Poetry Unbound Mike Chasar, 2020-04-28 It's become commonplace in contemporary culture for critics to proclaim the death of poetry. Poetry, they say, is no longer relevant to the modern world, mortally wounded by the emergence of new media technologies. In Poetry Unbound, Mike Chasar rebuts claims that poetry has become a marginal art form, exploring how it has played a vibrant and culturally significant role by adapting to and shaping new media technologies in complex, unexpected, and powerful ways. Beginning with the magic lantern and continuing through the dominance of the internet, Chasar follows poetry's travels off the page into new media formats, including silent film, sound film, and television. Mass and nonprint media have not stolen poetry's audience, he contends, but have instead given people even more ways to experience poetry. Examining the use of canonical as well as religious and popular verse forms in a variety of genres, Chasar also traces how poetry has helped negotiate and legitimize the cultural status of emergent media. Ranging from Citizen Kane to Leave It to Beaver to best-selling Instapoet Rupi Kaur, this book reveals poetry's ability to find new audiences and meanings in media forms with which it has often been thought to be incompatible. Illuminating poetry's surprising multimedia history, Poetry Unbound offers a new paradigm for understanding poetry's still evolving place in American culture.

Verse, Voice, and Vision Marlisa Santos,2013-09-26 Although it is a somewhat underrepresented form of literature in popular sensibility, poetry finds relevance in the modern world through its appearance in cinema. Film adaptations of poems and depictions of poets on the screen date back to the silent era and continue to the present day. However, there have been few serious studies of how cinema has represented the world of poetic expression. In Verse, Voice, and Vision: Poetry and the Cinema, Marlisa Santos has compiled essays that explore the relationship between one of the world's oldest art forms—poetry—and one of the world's newest art forms—film. The book is divided into three sections: poets on film, poetry as film, and film as poetry. Topics include analyses of poet biopics (such as Mrs. Parker and the Vicious Circle), filmic representations of poets or poetic studies (including Pyaasa), films inspired by particular poems (such as Splendor in the Grass), and the avant-garde phenomenon of the “poem-film” (such as The Tree of Life). Poetic influences considered in this volume range from William Shakespeare to e.e. cummings, and the films discussed hail from several different countries, including the U.S., the U.K., India, China, Italy, and Argentina. Featuring a great diversity in the age, genres, and countries of origin of the films, these essays provide an in-depth look at how poetry has been interpreted on film over the years. By addressing a heretofore unexamined aspect of film studies, Verse, Voice, and Vision will appeal to fans and scholars of both literature and cinema.

Test Talk Amy H. Greene,Glennon Doyle Melton,2007 Under No Child Left Behind, nearly every teacher faces a high-stakes balancing act; managing the often incompatible responsibilities of teaching students meaningfully or preparing them for standardized tests. Through their experiences teaching at a school that struggled to meet state test standards driven by

NCLB, authors Amy Greene and Glennon Melton discovered a way to raise scores without compromising their strong beliefs about good teaching and learning. In *Test Talk*, Amy and Glennon share their story and their proven approach. This compelling book shows that teachers don't have to choose between best practice teaching and test preparation; effective test-taking strategies can be integrated into authentic reading instruction. The authors demonstrate how to improve performance on tests without resorting to teaching to the test, mnemonic devices, or other gimmicks. Instead, they focus on encouraging student readers to explore tests as a specific genre containing unique language, format, and cues. Concise and easy-to-use, *Test Talk* includes lesson plans and practice passages, as well as sample questions and suggested language to use during lessons. Throughout the book, classroom vignettes show how seamlessly one can weave the test genre into reading workshop and connect those specialized skills to more general reading strategies. It is an invaluable resource for any teacher who struggles with how to prepare kids for tests without sacrificing real teaching and learning.

Poetic Justice Jill Frank, 2018-01-20 Plato set his dialogues in the fifth century BCE, when written texts were disseminated primarily by performance and recitation. He wrote them in the fourth century, when literacy was expanding. Jill Frank argues that there are unique insights to be gained from appreciating Plato's dialogues as written texts to be read-and reread. At the center of these insights is the analogy in the dialogues between becoming literate and coming to know or understand something, and two different ways of learning to read. One approach treats literacy as a top-down affair, in which authoritative teachers lead students to true beliefs. Another, recommended by Socrates in the *Republic*, encourages trial and error and the formation of beliefs based on students' cognitive and sensory experiences. The first approach to learning to read aligns with philosophy as authoritative knowledge and politics as rule by philosopher-kings. Following the second approach, *Poetic Justice* argues that the *Republic* neither endorses nor enforces fixed hierarchies in knowledge and politics but offers instead an education in ethical and political self-governance, one that prompts citizens to challenge all claims to authority, including those of philosophy.

