El Libro de las listas de Libros Alex Jonhson,2022-03-01 Este es un libro de listas de libros. No del tipo “1001 libros que DEBES leer antes de morir”, sino de listas que cuentan historias. Listas que te hacen sonreír, reflexionar y ver títulos agrupados de formas completamente nuevas. Desde la estantería de Bin Laden o las lecturas que influyeron en David Bowie hasta los libros que más se olvidan en los hoteles, pasando por los libros favoritos de los presos y los más prestados entre los parlamentarios, estas listas son una prueba de que la estantería de una persona te dice todo lo que necesitas saber sobre ella y, a veces, un poco más.

Eso no estaba en mi libro de historia de la política Alfred López,2020-08-19 Izquierdas, derechas, amigos irreconciliables, enemigos que se adoran, cándidos candidatos, mujeres que cambiaron la historia; presidentes, aspirantes, tiranos, monarcas, dictadores; alianzas, tretas, traiciones, guerras; cámaras, congresos, gobiernos, constituciones; héroes, villanos... Alfred López, célebre autor del blog «Ya está el listo que todo lo sabe», narra con rigor e ingenio una buena parte de la historia que han protagonizado políticos de todos los tiempos, desde biografías rocambolescas hasta hazañas sin igual; hechos que han pasado desapercibidos, ocultos o definitivamente ignotos a nuestros ojos. Capitanea un colosal y extraordinario viaje al corazón de la intrahistoria de la historia, un viaje que nos sumerge en una divertida y erudita aventura por la historia de la política y, a la postre, del mundo. «Un libro para que no quede tertulia sin tu intervención erudita, o trivial donde conseguir, triunfante, el quesito amarillo. Y sobre todo, para que aprendas cosas tan interesantes que ni te imaginas». Javier Santamarta del Pozo, politólogo y escritor. «La buena noticia es que esta clase de libros, macedonia de anécdotas apoyadas por una concienzuda documentación, permiten que nos llame la atención algo sobre lo que nunca habíamos pensado y comencemos a tirar y a tirar del hilo». Sergio Parra, XatakaCiencia.

US Public Diplomacy and Democratization in Spain Francisco Rodriguez-Jimenez,Lorenzo Delgado,Nicholas J. Cull,2016-04-29 When the post-war relationship between Spain and America began, Hitler's old ally was an unlikely candidate for US influence. The Cold War changed all this. Soon there were US bases on Spanish territory and a political conjuring trick was under way. This volume examines the public diplomacy strategies that the US government employed to accomplish an almost impossible mission: to keep a warm relationship with a tyrant without drifting apart from his opponents, and to somehow pave the way for a transition to democracy. The book's focus on the perspective of soft power

breaks new ground in understanding US-Spanish relations. In so doing, it offers valuable lessons for understanding how public diplomacy has functioned in the past and can function today and tomorrow in transitions to democracy.

Teoría de la literatura de ciencia ficción Fernando Ángel Moreno, 2015-04-01 Pocos géneros literarios han tenido tanta influencia en el diseño, la arquitectura, la moda, la ingeniería, el arte, la música, el cine o la literatura de nuestro tiempo como lo ha hecho la ciencia ficción. La historia de los dos últimos siglos difícilmente se comprende sin ella y su capacidad de reflexión y crítica y su habilidad para conjurar imágenes impactantes y marcar tendencias. Teniendo en cuenta que hace décadas que ha despertado el interés de los teóricos, investigadores y ensayistas de todo el mundo, parece un poco paradójica la escasez de estudios científicos en castellano que aborden la ciencia ficción en su conjunto desde la seriedad y el rigor académicos. ¿Qué es y qué no es ciencia ficción? ¿Cuáles son sus subgéneros y cuáles pueden interesar más a cada lector? ¿Se escribe buena ciencia ficción en castellano? ¿Quiénes son los escritores más importantes y a qué obras acudir primero? Fernando Ángel Moreno aborda aquí todas estas cuestiones, además de analizar los principales tropos y técnicas narrativas de la ciencia ficción, mostrar su evolución a lo largo de la historia, su relación y diferencias con otros géneros literarios cercanos y, en general, ofrecer un panorama amplio y explorado en detalle de la ciencia ficción literaria.

