The Big Book of Magical Incense Sara L. Mastro,2021-12-01 "A masterwork of botanical lore. --Amy Blackthorn, author of Blackthorn's Botanical Magic *The Big Book of Magical Incense* is an invaluable hands-on guide to the vast world of magical incense. It provides tried-and-true recipes, advice on how to create your own formulas, and instructions on how to use incense in all sorts of magical practice. While the book requires no prerequisite knowledge, it is also appropriate for experienced magicians and learned pagans. The chapters are scaffolded, teaching about basic ingredients and skills, both practical and magical, in early chapters, and gently leading the reader to develop their own recipes, spells, and ritual practices as they move through the book. Presented in a paradigm-agnostic way, the book should appeal to people on numerous paths. Ceremonial magicians and sorcerers will appreciate the planetary incense recipes and translations from the Greek magical papyri and other classical magic texts. Folk magicians will appreciate the many magical incense formulas, such as Go Away! and Money Magnet. Animists will love the focus on ingredients native to the United States, and the instructions for working with the dead and the spirits of the land. Devotional pagans will find recipes for a variety of gods, particularly those of the Eastern Mediterranean traditions, some of whose chapters include original translations of the Orphic hymns and other devotional poetry. Chaos magicians will be excited about the flexibility to mix and match practices and recipes throughout the book.

The Treadwell's Book of Plant Magic Christina Oakley Harrington, 2023-04-03 “The Treadwell’s Book of Plant Magic is a marvel of a volume, sure to arm any witch—or anyone actually—with the knowledge they need to infuse their lives with plant enchantments of all sorts. This is the wise and wondrous herbal reference book we have been waiting for!” —Pam Grossman, author of *Waking the Witch: Reflections on Women, Magic, and Power* In *The Treadwell’s Book of Plant Magic*, author Christina Oakley Harrington—founder of the renowned Treadwell’s Books in London—focuses exclusively on the magical powers attributed to the plants. She has sifted through hundreds of traditional sources to create a rare compendium of the “old ways” in which plants have been used to achieve love, win competitions, become invisible, gain good luck, achieve success, receive protection, and more. The book also offers practical updates to the old uses, which the modern reader will find easy to carry out. The Problems and Solutions section suggests the appropriate plant or plants for almost any circumstance one could face in life. Each spell is carefully cited to its traditional source to aid the reader in further study.

Early Modern Herbals and the Book Trade Sarah Neville, 2022-01-06 Between 1525 and 1640, a remarkable phenomenon occurred in the world of print: England saw the production of more than two dozen editions identified by their imprints or by contemporaries as 'herbals'. Sarah Neville explains how this genre grew from a series of tiny anonymous octavos to authoritative folio tomes with thousands of woodcuts, and how these curious works quickly became valuable commodities within a competitive print marketplace. Designed to serve readers across the social spectrum, these rich material artifacts represented both a profitable investment for publishers and an opportunity for authors to establish their

credibility as botanists. Highlighting the shifting contingencies and regulations surrounding herbals and English printing during the sixteenth and early seventeenth century, the book argues that the construction of scientific authority in Renaissance England was inextricably tied up with the circumstances governing print. A Study of the Gospels in Codex Alexandrinus W. Andrew Smith,2014-09-18 Codex Alexandrinus is one of the three earliest surviving entire Greek Bibles and is an important fifth-century witness to the Christian Scriptures, yet no major analysis of the codex has been performed in over a century. In *A Study of the Gospels in Codex Alexandrinus* W. Andrew Smith delivers a fresh and highly-detailed examination of the codex and its rich variety of features using codicology, palaeography, and statistical analysis. Among the highlights of this study, W. Andrew Smith's work overturns the view that a single scribe was responsible for copying the canonical books of the New Testament and demonstrates that the orthographic patterns in the Gospels can no longer be used to argue for Egyptian provenance of the codex.

Helping Angelica in any way goes against her instincts, yet she owes the lawyer. Not even her animosity for her old high school nemesis will be enough to make her turn her back on the hapless warlock. Rumor has it that someone is using magical means to steal jewelry from conjurers' stores in Boston. Diva is hired to try to catch the culprit, but she'll have to resort to unusual means in order to be successful. This case isn't going to be an easy one, but she won't be alone. She's going to have to let it run its course and see what the eventual outcome will be. No one will be exempt from her war with the gangster. I've gained so much animal knowledge all my life. I have visited many places. Later I had to dream to survive. Child not your mother made the mistake, but those who consider themselves social, build low wages, cut pensions, private insurance, suppress the unemployed to the maximum and privatize everything, obstruct the future of a population and still laugh at their evil work. Women's Labour and the History of the Book in Early Modern England Valerie Wayne,2020-05-14 This collection reveals the valuable work that women achieved in publishing, printing, writing and reading early modern English books, from those who worked in the book trade to those who composed, selected, collected and annotated books. Women gathered rags for paper production, invested in books and oversaw the presses that printed them. Their writing and reading had an impact on their contemporaries and the developing literary canon. A focus on women's work enables these essays to recognize the various forms of labour -- textual and social as well as material and commercial -- that women of different social classes engaged in. Those considered include the very poor, the middling sort who were active in the book trade, and the elite women authors and readers who participated in literary communities. Taken together, these essays convey the impressive

work that women accomplished and their frequent collaborations with others in the making, marking, and marketing of early modern English books.
