Losing It Dorothy Chansky, 2023-08-09 This monograph is a study of American (U.S.) stage representations of dementia mounted between 1913 and 2019. Its imbricated strands are playtexts; audiences as both the targets of the productions (artifacts in the marketplace) and as anticipated determinants of legibility; and medical science, both as has been (and is) known to researchers and, more importantly, as it has been (and is) known to educated general audiences. As the Baby Boom generation finds itself solidly in the category of “Senior,” interest in plays that address personal and social issues around cognitive decline as a potentially frightening and expensive experience, no two iterations of which are identical, have, understandably, burgeoned. This study shines a spotlight on eleven dementia plays that have been produced in the United States over the past century, and seeks, in the words of medical humanities scholar Anne Whitehead, to “open up, and to hold open, central ethical questions of responsiveness, interpretation, responsibility, complicity and care.”

A Critical Examination of the Recent Evolution of B2B Sales Cohn, Joel G., 2024-02-27 The seismic shifts in B2B selling brought about by the recent global pandemic have left scholars grappling with the fundamental question of permanence. As the traditional face-to-face dynamics of B2B sales stand challenged, academic minds seek answers: Are these changes enduring, or will we revert to the familiar norms of in-person interactions? A Critical Examination of the Recent Evolution of B2B Sales is a groundbreaking exploration designed for academic scholars seeking clarity in these uncertain times. In the pursuit for understanding, scholars encounter a myriad of questions. What truly transpired in sales activities during the pandemic? Does the surge in virtual selling signify a lasting transformation, or is it merely a temporary adaptation? Critical thinking becomes paramount, necessitating a deep dive into published ideas to discern the strength of conclusions drawn. The academic community grapples with the challenge of scrutinizing the landscape to determine if the changes are indeed permanent and if so, how B2B sales forces can effectively adapt.

The Worm at the Core Sheldon Solomon, Jeff Greenberg, Tom Pyszczynski, 2015-05-12 A transformative, fascinating theory—based on robust and groundbreaking experimental research—reveals how our unconscious fear of death powers almost everything we do, shining a light on the hidden motives that drive human behavior More than one hundred years ago, the American philosopher William James dubbed the knowledge that we must die “the worm at the core” of the human condition. In 1974, cultural anthropologist Ernest Becker won the Pulitzer Prize for his book *The Denial of Death*, arguing

that the terror of death has a pervasive effect on human affairs. Now authors Sheldon Solomon, Jeff Greenberg, and Tom Pyszczynski clarify with wide-ranging evidence the many ways the worm at the core guides our thoughts and actions, from the great art we create to the devastating wars we wage. *The Worm at the Core* is the product of twenty-five years of in-depth research. Drawing from innovative experiments conducted around the globe, Solomon, Greenberg, and Pyszczynski show conclusively that the fear of death and the desire to transcend it inspire us to buy expensive cars, crave fame, put our health at risk, and disguise our animal nature. The fear of death can also prompt judges to dole out harsher punishments, make children react negatively to people different from themselves, and inflame intolerance and violence. But the worm at the core need not consume us. Emerging from their research is a unique and compelling approach to these deeply existential issues: terror management theory. TMT proposes that human culture infuses our lives with order, stability, significance, and purpose, and these anchors enable us to function moment to moment without becoming overwhelmed by the knowledge of our ultimate fate. The authors immerse us in a new way of understanding human evolution, child development, history, religion, art, science, mental health, war, and politics in the twenty-first century. In so doing, they also reveal how we can better come to terms with death and learn to lead lives of courage, creativity, and compassion. Written in an accessible, jargon-free style, *The Worm at the Core* offers a compelling new paradigm for understanding the choices we make in life—and a pathway toward divesting ourselves of the cultural and personal illusions that keep us from accepting the end that awaits us all. Praise for *The Worm at the Core* “The idea that nearly all human individual and cultural activity is a response to death sounds far-fetched. But the evidence the authors present is compelling and does a great deal to address many otherwise intractable mysteries of human behaviour. This is an important, superbly readable and potentially life-changing book.”—The Guardian (U.K.) “A neat fusion of ideas borrowed from sociology, anthropology, existential philosophy and psychoanalysis.”—The Herald (U.K.) “Deep, important, and beautifully written, *The Worm at the Core* describes a brilliant and utterly original program of scientific research on a force so powerful that it drives our lives.”—Daniel Gilbert, Edgar Pierce Professor of Psychology, Harvard University, and author of *Stumbling on Happiness* “As psychology becomes increasingly trivial, devolving into the promotion of positive-thinking platitudes, *The Worm at the Core* bucks the trend. The authors present—and provide robust evidence for—a psychological thesis with disturbing personal as well as political implications.”—John Horgan, author of *The End of War* and director of the Center for Science Writings, Stevens Institute of Technology

