*Fifty Years of Family Planning in the Democratic Republic of the Congo* Jane T. Bertrand, 2024-05-16 This book chronicles five decades of struggle to introduce family planning into one of the largest, most complex countries in sub-Saharan Africa: the Democratic Republic of the Congo (DRC). Interweaving details of major political, social, and economic events into the history of family planning in DRC (formerly Zaïre), the book analyses the achievements and setbacks of five decades of programmatic work. President Mobutu's 1972 discourse on Naissances Désirables (desirable births) opened the door to organized family planning programs, which gained considerable momentum in the 1980s despite societal norms favoring large families. Two pillages and armed conflict paralyzed development work during the decade of the 1990s, and family planning was one of multiple public health programs that struggled to regain lost ground in the 2000s. With new donor funding and implementing agencies, the 2010s witnessed rapid programmatic expansion and improved strategies. By 2018, family planning was operating as a well-oiled machine. But progress is fragile. The book ends by tracing the deleterious effects of the colonial period to contemporary programming and individual contraceptive use. It asks hard questions about donor financing. And it details the six conditions needed to accelerate family planning progress in the DRC, in pursuit of providing millions of Congolese women and men with the means of controlling their own fertility. The book will be of interest to development and public health researchers and practitioners, as well as to historians of the Democratic Republic of the Congo. Accidental Activists Celeste L. Arrington, 2016-03-01 Government wrongdoing or negligence harms people worldwide, but not all victims are equally effective at obtaining redress. In *Accidental Activists*, Celeste L. Arrington examines the interactive dynamics of the politics of redress to understand why not. Relatively powerless groups like redress claimants depend on support from political elites, active groups in society, the media, experts, lawyers, and the interested public to capture democratic policymakers' attention and sway their decisions. Focusing on when and how such third-party support matters, Arrington finds that elite allies may raise awareness about the victims' cause or sponsor special legislation, but their activities also tend to deter the mobilization of fellow claimants and public sympathy. By contrast, claimants who gain elite allies only after the difficult and potentially risky process of mobilizing societal support tend to achieve more redress, which

can include official inquiries, apologies, compensation, and structural reforms. Arrington draws on her extensive fieldwork to illustrate these dynamics through comparisons of the parallel Japanese and South Korean movements of victims of harsh leprosy control policies, blood products tainted by hepatitis C, and North Korean abductions. Her book thereby highlights how citizens in Northeast Asia—a region grappling with how to address Japan's past wrongs—are leveraging similar processes to hold their own governments accountable for more recent harms. *Accidental Activists* also reveals the growing power of litigation to promote policy change and greater accountability from decision makers.
