to ideology and economics, and assess the changing American way of war as the twentieth century progressed. They evaluate the evolution of the national-security apparatus and the role of dissenters who viewed the activities of that apparatus with dismay, and they take a fresh look at the Long War's civic implications and its impact on civil-military relations. More than a military history, *The Long War* examines the ideas, policies, and institutions that have taken shape since the United States claimed the role of global superpower. In breaking down the old and artificial boundaries that have traditionally divided the postwar period into neat historical units, this volume offers fresh perspectives on the current state of American national security.

Kangaroo Courts and the Rule of Law Desmond Manderson, 2012-07-26 *Kangaroo Courts and the Rule of Law* - The Legacy of Modernism addresses the legacy of contemporary critiques of language for the concept of the rule of law. Between those who care about the rule of law and those who are interested in contemporary legal theory, there has been a dialogue of the deaf, which cannot continue. Starting from the position that contemporary critiques of linguistic meaning and legal certainty are too important to be dismissed, Desmond Manderson takes up the political and intellectual challenge they pose. Can the rule of law be re-configured in light of the critical turn of the past several years in legal theory, rather than being steadfastly opposed to it? Pursuing a reflection upon the relationship between law and the humanities, the book stages an encounter between the influential theoretical work of Jacques Derrida and Mikhail Bakhtin, and D.H. Lawrence's strange and misunderstood novel *Kangaroo* (1923). At a critical juncture in our intellectual history - the modernist movement at the end of the first world war - and struggling with the same problems we are puzzling over today, Lawrence articulated complex ideas about the nature of justice and the nature of literature. Using Lawrence to clarify Derrida's writings on law, as well as using Derrida and Bakhtin to clarify Lawrence's experience of literature, Manderson makes a robust case for 'law and literature.' With this framework in mind he outlines a 'post-positivist' conception of the rule of law - in which justice is imperfectly possible, rather than perfectly impossible.

Race and Gender in Modern Western Warfare David Ulbrich, Bobby A. Wintermute, 2018-12-03 This book fills a gap in the historiographical and theoretical fields of race, gender, and war. In brief, *Race and Gender in Modern Western Warfare* (RGMWW) offers an introduction into how cultural constructions of identity are transformed by war and how they in turn influence the nature of military institutions and conflicts. Focusing on the modern West, this project begins by introducing the contours of race and gender theories as they have evolved and how they are employed by historians, anthropologists, sociologists, and other scholars. The project then mixes chronological narrative with analysis and historiography as it takes the reader through a series of case studies, ranging from the early nineteenth century to the Global War of Terror. The

purpose throughout is not merely to create a list of so-called great moments in race and gender, but to create a meta-landscape in which readers can learn to identify for themselves the disjunctures, flaws, and critical synergies in the traditional memory and history of a largely monochrome and male-exclusive military experience. The final chapter considers the current challenges that Western societies, particularly the United States, face in imposing social diversity and tolerance on statist military structures in a climates of sometimes vitriolic public debate. RGMWW represents our effort to blend race, gender, and military war, to problematize these intersections, and then provide some answers to those problems.

100 Years of Identity Crisis Frank Furedi, 2021-09-07 The concept of Identity Crisis came into usage in the 1940s and it has continued to dominate the cultural zeitgeist ever since. In his exploration of the historical origins of this development, Frank Furedi argues that the principal driver of the 'crisis of identity' was and continues to be the conflict surrounding the socialisation of young people. In turn, the politicisation of this conflict provides a terrain on which the Culture Wars and the politicisation of identity can flourish. Through exploring the interaction between the problems of socialisation and identity, this study offers a unique account of the origins and rise of the Culture Wars.