The Sinking Middle Class David Roediger, 2022-06-21 *The Sinking Middle Class* challenges the “save the middle class” rhetoric that dominates our political imagination. The slogan misleads us regarding class, nation, and race. Talk of middle class salvation reinforces myths holding that the US is a providentially middle class nation. Implicitly white, the middle class becomes viewed as unheard amidst supposed concerns for racial justice and for the poor. Roediger shows how little the US

has been a middle class nation. The term seldom appeared in US writing before 1900. Many white Americans were self-employed, but this social experience separated them from the contemporary middle class of today, overwhelmingly employed and surveilled. Today's highly unequal US hardly qualifies as sustaining the middle class. The idea of the US as a middle class place required nurturing. Those doing that ideological work—from the business press, to pollsters, to intellectuals celebrating the results of free enterprise—gained little traction until the Depression and Cold War expanded the middle class brand. Much later, the book's sections on liberal strategist Stanley Greenberg detail, "saving the middle class" entered presidential politics. Both parties soon defined the middle class to include over 90% of the population, precluding intelligent attention to the poor and the very rich. Resurrecting radical historical critiques of the middle class, Roediger argues that middle class identities have so long been shaped by debt, anxiety about falling, and having to sell one's personality at work that misery defines a middle class existence as much as fulfillment.

Death of a Salesman: Certain Private Conversations in Two Acts and a Requiem Arthur Miller, 1949

Death of a Salesman by Arthur Miller (Book Analysis) Bright Summaries, 2019-03-28 Unlock the more straightforward side of Death of a Salesman with this concise and insightful summary and analysis! This engaging summary presents an analysis of Death of a Salesman by Arthur Miller, a tragic drama centred on the character of Willy Loman and his turbulent relationship with his eldest son, Biff. Over the course of the play, flashbacks or dream sequences are used to reveal the reasons why their bond has disintegrated to such a degree, focusing on Willy's obsession with material success and Biff's rejection of the narrative of the American Dream to illustrate the stark contrasts between their personalities and attitudes towards life. Strategies for Compliance Alan Brener, 2020-12-20 Compliance is a fundamental control function within regulated industries globally. This book provides an expert introduction to corporate compliance using cases, examples and insights from the financial services sector and beyond. The author, an experienced compliance practitioner and academic, highlights compliance challenges, using examples such as Wells Fargo, whistleblowing in the financial services and the mis-selling of payment protection insurance in the UK banking sector. The book explores strategies for creating compliant cultures and fostering regulatory trust, whilst practical guidance is provided on anticipating regulatory changes. Addressing

organisational obstruction and delay, the author presents a series of valuable tools and techniques for real-world practice. An essential professional development resource for board directors, compliance officers and other senior managers, the book also provides a unique learning and development resource for students of corporate compliance globally.

