

Aljazeera News In Arabic

Robert S. Fortner, P. Mark Fackler

Al-Jazeera's "Double Standards" in the Arab Spring Zainab Abdul-Nabi, 2022-12-14 This book finds that Al-Jazeera's coverage of Bahrain and Syria has conformed with Qatar's foreign policy, throughout the last decade (2011-2021). Al-Jazeera Arabic adopted Qatar's "double standards" policy in both countries in the beginning of the Arab Spring, framing Bahrain's protests as a "sectarian movement," while depicting the Syrian armed conflict as a legitimate "revolution" (2011-2013). The book observes that when ties between Qatar and Bahrain worsened during the 2017 Gulf crisis, Al-Jazeera Arabic has shifted its coverage from being "pro-Bahraini regime" to "pro-protesters," focusing on violations and giving voice to activists (2014-2021). The book concludes that the lack of "Peace Journalism" framing in Al-Jazeera's coverage of Bahrain's uprising and Syria's chemical weapons attacks has represented "claims" as "facts," and justified military action against Syria. It also reveals distinctive differences between Al-Jazeera Arabic and English, with the former lacking "objective reporting standards," and using more sectarian language than the latter.

Al Jazeera English P. Seib, 2016-04-30 Although Al Jazeera English has yet to receive the attention accorded to its Arabic-language elder sibling, it is in many ways the more interesting of the two. It seeks to redefine global news coverage by focusing on areas that are traditionally neglected by most news organizations, and its potential audience is many times larger than that of the Arabic channel. This will be the first book to thoroughly examine this channel's coverage methods, effects on its audience, and its place in the world of mediated geopolitics. Al Jazeera recognized that if it was to expand its worldwide influence, it could not do so wholly in Arabic. And so, in 2006, it launched Al Jazeera English, the first English-language news channel to be headquartered in the Middle East. With its principal broadcast centers in Doha, Washington, London, and Kuala Lumpur, the channel faced the task of proving itself to be more than a curiosity and just a junior version of the all-news English-language channels such as the BBC or CNN. After several years of operation, Al Jazeera English seems well on its way to defining its place in the market. The breadth of its coverage, particularly its emphasis on reporting from the global South, has distinguished it from many of its competitors. Thorough coverage from the Middle East and from Africa provides a perspective that other major satellite channels have rarely offered their audiences. Initially, Al Jazeera English was available to 80 million cable and satellite households. It was, however, accessible by only a small number of viewers in the United States (mainly those accessing it through several online providers) primarily because of political

reasons. Whatever the political back-story may be, gaining access to a larger global market will depend on audience demand. If Al Jazeera English does a better job of covering major stories, particularly in the Middle East and the global South, than other channels do, and if its competitors find themselves saying, As Al Jazeera English reported today . . . , news consumers will eventually demand access. This book will examine these political issues and will also analyze the channel's audience base, particularly in Africa and South Asia. The book will also offer evaluations of Al Jazeera English's defining moments to date - its reporting during the 2008-2009 war in Gaza (written by Palestinian and Israeli scholars), and its coverage of the Ground Zero Mosque controversy in 2010. The volume will also consider Al Jazeera English in the context of public diplomacy and the growing significance of diasporic populations.

Al Jazeera Phenomenon Mohamed Zayani, 2019-05-23 Few phenomena in the Arab world are more controversial than Al Jazeera - the satellite television news channel that, despite its brief history, has made its impact known throughout the world and changed the face of a formerly parochial Arab media. This timely collection of articles, many by Arabic-speaking scholars, gives us more information and analysis of the network - and how it has affected the public and even the foreign policies of Western governments - than any other of the very few books published in English up to now. The book provides rare insights into Al Jazeera's politics, its agenda, its programs, its coverage of regional crises, and its treatment of the West. The authors attempt to gauge the station's impact on ordinary Arab viewers, understand its effect on an increasingly visible Arab public sphere, and map out the role it plays in regional Arab politics. The image of Al Jazeera that emerges from this book is much more complex than its depiction in American media. It reveals the powerful role that the network plays in shaping ideas and reconstructing Arab identities during a crucial juncture in Middle Eastern history and politics.

