Community, Scale, and Regional Governance Liesbet Hooghe, Gary Marks, Arjan H. Schakel, Sara Niedzwiecki, Sandra Chapman Osterkatz, Sarah Shair-Rosenfield, 2016 This is the second of five ambitious volumes theorizing the structure of governance above and below the central state. This book is written for those interested in the character, causes, and consequences of governance within the state. The book argues that jurisdictional design is shaped by the functional pressures that arise from the logic of scale in providing public goods and by the preferences that people have regarding self-government. The first has to do with the character of the public goods provided by government: their scale economies, externalities, and informational asymmetries. The second has to do with how people conceive and construct the groups to which they feel themselves belonging. In this book, the authors demonstrate that scale and community are principles that can help explain some basic features of governance, including the growth of multiple tiers over the past six decades, how jurisdictions are designed, why governance within the state has become differentiated, and the extent to which regions exert authority. The authors propose a postfunctionalist theory which rejects the notion that form follows function, and argue that whilst functional pressures are enduring, one must engage human passions regarding self-rule to explain variation in the structures of rule over time and around the world. Transformations in Governance is a major new academic book series from Oxford University Press. It is designed to accommodate the impressive growth of research in comparative politics, international relations, public policy, federalism, environmental and urban studies concerned with the dispersion of authority from central states up to supranational institutions, down to subnational governments, and side-ways to public-private networks. It brings together work that significantly advances our understanding of the organization, causes, and consequences of multilevel and complex governance. The series is selective, containing annually a small number of books of exceptionally high quality by leading and emerging scholars. The series targets mainly single-authored or co-authored work, but it is pluralistic in terms of disciplinary specialization, research design, method, and geographical scope. Case studies as well as comparative studies, historical as well as contemporary studies, and studies with a national, regional, or international focus are all central to its aims. Authors use qualitative, quantitative, formal modeling, or mixed methods. A trade mark of the books is that they combine scholarly rigour with readable prose and an attractive production style. The series is edited by Liesbet Hooghe and Gary Marks of the University of North Carolina, Chapel Hill, and the VU Amsterdam, and Walter Mattli of the University of Oxford.

Measuring Regional Authority Liesbet Hooghe, Gary Marks, Arjan H. Schakel, Sandra Chapman Osterkatz, Sara Niedzwiecki, Sarah Shair-Rosenfield, 2016-01-28 This is the first of five ambitious volumes theorizing the structure of governance above and below the central state. This book is written for those interested in the character, causes, and consequences of governance within the state and for social scientists who take measurement seriously. The book sets out a measure of regional authority for 81 countries in North America, Europe, Latin America, Asia, and the Pacific from 1950 to 2010. Subnational authority is exercised by individual regions, and this measure is the first that takes individual regions as the unit of analysis. On the premise that transparency is a fundamental virtue in measurement, the authors chart a new path in laying out their theoretical, conceptual, and scoring decisions before the reader. The book also provides summaries of regional governance in 81 countries for scholars and students alike. Transformations in Governance is a major new academic book series from Oxford University Press. Amándonos Gary Chapman, 2008 "Hagamos el amor." "Tengamos relaciones sexuales." ¿Hay alguna diferencia? Por supuesto que sí! Mientras que las relaciones sexuales son la unión de dos cuerpos, el amor es la unión de dos almas. Las relaciones sexuales sin amor nunca producirán una satisfacción completa, pero las relaciones sexuales que se dan a partir del amor llevarán al matrimonio a un nivel de satisfacción completamente nuevo. En su estilo simple y directo, el Dr. Gary Chapman explora las enseñanzas judío-cristianas sobre el amor y las relaciones sexuales, y enseña a las parejas que si desean mayor satisfacción sexual, primero necesitan aprender cómo amar. "Let's make love." "Let's have sex." Is there a difference?

You bet there is! While sex is the joining of two bodies, love is the joining of two souls. Sex without love will never be ultimately satisfying, but sex that grows out of love will take a marriage to a whole new level of satisfaction. In his trademark simple, straightforward style, Dr. Gary Chapman explores the Judeo-Christian teachings on love and sex and teaches couples that if they desire greater sexual satisfaction, they must first learn how to love.

As cinco linguagens do amor para solteiros Gary Chapman, 2013-01-01 • Autor do best-seller *As 5 linguagens do amor* • Para compreender as linguagens do amor, é preciso mais do que a tecla SAP. Foi a partir desta constatação que Gary Chapman iniciou a série de best sellers *A Cinco Linguagens do Amor*, publicada no Brasil com exclusividade pela Editora Mundo Cristão. Neste novo título, *As cinco linguagens do amor para solteiros*, o autor se vale de sua experiência como conselheiro familiar, palestrante e estudioso dos relacionamentos para abordar o período da vida em que a aplicação dos princípios das cinco linguagens é crucial para definir, restaurar ou consolidar o presente e o futuro de pessoas que, mais cedo ou mais tarde, formarão as próprias famílias. Não se trata de adaptação dos livros anteriores, mas de uma obra original, focada nos desafios que inúmeros homens e mulheres enfrentam diariamente.
