Abba's Abba Gold Elisabeth Vincentelli,2004-03-31 33 1/3 is a new series of short books about critically acclaimed and much-loved albums of the last 40 years. Focusing on one album rather than an artist's entire output, the books dispense with the standard biographical background that fans know already, and cut to the heart of the music on each album. The authors provide fresh, original perspectives - often through their access to and relationships with the key figures involved in the recording of these albums. By turns obsessive, passionate, creative, and informed, the books in this series demonstrate many different ways of writing about music. (A task which can be, as Elvis Costello famously observed, as tricky as dancing about architecture.) What binds this series together, and what brings it to life, is that all of the authors - musicians, scholars, and writers - are deeply in love with the album they have chosen.

Like a Child Rev. Timothy J. Mooney, 2014-05-30 By breaking free from our misperceptions about what it means to be an adult, we can reshape our world and become harbingers of grace. “In our desire to grow up, mature, become adults, we become enamored with who we are supposed to be. When we have finally ‘grown up’ we realize much of who we really are has been left behind or buried under various masks and roles we play. But the knowledge of who we truly are never leaves us. To reclaim our selfhood, we must grow up again and consciously embrace all that it means to be childlike.” —from Chapter 12, “It Takes a Long Time to Become Young” By restoring the childlike ways of humility, trust, awe, wonder, playfulness and more, we can recover a fuller picture of what it means to be human. This unique spiritual resource explores what Jesus may have meant when he said, “Unless you change and become like children, you will never enter the kingdom of heaven.” It addresses our modern misperceptions regarding the nature of maturity and the common coping mechanisms—distrust, guardedness, insecurity, judgmental thinking—we acquire, and feel we require, in adulthood. Along with the wisdom of ancient and modern spiritual luminaries, this book provides over twenty-five spiritual practices to help us cultivate the childlike ways of attention, self-awareness, joy and resilience in our inner lives as well as in our relationships with others.

If Back to the Future is elementary time travel, this is the stuff of doctoral theses.”—Kirkus Reviews. “Datta's vivid descriptions do an excellent job of bringing the Time Corrector Universe to life on the pages.... Fans of mind-bending science fiction will find themselves enthralled by Datta's expertly crafted narrative and clever twists”—Prairies Book Review. “Fans of dense, intricately detailed SF won't want to miss this one.” —BookView Review WHEN THE WORLDS COLLIDE, THEIR LOVE WILL REWRITE THE FABRIC OF REALITY In the shocking third installment of the Time Corrector

series, super-genius Dr. Vincent Abajian finds himself in an even grander drama, and this time, the fate of his beloved daughter is on the line. The Reset is a culmination of worlds colliding, timelines interweaving, and relationships that seemed indestructible, reaching dire breaking points. Vincent gets in the midst of an international political crisis forged by his adversary, Philip Nardin. As he tirelessly works to offset the impact, Philip kidnaps Nozomi, Vincent's daughter. In an endgame decision, Vincent relinquishes his time-correcting powers to Philip while the world leaders launch a devastating arms race to weaponize Intreton—the purest energy source that can alter reality if mishandled. The two opponents, Vincent and Philip, unite against political and military forces to save reality from crumbling. Their plan reveals a mind-bending past and the identity of a time-twisted villain Philip calls the Lunatic. Such revelation leads to a dramatic conclusion and opens the possibility of a Reset. As someone close to Vincent shows their true self, Vincent discovers that Nozomi's complex ties to Emika and Akane may hold the key to the Reset in this time-hopping clash of love, egos, and desires. A story of love that transcends time and reality, and the sacrifices masquerading as selfish acts, the final book of the award-winning Time Corrector series is a whirlwind of unexpected events—many questions will finally be answered. And yet, new possibilities lay beyond this head-spinning conclusion.