Al Jazeera in the Gulf and in the World Haydar Badawi Sadig, 2019-05-15 This book examines the deeper meaning of the advent of the Al Jazeera Media Network with regard to ongoing debates on global communication ethics, not only in the global public sphere but also in terms of its influence on new non-Western approaches to media ethics. Rather than simply calling for international perspectives on media ethic is a unique and significant addition to the literature on the topic. The book investigates whether Al Jazeera's vision, mission, and operations are actually inspired by the New World Information Order debates over contra-flow and hegemony. Further, the book identifies ways of developing new non-Western approaches to global communication ethics, as it suggests injecting more cosmopolitanism in global news reporting and commentary.

The SAGE Handbook of Political Communication Holli A Semetko, Margaret Scammell, 2012-07-15 This authoritative and comprehensive survey of political communication draws together a team of the world's leading scholars to provide a state-of-the-art review that sets the agenda for future study. It is divided into five sections: Part One: explores the macro-level influences on political communication such as the media industry, new media, technology, and political systems Part Two: takes a grassroots perspective of the influences of social networks - real and online - on political communication Part Three:

discusses methodological advances in political communication research Part Four: focuses on power and how it is conceptualized in political communication Part Five: provides an international, regional, and comparative understanding of political communication in its various contexts The SAGE Handbook of Political Communication is an essential benchmark publication for advanced students, researchers and practitioners in the fields of politics, media and communication, sociology and research methods.

Between Ideology and Politics Taghreed Alsabeh, 2024-10-31 This study presents a comparative, case-study approach to analyzing the foreign policies of ruling Islamist parties in Egypt, Morocco and Tunisia. The book investigates whether democratically elected ruling Islamist parties apply their ideology to foreign policy and how their foreign policy approaches differ to that of non-Islamist parties. Taghreed Alsabeh provides in-depth analysis of the Freedom and Justice Party (FJP) in Egypt, the Justice and Development Party (PJD) in Morocco, and the Ennahda Party in Tunisia, over a period of twelve years, and compares their foreign policy approaches and outcomes to those of their own internal non-Islamist counterparts. What emerges is a detailed picture of each country's foreign policy trajectories through successive governments – both Islamist and non-Islamist rule – and clear sites of commonality as well as divergence. Alsabeh demonstrates that ultimately Islamist parties' foreign policies have been ideologically constrained to a large degree by national contexts such as limited time in power, limited control of the government, and their relationships with other domestic political actors.

Reporting Political Islam and Democracy Mohammed-Ali Abunajela, Nael Jebri, 2020-05-14 For over a decade, Al Jazeera (Arabic) occupied an unprecedented position among Arab audiences and families. Its attractive and daring news coverage has inspired millions of Arabs, and led other news channels to follow suit by changing their reporting narrative and presentational style. However, in the aftermath of the Arab uprisings in 2011, the close adoption of the Arab uprisings in general, and the Egyptian one in particular, made the channel fall into the eye of the public storm through its extensive 24-hour coverage. This book assesses whether the channel systematically provided a platform for certain ideologies or ignored others, and if and how Al Jazeera's language had shifted after the 2011 Arab uprisings. It also explores the rationale behind adopting particular editorial principles featured in the analyses, and scrutinises the findings within the framework of media, religion and democratisation.

Political Islam and Global Media Noha Mellor, Khalil Rinnawi, 2016-06-10 The development of new and social networking sites, as well as the growth of transnational Arab television, has triggered a debate about the rise in transnational political and religious identification, as individuals and groups negotiate this new triad of media, religion and culture. This book examines the implications of new media on the rise of political Islam and on Islamic religious identity in the Arab Middle East and North Africa, as well as among Muslim Arab Diasporas. Undoubtedly, the process of globalization, especially in the field of media and ICTs, challenges the cultural and religious systems, particularly in terms of identity formation. Across the

world, Arab Muslims have embraced new media not only as a source of information but also as a source of guidance and fatwas, thereby transforming Muslim practices and rituals. This volume brings together chapters from a range of specialists working in the field, presenting a variety of case studies on new media, identity formation and political Islam in Muslim communities both within and beyond the MENA region. Offering new insight into the influence of media exposure on national, political, and cultural boundaries of the Islamic identity, this book is a valuable resource for students and scholars of Middle Eastern politics, specifically political Islam and political communication.

