ESTUDIOS SOCIALES 7 F PRIMA GRUPO EDITORIAL, El libro de séptimo de los Estudios Sociales de la Editorial F Prima, retoma de forma literal lo tipificado en el programa de Estudios Sociales vigente en el MEP, e incorpora las diversas perspectivas y temáticas por nivel y periodo, por lo que esta editorial se ha convertido en vanguardia para la producción de materiales didácticos, cuya población meta es el profesorado y el estudiantado de la educación secundaria en Costa Rica. Desde el enfoque privado, coadyuvamos al gobierno costarricense en su empeño de formar ciudadanos informados, con un espíritu crítico, propositivo y colaborativo, para que enfrenten los desafíos sociales, económicos, políticos y culturales que plantea el sistema mundializado, de ahí la importancia de este texto para el estudiante. Este documento no es un simple libro de contenidos, sino que va más allá de la transmisión de los conocimientos a través de la memoria, es decir, por medio del desarrollo de las actividades de mediación tipo taller, se proporciona la construcción del conocimiento y el desarrollo de habilidades disciplinarias -propias de la historia y la geografía-, así como las de tipo social y personal, donde se cuestiona el presente, a partir de una valoración del pasado de cara al futuro de la sociedad costarricense.

Mare Nostrum Juan Francisco Mesa Sanz, Carlos Goño Buil, 2023-10-19 Mare Nostrum. En los límites del tiempo y el espacio se gestó a raíz del III Congreso Internacional de la Sociedad Española de Estudios Clásicos (SEEC) de la Comunidad Valenciana. La presente monografía con el mismo nombre nace de dicho congreso al objeto de ofrecer una panorámica de la transformación que se ha producido a orillas del Mare Nostrum y con este como motor del cambio: de la visión del mar en Grecia y Roma antiguas hasta el mundo árabe y la explotación museográfica de los yacimientos arqueológicos. Ofrece una panorámica de las visiones literaria, mítica, arqueológica, jurídica, comercial, epigráfica y museográfica, reuniendo en un viaje por sus orillas y a través de sus aguas las diversas interpretaciones que se han dado de él, desde la Antigüedad hasta la

contemporaneidad. Habla, por tanto, de la comunicación, de la lengua y la literatura, de las culturas y las religiones que se ha ubicado en sus orillas, del mito y la ciencia histórica, arqueológica y jurídica, de la vida y de la muerte. A fin de cuentas, este libro habla de un modelo de ser humano, homo Mediterraneus, en torno a un mar, el Mediterráneo, que siempre se ubicó en los límites del tiempo y el espacio.

Valores y narrativa Octavio Fullat Genís, 2005 Después de un largo proceso intelectual, el profesor Octavio Fullat i Genís (1928) nos ofrece en este libro una especie de síntesis de su pensamiento. En su particular cosmovisión, Jerusalén, Atenas y Roma constituyen los tres núcleos originarios de la civilización occidental cuyos valores pedagógicos se entienden justamente a partir de los mitos narrativos que han dado sentido a nuestra historia. Sobre la base de esa tradición narrativa, Fullat fundamenta los grandes valores (o macrovalores) que configuran la cultura occidental, valores que no deben ser olvidados de cara a un futuro esperanzador que además se aleje del pesimismo de la frivolidad posmoderna.

Vae victis Luis E. Íñigo, 2023-02-15 «Corría el año 390 a. C. La ciudad de Roma estaba en manos de los senones, un pueblo galo que había invadido el Lacio desde el norte. Había sido arrasada sin piedad y sus habitantes, presas del pánico, la habían abandonado o habían perecido defendiéndola. Solo unos pocos resistían atrincherados en la colina del Capitolio, pero, vencidos por el hambre, se avinieron a pagar su libertad con un rescate de mil libras en oro. Reunida con esfuerzo tan enorme cantidad, mientras se pesaba el precioso metal en una gran balanza, los romanos observaron que los pesos estaban trucados y, furiosos por el engaño, protestaron ante los galos. Displicente, Breno, el caudillo de los invasores, se limitó a dejar caer su espada sobre un platillo de la balanza y, en palabras de Tito Livio, proclamó: Vae victis!, (¡Ay de los vencidos!)). Puede o no ser una leyenda, pero su enseñanza es evidente: en la guerra, los vencidos no pueden esperar justicia de los vencedores. Son estos los que imponen sus condiciones y, casi siempre, los que narran su victoria de forma que parezca justa a los ojos de las generaciones futuras. Precisamente por ello el historiador, en especial el especialista en historia militar, debe acercarse con desconfianza hacia el testimonio de los vencedores, completarlo con el de los vencidos y reconstruir a partir de ambos un relato equilibrado y veraz de los hechos. Este libro pretende reivindicar a los vencidos; las civilizaciones, los pueblos, las naciones o, simplemente, los ejércitos que, en cada encrucijada decisiva del pasado de la humanidad, quedaron apartados de la corriente principal de su devenir histórico, que siguió adelante sin ellos. Es además un libro de política y de economía, de imperios y de reinos, de hordas y de ejércitos, y también de personas, de reyes y de soldados, de héroes y de villanos. Pero es, principalmente, un libro de historia, un texto que les hará disfrutar, pensar y, sobre todo, que les hará mejores.