Memoria de crímenes Forero Quintero, Gustavo, 2016-08-15 A menudo las experiencias individuales de memoria y la conciencia histórica de un colectivo social tienden a difuminarse en el olvido o, por decisión deliberada de sistemas injustos, se quieren desconocer. Esas experiencias encuentran formas de representación en la literatura, los medios masivos de comunicación o la voz misma de los escritores que siempre les dan vida. Este libro recoge una selección de estudios que buscan establecer la relación entre los procesos individuales y colectivos de memoria histórica y la novela de crímenes contemporánea.

El tiempo y la sombra ,

La enfermedad del olvido Carlos Sandoval, 2016-07-27 Olvidarse es un proceso normal, pero cuando los olvidos comprometen funciones vitales y físicas, tanto que la persona no puede realizar sus actividades de la vida diaria hablamos de una enfermedad que ha empezado mucho antes, involucrando a toda la familia en el proceso. Existe una enfermedad conocida como la enfermedad del Alzheimer que es un proceso degenerativo, que consiste en la destrucción de un grupo de neuronas de nuestro cerebro, la cual compromete la memoria además de una serie de funciones mentales superiores , y condiciona la dependencia en el adulto mayor que la padece. El libro, escrito en lenguaje amigable, con casos clínicos reales vistos en la consulta diaria y práctica del autor, da pautas claras y recomendaciones a los familiares y cuidadores para asistir al enfermo de alzhéimer y otros tipos de demencias.

Authoritarian Populism and the Rural World Ian Scoones, Marc Edelman, Saturnino M. Borrás Jr., Lyda Fernanda Forero, Ruth Hall, Wendy Wolford, Ben White, 2021-06-29 The rise of authoritarian, nationalist forms of populism and the implications for rural actors and settings is one of the most crucial foci for critical agrarian studies today, with many consequences for political action. *Authoritarian Populism and the Rural World* reflects on the rural origins and consequences of the emergence of authoritarian and populist leaders across the world, as well as on the rise of multi-class mobilisation and resistance, alongside wider counter-movements and alternative practices, which together confront authoritarianism and nationalist populism. The book includes 20 chapters written by contributors to the Emancipatory Rural Politics Initiative (ERPI), a global network of academics and activists committed to both reflective analysis and political engagement. Debates about 'populism', 'nationalism', 'authoritarianism' and more have exploded recently, but relatively little of this has focused on the rural dimensions. Yet, wherever one looks, the rural aspects are key - not just in electoral calculus, but in understanding underlying drivers of authoritarianism and populism, and potential counter-movements to these. Whether because of land

grabs, voracious extractivism, infrastructural neglect or lack of services, rural peoples' disillusionment with the status quo has had deeply troubling consequences and occasionally hopeful ones, as the chapters in this book show. The chapters in this book were originally published in *The Journal of Peasant Studies*.

Cuando la Vida Ya No Es Vida Daniel Behar, 2008-09 What does a patient suffering from a terminal disease feel? Can euthanasia alleviate a painful existence? What kind of pain can make a human being want to die? This work invites readers to reflect on these and other topics—from the definition of euthanasia to the possible need to legislate it in Mexico. Seeking a balance between life and a life filled with pain and suffering, this guide takes both sides of the debate into account. ¿Qué siente un paciente de una enfermedad terminal? ¿Puede la eutanasia ser consuelo a una vida tormentosa? ¿Qué dolor puede provocar que un ser humano quiera abandonar esta vida? Esta obra invita al lector a reflexionar sobre este y otros temas, desde la definición de la eutanasia hasta la posible necesidad de legislarla en México. Buscando un balance entre la vida y una vida llena de sufrimiento y dolor, esta guía toma en cuenta ambos lados del debate.