War and the Media Daya Kishan Thussu, Des Freedman, 2003-05-16 'No book is more timely than this collection, which analyses brilliantly the Western media's relentless absorption into the designs of dominant, rapacious power' - John Pilger 'A most timely book, with many valuable insights' - Martin Bell O.B.E 'It has long been known that the outcome of war is deeply influenced by the battle to win 'hearts and minds'. This book provides a stimulating set of perspectives which combine the analyses of prominent academics with the experiences of leading journalists' - Professor Tom Woodhouse, University of Bradford 'This volume represents an all-star cast of authors who have a tremendous amount of knowledge about media and world conflict. One of its strengths is that it doesn't focus entirely narrowly on media, but puts the discussion of media issues in the context of changes in the world order in military doctrine' - Professor Daniel C. Hallin, University of California 'This book comes just in time. A coherent and wide-ranging collection of data, analyses and insights that help our understanding of the complex interaction between communication and conflict. A major intellectual contribution to critical thinking about the early 21st century' - Cees J Hamelink, Professor International Communication, University of Amsterdam With what new tools do governments manage the news in order to prepare us for conflict? Are the media responsible for turning conflict into infotainment? Is reporting gender specific? How do journalists view their role in covering distant wars? This book critically examines the changing contours of media coverage of war and considers the complexity of the relationship between mass media and governments in wartime. Assessing how far the political, cultural and professional contexts of media coverage have been affected by 9/11 and its aftermath, the volume also explores media representations of the 'War on Terrorism' from regional and international perspectives, including new actors such as the Qatar-based Al-Jazeera - the pan-Arabic television network. One key theme of the book is how new information and communication technologies are influencing the production, distribution and reception of media messages. In an age of instant global communication and round-the-clock news, powerful governments have refined their public relations machinery, particularly in the way warfare is covered on television, to market their version of events effectively to their domestic as well as international viewing public. Transnational in its intellectual scope and in perspectives, War and the Media includes essays from internationally known academics along with contributions from media professionals working for leading broadcasters such as BBC World and CNN.

Al Jazeera and the Global Media Landscape Tine Ustad Figenschou, 2013-10-15 This book analyzes how and why Al

Jazeera English (AJE) became the channel of choice to understand the massive protests across the Arab world 2011. Aiming to explain the 'Al Jazeera moment,' it tracks the channel's bumpy road towards international recognition in a longitudinal, in-depth analysis of the channel's editorial profile and strategies. Studying AJE from its launch in mid-November 2006 to the 'Arab Spring', it explains and problematizes the channel's ambitious editorial agenda and strategies, examines the internal conflicts, practical challenges and minor breakthroughs in its formative years. The Al Jazeera-phenomenon has received massive attention, but it remains under-researched. The growth of transnational satellite television has transformed the global media landscape into a complex web of multi-vocal, multimedia and multi-directional flows. Based on a combination of policy-, production- and content analysis of comprehensive empirical data the book offers an innovative perspective on the theorization of global news contra-flows. By problematizing the distinctive characteristics of AJE, it examines the strategic motivation behind the channel and the ways in which its production processes and news profile are meant to be different from its Anglo-American competitors. These questions underscore a central nexus of the book: the changing relationship between transnational satellite news and power.

Al Jazeera and Democratization Ezzeddine Abdelmoula, 2015-03-02 Al Jazeera and Democratization analyses the increasing role of the media in political transformations with a special emphasis on the Arab world. Taking the Al Jazeera media network as a case study, the author explains how engaging the public and providing platforms for open debate and free expression contributed to the emergence of a new vibrant Arab public sphere. The launch of Al Jazeera in 1996 was a significant event that led to subsequent changes both in Arab media and politics. Among these changes, the Arab spring is certainly the most remarkable. This unprecedented phenomenon has already resulted in political change in a number of countries and is expected to generate a democratizing wave and reshape the face of the region. The Arab spring provides us with a telling empirical example where the interplay between media and politics is manifest. The public sphere that has emerged out of this newly communicative environment has undoubtedly played its role in the current political transformations. In this context, Arab democratization is no longer an abstract, it is rather a developing process that needs our attention and requires concerted scholarly efforts. Highly topical, this book provides a fresh theoretical perspective on Arab democratization in light of the Arab Spring, and is essential reading for researchers and students of Middle East Politics, Media Studies and Democratization.

