Sibert Informational Book Medal A 2020 American Indian Youth Literature Picture Book Honor Winner “A wonderful and sweet book . . . Lovely stuff.” —The New York Times Book Review Told in lively and powerful verse by debut author Kevin Noble Maillard, Fry Bread is an evocative depiction of a modern Native American family, vibrantly illustrated by Pura Belpre Award winner and Caldecott Honoree Juana Martinez-Neal. Fry bread is food. It is warm and delicious, piled high on a plate. Fry bread is time. It brings families together for meals and new memories. Fry bread is nation. It is shared by many, from coast to coast and beyond. Fry bread is us. It is a celebration of old and new, traditional and modern, similarity and difference. Evaluating and Promoting Nonfiction for Children and Young Adults Don Latham, 2025-01-07 *Evaluating and Promoting Nonfiction for Children and Young Adults* isn't another bibliography that will quickly become outdated. Instead, it situates nonfiction resources within the recent emphasis on reading nonfiction as a way of enhancing critical thinking and combating susceptibility to "fake news." Donald Latham offers strategies for evaluating nonfiction for the purposes of collection development, providing readers' advisory, and developing programs using nonfiction for children and young adults. The book includes lists of professional resources as well as recommended nonfiction titles.

Teaching Multicultural Children's Literature in a Diverse Society AnnMarie Alberton Gunn, Susan, V. Bennett, 2023-03-28 This textbook is a comprehensive resource for teaching multicultural children's literature. Providing foundational information on how and why to integrate diverse children's literature into the classroom, this book presents a necessary historical perspective on cultural groups in the United States and context for how to teach children's literature in a way that reflects and sustains students' rich cultural backgrounds. The historical insights and context on diverse cultural groups at the heart of the book allow readers to deepen their understanding of why teaching about cultural diversity is necessary for effective and inclusive education. Part I offers foundational information on how to teach children's literature in a diverse society, and Part II overviews pedagogy, resources, and guidance for teaching specific culturally and linguistically marginalized groups. Each chapter contains book recommendations, discussion questions, and additional resources for teachers. With authentic strategies and crucial background knowledge embedded in each chapter, this text is essential reading for pre-service and in-service teachers and is ideal for courses in children's literature, literacy methods instruction, and multicultural education.

Handbook of Research on Teaching Diverse Youth Literature to Pre-Service Professionals Hartsfield, Danielle E., 2021-06-25 Perspectives and identity are typically reinforced at a young age, giving teachers the responsibility of selecting reading material that could potentially change how the child sees the world. This is the importance of sharing diverse literature with today's children and young adults, which introduces them to texts that deal with religion, gender identities, racial identities, socioeconomic conditions, etc. Teachers and librarians play significant roles in placing diverse books in the hands of young readers. However, to achieve the goal of increasing young people's access to diverse books, educators and librarians must receive quality instruction on this topic within their university preparation programs. The Handbook of Research on Teaching Diverse Youth Literature to Pre-Service Professionals is a comprehensive reference source that curates promising practices that teachers and librarians are currently applying to prepare aspiring teachers and librarians for sharing and teaching diverse youth literature. Given the importance of sharing diverse books with today's young people, university educators must be aware of engaging and effective methods for teaching diverse literature to pre-service teachers and librarians. Covering topics such as syllabus development, diversity, social justice, and activity planning, this text is essential for university-level teacher educators, library educators who prepare pre-service teachers and librarians, university educators, faculty, adjunct instructors, researchers, and students.

American Indians and the Mass Media Meta G. Carstarphen, John P. Sanchez, 2012-10-01 Mention "American Indian," and the first image that comes to most people's minds is likely to be a figment of the American mass media: A war-bonneted chief. The Land O' Lakes maiden. Most American Indians in the twenty-first century live in urban areas, so why do the mass media still rely on Indian imagery stuck in the eighteenth and nineteenth centuries? How can more accurate views of contemporary Indian cultures replace such stereotypes? These and similar questions ground the essays collected in *American Indians and the Mass Media*, which explores Native experience and the mainstream media's impact on American Indian histories, cultures, and communities. Chronicling milestones in the relationship between Indians and the media, some of the chapters employ a historical perspective, and others focus on contemporary practices and new technologies. All foreground American Indian perspectives missing in other books on mass communication. The historical studies examine treatment of Indians in America's first newspaper, published in seventeenth-century Boston, and in early Cherokee newspapers; Life magazine's depictions of Indians, including the famous photograph of Ira Hayes raising the flag at Iwo Jima; and the syndicated feature stories of Elmo Scott Watson. Among the chapters on more contemporary issues, one discusses campaigns to change offensive place-names and sports team mascots, and another looks at recent movies such as *Smoke Signals* and television programs that are gradually overturning the "movie Indian" stereotypes of the twentieth century. Particularly valuable are the essays highlighting authentic tribal voices in current and future media. Mark Trahan chronicles the formation of the Native American Journalists Association, perhaps the most important early Indian advocacy organization, which he helped

found. As the contributions on new media point out, American Indians with access to a computer can tell their own stories—instantly to millions of people—making social networking and other Internet tools effective means for combating stereotypes. Including discussion questions for each essay and an extensive bibliography, *American Indians and the Mass Media* is a unique educational resource.