On Politicking Ralph Pettman, 2025-05-03 This book is unusual in that, although it asks a familiar question, it provides an unfamiliar answer. What's more, it's the most coherent and comprehensive answer possible. Most people say politics is

about how societies organise their affairs, or about different kinds of government, or about who rules and why. The problem is that though they aren't wrong, they're only partly right. Social order, government and rule are all important, but they're part of a bigger picture. Politics is about much, much more. In short, it's about politicking, which is a fundamental form of behavior that involves a number of very specific practices. These include coercion, persuasion, reconciliation, exploitation, indoctrination, ratiocination, marginalization, and preemption. This is how people try to get their own way, either as individuals or in groups. It goes on all the time, too, within and between individuals, and at all other social levels, like families, bands, tribes, gangs, clubs, clans, offices, institutions, professions, companies, cities, provinces, countries, and religions. Most of this story never gets told, which is why this book was written. It has considerable theoretical significance, and a wide range of practical examples are provided throughout to illustrate the case it makes.

The People's Dictatorship Alan E. Steinweis, 2023-01-26 In this up-to-date, succinct, and highly readable volume, Alan E. Steinweis presents a new synthesis of the origins, development, and downfall of Nazi Germany. After tracing the intellectual and cultural origins of Nazi ideology, the book recounts the rise and eventual victory of the Nazi movement against the background of the struggling Weimar Republic. The book details the rapid transformation of Germany into a dictatorship, focusing on the interplay of Nazi violence and the readiness of Germans to accommodate themselves to the new regime. Steinweis chronicles Nazi efforts to transform German society into a so-called People's Community, imbued with hyper-nationalism, an authoritarian spirit, Nazi racial doctrine, and antisemitism. The result was less a People's Community than what Steinweis calls a People's Dictatorship – a repressive regime that acted brutally toward the targets of its persecution, its internal opponents, and its foreign enemies even as it enjoyed support across much of German society.

Deep Loyalties Daniela Schmitz Wortmeyer, 2022-01-01 Cultural practices and artifacts, in their multiple and varied forms, are grounded on values, which are so deeply internalized by people that usually remain in the background, as taken-for-granted guides for interpretations and decisions in everyday life. Shaping individual moral horizons is at the core of socialization processes, through which older generations aim to disseminate their culturally established values to the new ones, making use of suggestions mainly implicit in daily experiences and interactions. Despite the strength of these processes of cultural canalization, people find particular ways of positioning and interpreting social suggestions, drawing singular life trajectories and developing themselves as unique beings. This is truthful also in case of highly institutionalized settings like the military, in which people play in many forms an agentic role in their own development, being prepared to perform their professional duties in very complex and challenging activity contexts. This book is an invitation to dive deeper into human experiences lived in the military through qualitative and in-depth approaches, observing their affective qualities, the meanings they acquire and how they shape individuals' identities, fostering the development and try-out of specific ethical and moral values. The present work can contribute to research and professional practice in fields related to human

development, social processes, education and people management in the military, as well as in other institutional contexts, especially by highlighting the affective, meaningful and moral-ethical dimensions of cultural experiences.

Miracles and Sacrilege William Bruce Johnson, 2008-01-05 *Miracles and Sacrilege* is the story of the epochal conflict between censorship and freedom in film, recounted through an in-depth analysis of the U.S. Supreme Court's decision striking down a government ban on Roberto Rossellini's film *The Miracle* (1950). In this extraordinary case, the Court ultimately chose to abandon its own longstanding determination that film comprised a mere 'business' unworthy of free-speech rights, declaring for the first time that the First Amendment barred government from banning any film as 'sacreligious.' Using legal briefs, affidavits, and other court records, as well as letters, memoranda, and other archival materials to elucidate what was at issue in the case, William Bruce Johnson also analyzes the social, cultural, and religious elements that form the background of this complex and hard-fought controversy, focusing particularly on the fundamental role played by the Catholic Church in the history of film censorship. Tracing the development of the Church in the United States, Johnson discusses the reasons it found *The Miracle* sacrilegious and how it attained the power to persuade civil authorities to ban it. The Court's decision was not only a milestone in the law of church-state relations, but it paved the way for a succession of later decisions which gradually established a firm legal basis for freedom of expression in the arts.
