Engels Friedrich

The Origin of the Family, Private Property and the State Friedrich Engels, 2010-04-29 The Origin of the Family, Private Property and the State (1884), was a provocative and profoundly influential critique of the Victorian nuclear family. Engels argued that the traditional monogamous household was in fact a recent construct, closely bound up with capitalist societies. Under this patriarchal system, women were servants and, effectively, prostitutes. Only Communism would herald the dawn of communal living and a new sexual freedom and, in turn, the role of the state would become superfluous.

The Origin of the Family, Private Property and the State Friedrich Engels, 2019-10-07 The Origin of the Family, Private Property, and the State: in the Light of the Researches of Lewis H. Morgan is an 1884 historical materialist treatise by Friedrich Engels. It is partially based on notes by Karl Marx to Lewis H. Morgan's book *Ancient Society*

The Origin of the Family Private Property and the State Frederick Engels, 2018-02-19 The Origin of The Family Private Property and The State by Frederick Engels. Translated By Ernest Untermann. The following chapters are, in a certain sense, executing a bequest. It was no less a man than Karl Marx who had reserved to himself the privilege of displaying the results of Morgan's investigations in connection with his own materialistic conception of history-which I might call ours within certain limits. He wished thus to elucidate the full meaning of this conception. For in America, Morgan had, in a manner, discovered anew the materialistic conception of history, originated by Marx forty years ago. In comparing barbarism and civilization, he had arrived, in the main, at the same results as Marx. And just as Capital was zealously plagiarized and persistently passed over in silence by the professional economists in Germany, so Morgan's *Ancient Society* was treated by the spokesmen of prehistoric science in England. My work can offer only a meager substitute for that which my departed friend was not destined to accomplish. But in his copious extracts from Morgan, I have critical notes which I herewith reproduce as fully as feasible.

It focuses on early human history, following the disintegration of the primitive community and the emergence of a class society based on private property. Engels looks into the origin and essence of the state, and concludes it is bound to wither away leaving a classless society.Engels: "Along with [the classes] the state will inevitably fall. Society, which will re-organise production on the basis of a free and equal association of the producers, will put the whole machinery of state where it will then belong: into the museum of antiquity, by the side of the spinning-wheel and the bronze axe."
