A Dog Named Mattis Mark Tappan, 2024-06-04 Take a ride-along with Sergeant Mark Tappan and his amazing K9 partner Mattis, whose heroic actions will inspire you to live courageously, serve selflessly, and love passionately because every human (and dog) has a purpose. Sergeant Mark Tappan shares a unique bond with his K9 partner Mattis, one of the most decorated police K9s of all time. Mark knew from the first time they interacted that Mattis was something special. As a man of deep faith, Mark also knew that God's most profound teaching often comes through the most unexpected sources, and he soon realized that Mattis was going to teach him about loyalty, selfless service, and so much more. In *A Dog Named Mattis*, Mark shares twelve life lessons he's learned from working with Mattis. Through these first-hand accounts of bravery and service, you will learn profound lessons, like: being willing to 'go all in' and work with all your heart even when things are uncertain, how persistence pays off when you are willing to stick with what you know is right, how to be strong and

courageous in the face of adversity, and much more. You will also get a behind-the-scenes look at the world of police K9s and gain a deeper understanding of: the many ways that K9 units assist police departments, what a K9 officer's daily life looks like, what kind of training police dogs and their handlers must go through, how a police dog is tested and selected, and the lengths a dog will go to in order to complete their mission. Getting My Bounce Back Carolee Belkin Walker,2018-02-13 A middle-aged author shares her fitness journey, showing readers how to make time to exercise, get inspired to get fit, and be more confident and happier. You don't have to run a marathon to be fit and healthy, or suffer through a triathlon that includes a half-mile swim in the ocean. But you do need an

exercise habit. Especially as we age, exercise is not optional. Yet unless we had been athletes as kids or young adults, and few of us were, we do not know how to find our edge. Learning how to carve out time to meet our fitness needs or to push ourselves physically and mentally is one of the greatest challenges to aging well. Inspired by her popular blog “Be the Dog,” Carolee Belkin Walker shares her story of what it’s like to be a successful professional woman encountering all things fitness for the first time. Even if readers have never put on a pair of running shoes or repeatedly tried to develop a fitness habit, they’ll relate to the highs and lows of Carolee’s journey from the back of the pack to stumbling on a path to resilience and well-being. You could fit two Carolees inside what her body looked like in February 2014. But it is the powerful sense of confidence and resilience that’s had the greatest impact on her and inspires others. This book is about her digging in, discovering who she is, and seeing how far she can push herself to be strong, fit, healthy, and most important, resilient. Carolee’s writing is full of humorous situations as she decides to be an active participant in life and not take the setbacks, or herself, too seriously. Praise for *Getting My Bounce Back* “An autobiographical account of achieving physical fitness in middle age An upbeat, accessible account of one woman’s decision to make her body stronger and her life healthier.” —Kirkus Reviews “Most books and publications just show the end result, as if we magically appear at the peak of fitness and ideal look, but Carolee allows us to peek into her inner mind, showing us that there is a journey behind those photos For anyone who has ever wondered why everyone else made it seem so easy, this book is for you.” —Tina Muir, elite runner and host of the *Running for Real* podcast

Running Marathons in 50 States and 7 Continents Robert Preston, 2022-01-29 I love to run, and my love for running has taken me all around the world. From Boston and New York to Antarctica and South Africa, I have gotten to see some of the most beautiful scenery on the planet. I have run one hundred fifteen marathons in all fifty states as well as the seven continents. Like all athletes, I have had setbacks. Through faith, perseverance, and determination I have kept going and learned that the human will is powerful. Perseverance is one of my favorite words. I recently read about Walt Disney. While everyone knows the iconic brand of Disney, the story of how Walt Disney created the empire is very inspiring. As a young man, Walt Disney was fired from a local newspaper as his boss thought he lacked creativity. After a failed animation company went under, he was barely able to pay his bills, even ate dog food to survive. With his last few dollars, Walt Disney made his way to Hollywood to try and make it big. Unfortunately, his early time in Hollywood was just as bad. He was told Mickey Mouse would fail, faced constant rejection, and seemed destined to never succeed. But Walt persisted and went on to grow the company with amusement parks, feature films, and is known as a cultural icon. Learn to take a calculated risk and don’t stop doing what you love just because the world has shown you obstacles. Ironically, years later, Walt’s Disney acquired the Kansas City Star newspaper—the one that said he lacked creativity all those years ago. One of my goals in writing a book is to inspire people to dream big, whether it is running or something else. Do not let anyone, including yourself, say that a goal

is impossible or unattainable!