Presence and Pleasure Anne Danielsen, 2024-08-06 Winner of the 2007 Irving Lowens Book Award from the Society for American Music Winner of IASPM's 2007 International Book Award In this exploration of the funk groove and its unique sounds, author Anne Danielsen takes an in-depth look at this under-explored genre. Danielsen concentrates on the golden age of funk in the late 1960s and the 1970s, focusing on two of the era's artists who made a substantial impact on the landscape of popular music: James Brown and George Clinton/Parliament. Aiming to understand funk not only as objectified musical meaning but also as lived experience, she begins with the musical events themselves and draws on her experiences as both a fan and a scholar to capture how their particular organization creates the funk listener's pleasure. Danielsen further examines issues surrounding race in the construction and consumption of this music, focusing her study with how white listeners responded to funk in the 1970s, and arguing that African American music has remained a means of catharsis and of dealing with pleasures of the body. Funk's crossover to international success among listeners of pop and rock music affected both the music itself and audiences' understanding of it. *Presence and Pleasure* shows us how.

The Mammoth Book of Sex, Drugs & Rock 'n' Roll Jim Driver, 2010-04-29 Over 60 gripping accounts tracking the dark side of rock 'n' roll from the early days of the drugs-and-drink culture, and the birth of rock 'n' roll, through The Beatles, Stones, Sex Pistols, Madonna, Kurt Cobain and Oasis, to Amy Winehouse, Pete Doherty and other stars of the current rock-

music scene. From trashed hotel rooms to cars in swimming pools, all rock 'n' roll's excesses are here, including murder and sexual deviancy, surprising brushes with the law that the stars thought they'd kept quiet, early and tragic deaths, drug overdoses, robbery, mis-marriages and groupies by the truckload

Real Things Jim Elledge, Susan Swartwout, 1999-03-22 What a great premise for an anthology! And it succeeds, both in its celebration of our crazy culture and its fascinating analysis, through the poems, of popular myths that have stood the test of time. —Kliatt In the past few decades, poetry about and around popular culture has become a very hip contemporary art form. Real Things is a collection of over 150 poems by more than 130 poets who themselves represent the cultural diversity of the United States. With subjects ranging from the influence of Mickey Mouse on child-raising to the relationship of Barbie to sex in America, from the societal effects of the movie Psycho to our fascination with dirty politics and Ralph Kramden, the poems in this anthology question and celebrate the attitudes that our society shares.

Music Similarity and Retrieval Peter Knees, Markus Schedl, 2016-05-28 This book provides a summary of the manifold audio- and web-based approaches to music information retrieval (MIR) research. In contrast to other books dealing solely with music signal processing, it addresses additional cultural and listener-centric aspects and thus provides a more holistic view. Consequently, the text includes methods operating on features extracted directly from the audio signal, as well as methods operating on features extracted from contextual information, either the cultural context of music as represented on the web or the user and usage context of music. Following the prevalent document-centered paradigm of information retrieval, the book addresses models of music similarity that extract computational features to describe an entity that represents music on any level (e.g., song, album, or artist), and methods to calculate the similarity between them. While this perspective and the representations discussed cannot describe all musical dimensions, they enable us to effectively find music of similar qualities by providing abstract summarizations of musical artifacts from different modalities. The text at hand provides a comprehensive and accessible introduction to the topics of music search, retrieval, and recommendation from an academic perspective. It will not only allow those new to the field to quickly access MIR from an information retrieval point of view but also raise awareness for the developments of the music domain within the greater IR community. In this regard, Part I deals with content-based MIR, in particular the extraction of features from the music signal and similarity calculation for content-based retrieval. Part II subsequently addresses MIR methods that make use of the digitally accessible cultural context of music. Part III addresses methods of collaborative filtering and user-aware and multi-modal retrieval, while Part IV explores current and future applications of music retrieval and recommendation.>

Bessie Chris Albertson, 2003-06-10 The definitive biography of musical legend Bessie Smith: "A landmark in the writing of jazz history . . . First-rate" (The Washington Post). Known as the "Empress of the Blues," Bessie Smith was a successful vaudeville entertainer who became the highest paid African American performer of the Roaring Twenties. This revised and expanded biography debunks many of the myths that have circulated since her untimely death in 1937. Writing with insight and candor about the singer's personal life and career, the author supplements his research with dozens of interviews with her relatives, friends, and associates—in particular Ruby Walker Smith, a niece by marriage who toured with Bessie for over a decade. Also included in this updated edition are more details of Bessie's early years, new interview material, and a chapter devoted to events and responses that followed the book's original publication. "The product of painstaking research . . . Devastating, provocative, and enlightening." —Los Angeles Times