The SAGE International Encyclopedia of Mass Media and Society Debra L. Merskin, 2019-11-12 The reference will discuss mass media around the world in their varied forms—newspapers, magazines, radio, television, film, books, music, websites, and social media—and will describe the role of each in both mirroring and shaping society.

Social Semiotics of Arabic Satellite Television Ali Darwish, 2009 Arabic satellite television is a phenomenon that has swept the Arab world in less than two decades and is said to have dramatically changed the Arab region. It has created a

world of contrasts and contradictions between tradition and liberalism and a polarization of views and opinions, all vying for dominance and control. This book examines the social semiotics of Arabic satellite television and studies the multimodal representations of Arab social and cultural values and their implied meanings in a communication medium that heavily relies on imported western models.

The Global News Challenge Anne Geniets, 2013-12-13 The Global News Challenge tackles one of the timeliest topics in mass communication today—the challenges facing international broadcasters with universal branding strategies in developing countries. In these heavily government-controlled media environments with a scarcity of reliable information, international news providers traditionally had an influential position. With the ongoing media liberalization, however, commercial domestic providers have gained in strength to become strong competitors. Additionally, in a number of countries, pan-Arab broadcasting enterprises have widened their reach, contributing to the growing competition for traditional international providers such as the BBC or France 24. This book employs a global perspective to explore the subject across the whole population and different media platforms in select developing markets of Africa and South Asia. It is unique in providing a theoretical framework by which to analyze demand and usage of and trust in news from international broadcasters across the whole population, not just opinion leaders. It outlines the strategic options for international broadcasters in these evolving market contexts.

Al-Jazeera Hugh Miles, 2005 Al Jazeera is one of the most widely watched news channels in the world. Journalist Hugh Miles uncovers the true story behind the most influential media outlet in the Arab world.

The New Arab Media Mahjoob Zweiri, Emma C. Murphy, 2012-04-27 Offers an introduction and analysis of some of the most important issues surrounding the media revolution in the Middle East, in particular examining the two Janus-like faces of the media in the Middle East: its role in reflecting developments within the region as well as its function in projecting the Arab world outside of the Middle East.

Arab-Israeli Conflict Priscilla Roberts, 2014-07-15 Truly an essential reference for today's world, this detailed introduction to the origins, events, and impact of the adversarial relationship between Arabs and Israelis illuminates the complexities and the consequences of this long-lasting conflict. The Arab-Israeli conflict remains one of the most contentious in modern history, one with repercussions that reach far beyond the Middle East. This volume describes and explains the most important countries, people, events, and organizations that play or have played a part in the conflict. Chronological coverage begins with the Israeli War of Independence in 1948 and extends through the 2010s. A one-stop reference, the guide offers a comprehensive overview essay, as well as perspective essays by leading scholars who explore such widely debated issues as the United States' support for Israel and historic rights to Palestine. Important primary source documents, such as the UN Resolution on the Partition of Palestine and the Camp David Accords, are included and put into context. Further insight into

drivers of war and peace in the Middle East are provided through biographies of major political leaders like Menachem Begin, Golda Meir, Yasser Arafat, Benjamin Netanyahu, and Anwar Sadat.

Al-Jazeera as a tool for Qatari foreign policy? Sukayna El-Zayat,2013-01-07 Essay from the year 2012 in the subject Communications - Media and Politics, Politic Communications, grade: 7.5 out of 10, Maastricht University (European Studies), language: English, abstract: Since its first appearance, the Arabic network of Al-Jazeera has been the target of many different critics. Some say, the channel supports terrorism; others praise it as the first free and independent Arab media. Al-Jazeera has been funded by Qatar since its beginning and it is now led by a member of the Qatari royal family; the question which then arises is whether Al-Jazeera is as independent as it claims. This paper analyses the relationship between Qatar and Al-Jazeera. Therefore, firstly Qatar's foreign affairs and interests are presented, and then a comparative analysis of Al-Jazeera's coverage of the Arab spring follows. My thesis states that Al-Jazeera functions as an instrument for Qatari foreign policy or is at least heavily influenced by it and is consequently not able to present balanced reporting independently. Using the examples of Libya and Bahrain, this essay shows that the tendencies of Al-Jazeera's coverage match the respective tone of Qatar's foreign policy. Additionally, it looks more deeply at the replacement of Wadah Khanfar, ex-director of Al-Jazeera who has been replaced by a member of the Qatari royal family.
