Researching Irish Australians Brian Trainor,1998 This directory provides short histories of some 5,000 of the Irish who settled in Australia in the last century. Included also are over 500 abstracts of Irish-Australian wills taken from the printed Irish will calendars 1858-1900. High and low in society are to be found there ranging from a State Governor like Sir Arthur Kennedy of Queensland down to John Augustin Martin, a billiard marker of Inverell, New South Wales, whose estate was valued at £250 when he died in 1892. Significantly, over 80 abstracts relate to women, an important feature since documentation about individual women is meagre.

European Garden Flora Stuart Max Walters,James Cullen,1984 The European Garden Flora is the definitive manual for the accurate identification of cultivated ornamental plants. It is designed to meet the highest scientific standards but the vocabulary is kept as uncomplicated as possible so that it is fully accessible to the informed gardener and landscape architect as well as to the professional botanists. Although based upon Europe the series will be an extremely useful reference on plants in cultivation throughout the world. Families, genera and species are described, keys are provided and guidance is given on the cultivation of each genus. Volume I is the first in a series of six; it contains accounts of the ferns and their allies, the conifers and 16 families of monocotyledons, including the Liliaceae, Amaryllidaceae and Iridaceae, to which most of the popular bulbous garden plants belong.

Watsonia Don Watson,2020-11-17 No other writer has journeyed further into the soul of Australia and returned to tell the tale Watsonia collects the fruits of a writing life. It covers everything from Australian bush humour to America gone berserk; from Don Bradman to Oscar Wilde; from Animal Farm to the Australian parliament. Wherever Watson turns his incisive gaze, the results are as illuminating as they are enjoyable. Artfully arranged, Watsonia showcases the many sides of Don Watson:

historian, speechwriter, commentator, humourist, nature writer and biographer. It also features several previously unpublished lectures and a wide-ranging introduction by the author. This comprehensive anthology - replete with wit, wisdom and diverse pleasures - is essential reading.

The Iris Family Peter Goldblatt, John C. Manning, 2008-01-01 Irises and their relatives are lily-like plants related to the orchid and narcissus families, with whom they share a propensity for large, brightly colored, attractive flowers. Many have longlasting flowers—*Iris*, *Gladiolus*, and *Freesia* are among the most important cut-flower crops in the world. The intricate flowers of the iris family are finely adapted for pollination by a variety of animals, including hummingbirds, sunbirds, beetles, butterflies, moths, wasps, and bees. This intimate connection between flower form and pollination biology reveals how the marvelous range of flower colors, shapes, and scents are vital to the lives of the species. The diversity of Iridaceae is illustrated in more than 200 superb photographs supplemented by expert line drawings. A lifetime of work by the world's expert on Iridaceae is distilled in this definitive account. Botanists, ecologists, naturalists, and gardeners will find this an essential reference.