Los años de Rajoy José Ignacio Wert, 2020-03-16 El tema central de este libro es el análisis de la política española en los seis años y medio en los que Mariano Rajoy presidió el gobierno de España, periodo que concluyó como es sabido con la moción de censura de Pedro Sánchez en junio de 2018. Pero su autor, además de un sagaz observador desde la perspectiva de la sociología política o la politología, entorno en el que desarrolló su actividad profesional durante lustros, ha sido asimismo protagonista destacado de ese tiempo, durante el cual llegó a ejercer como Ministro de Educación, Cultura y Deporte. Esa doble cualidad de José Ignacio Wert, que escribe sin cortapisas ni ambages de ningún tipo —solo me represento a mí mismo, y de eso, a veces, ni siquiera estoy seguro—, confiere a esta obra una condición singular, aventajada, que facilita al lector una visión inédita, a la par rigurosa y apasionada, de un periodo crucial (para lo bueno y lo menos bueno) de la historia reciente de este país. Se abordan aquí, desde una atalaya de privilegio, cuestiones tales como los efectos de la crisis económica sobre la vida pública, las razones del declive del bipartidismo, el auge imparable de los populismos y, en general, las numerosas y sensibles mutaciones producidas durante esa etapa en nuestro modo de entender y vivir la política. Una etapa de nuestra reciente historia que prolonga su influjo hasta la más acuciante actualidad. Desde julio de 2018 me convertí en eso que Forges denominaba con un divertido anacronismo un «particular», lo que me permite escribir sobre una cuestión como esta sin cortapisas ni de representación ni tampoco, dentro de lo que cabe, de devoción.

The River War Winston S. Churchill, 2018-06-28 *The River War* Winston S. Churchill The reconquest of the Egyptian Sudan was a military achievement remarkable first of all for the fact that unvarying and complete success attended every movement from the advance from Wady Halfa to the defeat and death of the Khalifa. This success was mainly due to one man endowed with extraordinary organizing genius, seconded by able and zealous subordinates. Never Give In! Sir Winston S. Churchill, 2013-10-14 A great statesman, a masterful historian whose writings won him the Nobel Prize for literature and a war-time leader with few peers, Sir Winston Churchill is remembered perhaps most clearly today for the sheer power of his oratory: the speeches that rallied a nation in its darkest hour and steeled that nation for victory against the might of the Fascist powers. *Never Give In!* celebrates this oratory by gathering together Churchill's most powerful speeches from throughout his public career. Carefully selected by his grandson, this collection includes all his best known speeches - from his great war-time broadcasts to the Iron Curtain speech that heralded the start of the Cold War - and many lesser known but inspirational pieces. In a single volume *Never Give In!* provides a powerful testimony to one of the great public figures of the 20th century.

Liderazgo Henry Kissinger, 2023-03-09 Henry Kissinger analiza cómo seis líderes extraordinarios, a los que conoció de cerca, dieron forma a sus países y al mundo que hoy conocemos. «Pretende ser un manual para los líderes de hoy y de mañana». The New Statesman Henry Kissinger, uno de los principales estrategas políticos del siglo xx, analiza en este nuevo libro los perfiles de seis de los líderes mundiales más fascinantes e influyentes del pasado reciente: Konrad Adenauer, Charles de Gaulle, Richard Nixon, Anwar Sadat, Lee Kuan Yew y Margaret Thatcher. Todos ellos se formaron en un periodo en el que las instituciones establecidas se derrumbaban en Europa, las estructuras coloniales daban paso a estados independientes en Asia y África y hubo que crear un nuevo orden internacional a partir de los vestigios del anterior. Kissinger repasa el camino de De Gaulle para reconstruir la Francia postimperial, la rehabilitación llevada a cabo por Adenauer de una Alemania devastada por la guerra o el éxito del experimento de la pequeña ciudad Estado de Lee Kuan Yew en Singapur. El análisis de estos procesos sirve para mostrar las estrategias de gobierno de unos líderes que, impulsados por un alto sentido de Estado, se propusieron posicionar a sus respectivos países en el centro del tablero político mundial. La perspectiva del autor no tiene parangón: es la de un historiador de primer orden que conoció y estuvo implicado en los acontecimientos que se relatan. La experiencia como alto representante público, el conocimiento personal de los protagonistas y la carrera política de Kissinger enriquecen un libro que atestigua cómo la combinación del carácter de los personajes y las circunstancias de cada situación es lo que acaba dando forma a la historia. La crítica ha dicho: «Siempre

vale la pena escuchar a este sorprendente testigo de la historia». Simon Heffer, *The Telegraph Book of the Year* «Un estudio vital del poder en acción». *Publishers Weekly* «Según Kissinger, sus seis protagonistas demuestran que el liderazgo transformador de las grandes personas es más importante que las fuerzas impersonales a la hora de forjar la historia». *The Times De Orden mundial* se dijo: «El mejor Kissinger, con su inimitable combinación de erudición». Hillary Clinton «Un fascinante e instructivo recorrido global por la búsqueda de la armonía. La clave del realismo en las relaciones internacionales de Kissinger, y el tema de este libro magistral, es que la humildad es importante no solo para las personas, sino también para los países, incluido Estados Unidos». Walter Isaacson «Un magnífico ensayo sobre el desorden político internacional». Lluís Bassets, Babelia