100 Entertainers Who Changed America Robert C. Sickels, 2013-08-08 This fascinating and thought-provoking read challenges readers to consider entertainers and entertainment in new ways, and highlights figures from outside the worlds of film, television, and music as influential pop stars. Comprising approximately 100 entries from more than 50 contributors from a variety of fields, this book covers a wide historical swath of entertainment figures chosen primarily for their lasting influence on American popular culture, not their popularity. The result is a unique collection that spotlights a vastly different array of figures than would normally be included in a collection of this nature—and appeals to readers ranging from high school students to professionals researching specific entertainers. Each subject individual's influence on popular culture is analyzed from the context of his or her time to the present in a lively and engaging way and through a variety of intellectual

approaches. Many entries examine commonly discussed figures' influence on popular culture in ways not normally seen—for example, the widespread appeal of Woody Allen's essay collections to other comedians; or the effect of cinematic adaptations of Tennessee Williams' plays in breaking down Hollywood censorship.

International Who's Who in Poetry 2004 Europa Publications, 2003 Provides up-to-date profiles on the careers of leading and emerging poets.

Statutes of Liberty Geoff Ward, 1993-02-15 Statutes of Liberty is the first full-length academic study of the New York School of Poets. It contains an introduction to the work of these writers, followed by chapters on the central figures: Frank O'Hara, James Schuyler and John Ashbery. A postscript examines the continuing and changing influence of the New York School. The book is also concerned with deconstruction, a mode of literary analysis with which Ashbery's work in particular has come to be associated by critics in America.

Loving Immigrants in America Daniel Campos, 2017-08-30 At once narrative and reflective, *Loving Immigrants in America: An Experiential Philosophy of Personal Interaction* is a philosophical account of Daniel Campos's experience as a Latin American immigrant to the United States of America. A series of interrelated personal essays together convey this experience of walking or sauntering, going on road trips, reading American literature in the southern United States, playing association football (soccer or fútbol), churchgoing, and Latin dancing in the U.S. This book's central motif is the caring saunterer, who is understood to be a person who makes him or herself at home anywhere, even as a Latino immigrant in the U.S. The narrative essays convey one immigrant's experience seeking an affective, social, and intellectual home in a new land. The intertwined philosophical reflections lead to the recommendation of an ethic of love—resilient love—for the day-to-day interactions and long-term relations between immigrants and hosts in this country. The author's aim is to establish an open and earnest philosophical dialogue with critical readers interested in the problems surrounding immigration in the U.S. today. He writes as an American philosopher—in the continental sense of North, Central, and South America—whose reflections provide an accessible and provocative angle for the development of insight into the experiences of immigrants in the United States. Thus he brings philosophical reflection drawn from experience, in the broad American tradition, to bear on current issues—on the problems of people and not of philosophers, as John Dewey might put it.

Crrritic! John Schad, Oliver Tearle, 2011 Oscar Wilde famously spoke of 'the critic as artist' whilst Terry Eagleton once celebrated 'the critic as clown'. This exciting new volume brings together a range of writings that seek to radically re-imagine the often pale figure of the literary critic. In doing so we here glimpse a host of unfamiliar figures from the critic as pedestrian to the critic as suicide through the critic as revivalist and even the critic as bodger. The result is a book that seeks

to locate the truly critical critic -- or, to be paradoxical, the critic as critic; the critic who is a critic of criticism as conventionally understood. This is the final volume of the immensely successful 'Critical Inventions' series.

C.S. Lewis, Poet Don W. King, 2001 C.S. Lewis is best known as the creator of the fanciful world of Narnia and writer of literary criticism and Christian apologetics. This book examines Lewis's early writings, under the pseudonym Clive Hamilton, analyzing the influence of his formative poetic aspirations upon his later prose. By looking at early diaries and letters, and the inclusion of four of Lewis's previously unpublished narrative poems and eleven previously unpublished short poems, this text explains the man through his writing.

Statutes of Liberty G. Ward, 2000-12-11 Statutes of Liberty (1993) was the first book on The New York School of Poets, and offers the definitive critical account of its key figures: John Ashbery, Frank O'Hara and James Schuyler. This second edition contains up-to-date material on the group and its growing influence on postmodern poetics. A new postscript focuses on the work of Ashbery, currently the most esteemed American poet since Wallace Stevens, and his profile output in the 1990s, including his two hundred page epic poem Flow Chart.

Last Things Janet Gezari, 2007-02-22 Emily Brontë's poetry is more often celebrated than read. This book seeks to reinstate her poems at the heart of Victorian writing while underlining their relevance. For admirers of 'Wuthering Heights', this work brings the concerns and methods of the novel into focus by relating them to the poems.