Geografía General Héctor Israel Ramírez Torres, Flor Araceli Ruiz Peña, Mónica Chaparro Esquivel, 2015-02-09 Geografía General, Un enfoque interactivo para bachilleres de los autores Héctor Israel Ramírez Torres, Flor Araceli Ruiz Peña, Mónica Chaparro Esquivel, Rafael Antonio Olmos Bolaños y Leticia Gerónimo Mendoza, se propone desarrollar una metodología

apoyada en competencias, interactiva y atractiva para los jóvenes. Los autores desarrollan 8 unidades con un enfoque metodológico que busca la construcción activa del aprendizaje mediante textos, apoyos visuales (fotografías, esquemas, gráficas, cuadros y 42 mapas), y diversas secciones: Y todo esto... ¿para qué?, Conozco y aprendo, ¿Quién, por qué y dónde? y Otros piensan que... La sección Estudio de caso tiene como objetivo que el alumno comprenda problemas concretos y proponga soluciones mediante la aplicación del conocimiento geográfico, lo que ayuda al desarrollo de competencias tales como la comunicación, el pensamiento crítico y reflexivo, así como la aplicación de los conocimientos en su entorno social. La sección de Geógrafos en acción describe los diversos campos de desarrollo profesional. En esta segunda edición se presentan nuevos estudios de caso, en cuyos textos se plasman situaciones tanto a escala mundial como nacional, relacionadas con problemáticas ambientales y políticas, así como resultados de investigaciones académicas. Además se actualizan datos estadísticos sobre población y actividades económicas, así como cuadros y gráficas con cifras complementarias de años más recientes, y se modificaron algunos mapas de temática económica y social como: la explotación de petróleo y el Índice de Desarrollo Humano (IDH). De igual manera se reemplazaron algunas de las biografías que componen la sección de Geógrafos en acción, con el fin de mostrar una mayor diversidad de profesionistas de la disciplina insertados en el mercado laboral. Se mejoró la calidad de imágenes, esquemas y un nuevo diseño de interiores brinda una grata experiencia visual para el lector.

Escritura y salvación Rafael Gaune Corradi, 2016 La aventura humana que el autor nos presenta, las personas que nos acerca, las inquietudes que están latentes o explícitas en los conflictos de un tiempo lejano que se hace próximo, son una prueba de la capacidad de comprensión y del rigor del análisis de este joven historiador. Con sensibilidad muy viva y con una gran capacidad de empatizar, con el desafío de comprender un mundo en ciertos aspectos extraño que se hace próximo por el estudio y el interés por la humanidad, el autor hace de Anganamón nuestro contemporáneo, lo trae de vuelta a la vida en momentos en que en Chile se habla continuamente del conflicto mapuche.

Sujetos de derecho internacional Juan José Ruda Santolaria, 2023-08-07 Este libro ofrece una mirada comprensiva y general a los sujetos de derecho internacional y a su actuación. La dinámica cambiante de la comunidad internacional muestra una realidad plural en la que coexisten sujetos de diferente naturaleza, con mayor o menor amplitud en la extensión de su personalidad jurídica internacional. Junto a los Estados, que mantienen un notable protagonismo, se aprecia la activa labor de organizaciones internacionales de diversa índole; la actuación de la Santa Sede a nombre de la Iglesia católica; la subjetividad internacional de los individuos; el papel de los movimientos de liberación nacional en situaciones de libre determinación; la posibilidad de que empresas transnacionales puedan acudir directamente a instancias internacionales; y el peso creciente, pese a carecer de personalidad jurídica internacional, de algunos foros o grupos.

Hijos de Alejandro Magno: el pensamiento islámico a través de sus concepciones Alejandro Colete Moya, 2024-08-21 Ya hablemos de ciencia, filosofía o espiritualidad, la historia de la ciencia en el mundo islámico ha sido representada siempre siguiendo esquemas monolíticos que, desafortunadamente, han impedido se vea adecuadamente su conexión con la Antigüedad tardía. Se ha hablado mucho de las traducciones del griego al árabe y de la mediación siríaca de dichas traducciones, se hablado de las ideas platónicas, aristotélicas o neoplatónicas y su difusión en el mundo islámico. Lo que nunca se ha hecho es tratar de explicar cómo la transformación cultural de la Grecia helenística engendra, sin saberlo, el pensamiento islámico. Los pensadores del mundo islámico son, sin saberlo, los hijos ilegítimos de Alejandro Magno. Mahoma no es el origen del islam, sino la consecuencia del helenismo. En este ensayo divulgativo tratamos de mostrar como es la Tardoantigüedad la que rompe con el legado clásico, no el islam, y cómo es precisamente el islam el que continúa el legado Tardoantigüo por otras vías. Analizando las concepciones culturales y lingüísticas manifiestas en los textos que son trabajados en esta obra podemos observar la perfecta

Travelling In and Out of Italy Emanuele Occhipinti, 2011-05-25 Travel has often been taken as a metaphor for human life, and the concept of travel and the traveller has varied across centuries, cultural traditions, and social groups. Following a diachronic overview of travel writing, this study considers some of the most important Italian writers of the late nineteenth and twentieth-centuries, such as D'Annunzio, Pirandello, Svevo, with particular focus on their note-books, letters, travel diaries, and reportage. An analysis of this material indicates that these authors collect their miscellaneous notes, in some cases, as private and personal documents, and in other instances to possibly develop future articles, essays or novels. It goes on to focus on the journey par excellence, the trip to America, regarded as an Eden. In many of their works, writers such as Ogetti, Giacosa, Cecchi, Piovene express their ambivalence towards a place often idealized as a land of freedom and opportunity, yet also acknowledged as a land where oppression and violence are all too real. The study attempts to demonstrate how all the traveller-writers discussed "translate" their sense of discovery in their books, and the extent to which that sense affects the conception of each of the texts.