The Gathering Storm Winston Churchill, 1948 Covers the period from the Treaty of Versailles to Churchill's appointment as Prime Minister in 1940.

Espejos / Mirrors Eduardo Galeano, 2010-12 Fictional novel with political satire of Mexico's past injustices. Written by award winning poet author Eduardo Galeano. Author of the *Open Veins of Latin America*.

Antología del discurso político Antonio Rivera, 2019-11-11 De Zhōu Gōngdàn a Galileo, de Burke a Evo Morales, de Lord Byron a Angela Merkel... 130 oradores toman la palabra. Las voces aquí reunidas de políticos profesionales y dirigentes, también ciudadanos, científicos y escritores dan buena cuenta de la variedad retórica y argumental de los discursos políticos y de su influencia cambiante sobre la vida pública. Si en los siglos XIX y XX vive su apogeo gracias a la extensión de la imprenta y la prensa y la aparición de un amplio público lector, en nuestras audiovisuales culturas masivas y mediáticas, la figura del elocuente orador ha sido desplazada por la del eficaz comunicador; el discurso político y la verbalización de argumentos más o menos complejos ha dado paso a nuevas y simplificadas formas de comunicación, basadas en la preeminencia publicitaria de la imagen y del carácter telegráfico e inmediato del mensaje político: así el tuit, el canutazo televisivo o la consigna mediática. Sin ceñirse exclusivamente a nuestra contemporaneidad y a nuestro mundo occidental, su editor, Antonio Rivera, ha compilado una completa y representativa selección de discursos –muchos vertidos por vez primera al castellano–, procedentes de todas las épocas y latitudes, con la voluntad de conformar e ilustrar, al hilo de los grandes temas y acontecimientos, no solo una historia del discurso político, sino “una historia del mundo”. Discursos improvisados o pensados, leídos brillantemente o a duras penas, escritos por sus oradores o por talentosos “negros” y pronunciados ante una multitud organizada o espontánea, ante políticos en un debate parlamentario, ante un juez, ante periodistas frente a una cámara de televisión o un micrófono de radio, en un acto fúnebre o conmemorativo, etc., muestran la heterogeneidad de voces y escenarios que componen esta antología, en la que los interesados en la filosofía, la política, la historia o la evolución del pensamiento encontrarán una fuente inmejorable.

Democracias robotizadas Raúl Jiménez Tellado, Luis Moreno Fernández, 2018-05-22 Nuestras democracias, apenas

superada la mayor crisis económica contemporánea, se encuentran en un punto crítico. Aunque el principal contexto geográfico de este ensayo sea el hemisferio occidental tras la Segunda Guerra Mundial, la Gran Recesión desatada en 2007-2008 ha afectado muy duramente al sistema general de relaciones sociales y económicas en todo el mundo. Por encima de cualquier otra consideración, destaca en los tiempos que vivimos la progresiva robotización de las democracias occidentales, que anuncia cambios profundos y estructurales de largo alcance. Esta cuarta revolución tecnológica, impulsada por la generalización de internet y la automatización, intensificará las progresivas aplicaciones de la inteligencia artificial y la ulterior maximización productiva. Eventualmente, los procesos en marcha harán superflua la necesidad de buena parte del trabajo asalariado. ¿Viviremos un futuro democrático como el de ahora, aunque sea con cambios tecnológicos, o será diferente? ¿Qué repercusión tendrá la robotización en las relaciones humanas en democracia? Esta obra describe en detalle las aplicaciones de la robotización y la inteligencia artificial. Ambas influirán en el proceso de neofeudalismo en Estados Unidos y harán inevitable la implantación de una renta ciudadana en el caso de la Unión Europea.