The Teaching Life: Professional Learning and Career Progression Kate Jones, Robin Macpherson, 2021-12-06 Being a teacher is far from easy. Being the best teacher you can be is even tougher. There are two really important things that every teacher needs to get right so that they feel fulfilled and challenged in what they do. Firstly, they need to continually develop their craft through effective professional learning. Secondly, they need to map out a career path that has progression as its defining feature. There are very few people who manage to do both things well. Education doesn't stand still, so being a good teacher means being in a constant state of evolution. How do we achieve this? Covering the latest developments in professional learning, Kate Jones and Robin Macpherson explore the massive changes that the global pandemic has brought, seeing it as a paradigm shift with manifest opportunities. The corollary to this is career progression, which is really about making the right professional choices. Are you a one school person for your whole time in teaching? Do you change location or role? Do you harbour leadership ambitions? And crucially, how do you finish your career on a high? Working out what you want to achieve in your teaching life is a core focus of the book, and is addressed through a range of interviews, case studies, and challenge questions. It is not about telling you what to do but prompting you to reflect on what you do. The Teaching Life is for anyone who wants to make the most of their time in education, for their students and for themselves.

Race and Gender in Modern Western Warfare David Ulbrich, Bobby A. Wintermute, 2018-12-03 This book fills a gap in the historiographical and theoretical fields of race, gender, and war. In brief, Race and Gender in Modern Western Warfare (RGMWW) offers an introduction into how cultural constructions of identity are transformed by war and how they in turn influence the nature of military institutions and conflicts. Focusing on the modern West, this project begins by introducing the contours of race and gender theories as they have evolved and how they are employed by historians, anthropologists, sociologists, and other scholars. The project then mixes chronological narrative with analysis and historiography as it takes the reader through a series of case studies, ranging from the early nineteenth century to the Global War of Terror. The purpose throughout is not merely to create a list of so-called great moments in race and gender, but to create a meta-landscape in which readers can learn to identify for themselves the disjunctures, flaws, and critical synergies in the traditional memory and history of a largely monochrome and male-exclusive military experience. The final chapter considers

the current challenges that Western societies, particularly the United States, face in imposing social diversity and tolerance on statist military structures in a climates of sometimes vitriolic public debate. RGMWW represents our effort to blend race, gender, and military war, to problematize these intersections, and then provide some answers to those problems.

4-31 Infantry in Iraq's Triangle of Death Darrell E. Fawley III,2020-01-01 The Iraqi Triangle of Death, south of Baghdad, was a raging inferno of insurgent activity in August of 2006; by November 2007, attacks had been suppressed to such an extent as to return the area to near obscurity. In the intervening months, the U.S. Army 4th Battalion, 31st Infantry (Polar Bears) employed a counterinsurgency approach that set the conditions for a landmark peace agreement that has held to the present. With a focus on counterinsurgency, this book is the first to look at the breadth of military operations in Yusifiyah, Iraq, and to analyze the methods the Polar Bears employed. It is a story not of those who fought in the Triangle of Death, but of how they fought.

It's All about the Land Taiaiake Alfred,2023-08-31 Illuminating the First Nations struggles against the Canadian state, It's All about the Land exposes how racism underpins and shapes Indigenous-settler relationships. Renowned Kahnawà:ke Mohawk activist and scholar Taiaiake Alfred explains how the Canadian government's reconciliation agenda is a new form of colonization that is guaranteed to fail. Bringing together Alfred's speeches and interviews from over the past two decades, the book shows that Indigenous peoples across the world face a stark choice: reconnect with their authentic cultures and values or continue following a slow road to annihilation. Rooted in ancestral spirit, knowledge, and law, It's All about the Land presents a passionate argument for Indigenous Resurgence as the pathway toward justice for Indigenous peoples.