Critical Encounters in Secondary English Deborah Appleman, 2015-04-28 Because of the emphasis placed on nonfiction and informational texts by the Common Core State Standards, literature teachers all over the country are re-evaluating their curriculum and looking for thoughtful ways to incorporate nonfiction into their courses. They are also rethinking their pedagogy as they consider ways to approach texts that are outside the usual fare of secondary literature classrooms. The Third Edition of *Critical Encounters in Secondary English* provides an integrated approach to incorporating nonfiction and informational texts into the literature classroom. Grounded in solid theory with new field-tested classroom activities, this new edition shows teachers how to adapt practices that have always defined good pedagogy to the new generation of standards for literature instruction. New for the Third Edition: A new preface and new introduction that discusses the CCSS and their implications for literature instruction. Lists of nonfiction texts at the end of each chapter related to the critical lens described in that chapter. A new chapter on new historicism, a critical lens uniquely suited to interpreting nonfiction and informational sources. New classroom activities created and field-tested specifically for use with nonfiction texts. Additional activities that demonstrate how informational texts can be used in conjunction with traditional literary texts. "What a smart and useful book!" —Mike Rose, University of California, Los Angeles "[This book] has enriched my understanding both of teaching literature and of how I read. I know of no other book quite like it." —Michael W. Smith, Temple University, College of Education "I have recommended *Critical Encounters* to every group of preservice and practicing teachers that I have taught or worked with and I will continue to do so." —Ernest Morrell, director of the Institute for Urban and Minority Education (IUME), Teachers College, Columbia University

John Berger Iona Heath,2024-07-13 Iona Heath relates the importance that John Berger's work and friendship had on her working life as a GP. It includes extracts from letters that span 20 years of her correspondence with John Berger. In this book, Iona Heath writes about reading John Berger's writing over more than 50 years and her friendship and correspondence with him over the best part of 20 years. Dr Heath found that both of these interacted profoundly with her work as a general practitioner in a deprived urban area in London. For Iona Heath, general practice is a quite extraordinary undertaking: every working day, sitting with a succession of unique individuals, each worried about some aspect of their health or life circumstances, many burdened by unspoken fears, and each seeking some form of answer. Starting with *A Fortunate Man*, when she was an ignorant but hopeful undergraduate medical student, she found reading John Berger on any subject had something new to tell her about the aspirations and detail of her work: clues about how to look and how to listen and much else. Later when they started to correspond, Iona Heath found herself in the privileged position of being able to check her understanding directly with the writer and on each occasion found deeper levels of awareness and insight. She is convinced that reading John Berger made her a better doctor.

The Rhetoric of Intention in Human Affairs Gary C. Woodward,2013-09-12 The Rhetoric of Intention in Human Affairs is an insightful account of the rhetorical and psychological habits we exhibit when we must explain the reasons others act. The assumption that we can know what motivates another person is fed by more hope than certainty, and yet it is evidence of a very human impulse. Beginning with a clear template for defining various tiers of motives-talk, this innovative and accessible study moves through a series of chapters exploring the unique demands imposed by different circumstances. These sections cut a wide swath of analysis across a diverse range of human actors including: conspiracy theorists who find the designs of coordinated agents behind random events, theater performers creating “backstories” for their characters, journalists grasping to name the motives of newsmakers, prosecutors who must establish another’s intent in order to prove a criminal act, and the devout who grapple with what divine intervention can mean in a cruel world. Readers will recognize themselves in these pages, gaining an appreciation for the rhetorical analysis of human behavior.

Scrum for Sales Michael J. Scherm,2021-10-30 Many companies want to make their sales agile. Some of them have tried to set up agile sales organizations, but such top-down approaches and big-bang rollouts seldom seem to work. This book shows how the elements of the leading agile framework “Scrum” should be applied to install agility in the salesforce, improve sales performance, and resolve typical performance issues in sales organizations. It contains concrete guidelines, real-world examples, and useful tools to create the necessary change step by step and built to last.

