The names have been changed to conceal all the characters identities. With these pages, we will show you how people are essentially cats. Ice Ice-T,Douglas Century,2012-01-24 He's a hip-hop icon credited with single-handedly creating gangsta rap. Television viewers know him as Detective Odafin "Fin" Tutuola on the top-rated drama *Law & Order: SVU*. But where the hype and the headlines end, the real story of Ice-T—the one few of his millions of fans have ever heard—truly begins. Ice is Ice-T in his own words—raw, uncensored, and unafraid to speak his mind. About his orphan upbringing on the gang-infested streets of South Central, his four-year stint in the U.S. Army, his successful career as a hustler and thief, and his fateful decision to turn away from a life of crime and forge his own path to international stardom. Along the way, Ice shares never-before-told stories about friends such as Tupac, Dick Wolf, Chris Rock, and Flavor Flav, among others. And he offers up candid observations on marriage and monogamy, the current state of hip-hop, and his latest passion: mentoring at-risk youths around the country.

With insights into the cutthroat world of the street—and the cutthroat world of Hollywood—Ice is the unforgettable story of a true American original.

Thin-Ice Skater David Storey, 2015-09-08 A seventeen-year-old is sent to the country to live with his much-older half-brother and falls into an unexpected affair in this novel by Man Booker Prize-winning author David Storey. The narrator of Storey's eleventh novel is an angst-ridden seventeen-year-old who shares intimate details of his life in the form of memos written to himself. Born in Beverly Hills, California, Richard "Rick" Audlin now lives with his film producer half-brother, Gerry—who is thirty-five years his senior—in a rambling old Victorian house in Hampstead. Gerry's second wife, Martha, is a former film star who has been committed to a mental institution. When Gerry has to go abroad on business, he trundles Rick off to the home of his long-estranged sibling, James (Rick's other half-brother), who lives on the outskirts of a remote village and is the author of seven unpublished crime novels. It is James's wife, Clare, who meets Rick at the station. Flirty and attractive, she soon draws Rick into an illicit liaison. But Rick senses that something else is going on—something that will eventually lead him to a shattering secret in his family . . . and the thin ice they're all skating on.

Why and How the Ice Age Ended & The True History of the Pontic (White) Race Raven Alb J., 2011-11-16 A complex book which goes from explaining how climate changes (based on changing of the earth's axis tilt) to the formation of the Indo-European languages' first words and the misunderstood part of white race history. This book reveals the unknown

part of indo-European history in Asia, which is very wrongly taught today. The evolution of European languages is corrected based on very logical and well-documented bases. It is a book that requires intelligence and great curiosity, as well as the ability to concentrate because many lexicons are found throughout the book. Any intelligent person will have a very different understanding of earth's history and reason for climate change after reading this book. The book is extremely informative in many fields and the writer expects no mercy from the people who can prove him wrong. Try it.
