Philip's Road Atlas Britain 2007 ,2006 A new mid-format atlas featuring fully updated cartography from Philip's digital database, which has been voted Britain's clearest and most detailed mapping in an independent consumer survey. The 176 pages of road mapping are at the large scale of 3 miles to 1 inch (Scottish Highlands and Hebrides at 4 miles to 1 inch), and now includes speed camera locations. The mapping clearly marks service areas, roundabouts and multi-level junctions, and in rural areas distinguishes between roads above and below 4 metres wide - a boon for drivers of wide vehicles. Across the channel, a full page map shows Calais and Boulogne, and a double page map shows the full extent of the northern French coast including all ferry ports. The atlas also includes route-planning maps, M25 and M60 maps, full listings of fixed location

speed cameras, distance table, 12 large-scale city approach maps with named arterial roads, 55 extra-detailed town and city plans, airport and port plans, and unique cross-Channel maps of Northern France. Main map scale: 3 miles to 1 inch