American Drama in the Age of Film Zander Brietzke,2007-06-28 Is theater really dead? Does the theater, as its

champions insist, really provide a more intimate experience than film? If so, how have changes in cinematic techniques and technologies altered the relationship between stage and film? What are the inherent limitations of representing three-dimensional spaces in a two-dimensional one, and vice versa? *American Drama in the Age of Film* examines the strengths and weaknesses of both the dramatic and cinematic arts to confront the standard arguments in the film-versus-theater debate. Using widely known adaptations of ten major plays, Brietzke seeks to highlight the inherent powers of each medium and draw conclusions not just about how they differ, but how they ought to differ as well. He contrasts both stage and film productions of, among other works, David Mamet's *Glengarry Glen Ross*, Sam Shepard's *True West*, Edward Albee's *Who's Afraid of Virginia Woolf*, Margaret Edson's *Wit*, Tony Kushner's *Angels in America*, Tennessee Williams's *Cat on a Hot Tin Roof*, Arthur Miller's *Death of a Salesman*, and August Wilson's *The Piano Lesson*. In reading the dual productions of these works, Brietzke finds that cinema has indeed stolen much of theater's former thunder, by making drama more intimate, and visceral than most live events. But theater is still vital and matters greatly, Brietzke argues, though for reasons that run counter to many of the virtues traditionally attributed to it as an art form, such as intimacy and spontaneity. Brietzke seeks to revitalize perceptions of theater by challenging those common pieties and offering a new critical paradigm, one that champions spectacle and simultaneity as the most, not least, important elements of drama.

The Vacuum Cleaner Maud Ellmann, 2024-07-25 This book offers an entertaining study of the facts and fantasies associated with the vacuum cleaner as it evolved from a luxury gimmick to a household necessity. The iconic appliance of twentieth-century domestic revolution, the vacuum cleaner stands at the forefront of radical changes in technology, automation, finance, marketing, hygiene, infrastructure, time-management, domestic labour, and the history of dirt. This appliance also insinuates itself into the dominant phobias of the period, including totalitarianism and nuclear war. Maud Ellmann shows how modern literature, art, and other media have transformed this humble domestic mod con into a curmudgeon, windbag, cannibal, vampire, dictator, infanticidal mother, freedom fighter, mantrap, and lothario.

Psychological Politics of the American Dream Lois Tyson, 1994 While it is reasonable to assume that our national literature would offer a fertile field in which to explore the interaction between the ideological and psychological dimensions of American life, critics generally have kept these two domains separate, and the dominant model has consisted of an archaic notion of the individual in society.

The Prime of Life Steven Mintz, 2015-04-07 Steven Mintz reconstructs the emotional interior of a life stage too often relegated to self-help books and domestic melodramas. He describes the challenges of adulthood today and puts them into perspective by exploring how past generations achieved intimacy and connection, raised children, sought meaning in work, and responded to loss.

Young Adult Literature in the Composition Classroom Tamara Girardi, Abigail G. Scheg, 2018-08-15 Young adult literature holds an exceptional place in modern American popular culture. Accessible to readers of all levels, it captures a diverse audience and tends to adapt to the big screen in an exciting way. With its wide readership, YAL sparks interesting discussions inside and outside of the classroom. This collection of new essays examines how YAL has impacted college composition courses, primarily focusing on the first year. Contributors discuss popular YA stories, their educational potential, and possibilities for classroom discussion and exercise.

True Crime Stories of Eastern North Carolina Cathy Pickens, 2020 Eastern North Carolina is a land of contrasts, and its crime stories bear this out. A lovelorn war hero or a stalker? Conniving wife or consummate homemaker? Murder or suicide? The answers can be as puzzling as the questions. Mystery author Cathy Pickens details an assortment of quirky cases, including a duo of poisoning cases more than one hundred years apart, a band of folk hero swamp outlaws, sex swingers and a couple of mummies. Each story has, in its way, helped define Eastern North Carolina and its history.
