Robert Kirkman Terrence R. Wandtke, 2021-07-29 Robert Kirkman (b. 1978) is probably best known as the creator of *The Walking Dead*. The comic book and its television adaptation have reinvented the zombie horror story, transforming it from cult curiosity and parody to mainstream popularity and critical acclaim. In some ways, this would be enough to justify this career-spanning collection of interviews. Yet Kirkman represents much more than this single comic book title. Kirkman's story is a fanboy's dream that begins with him financing his irreverent, independent comic book *Battle Pope* with credit cards. After writing major titles with Marvel comics (*Spider-Man*, *Captain America*, and *X-Men*), Kirkman rejected companies like DC and Marvel and publicly advocated for creator ownership as the future of the comics industry. As a partner at Image, Kirkman wrote not only *The Walking Dead* but also *Invincible*, a radical reinvention of the superhero genre. *Robert Kirkman: Conversations* gives insight to his journey and explores technique, creativity, collaboration, and the business of comics as a multimedia phenomenon. For instance, while continuing to write genre-based comics in titles like *Outcast* and *Oblivion Song*, Kirkman explains his writerly bias for complex characters over traditional plot development. As a fan-turned-creator, Kirkman reveals a creator's complex relationship with fans in a comic-con era that breaks down the consumer/producer dichotomy. And after rejecting company-ownership practices, Kirkman articulates a vision of the creator-ownership model and his goal of organic creativity at Skybound, his multimedia company. While Stan Lee was the most prominent comic book everyman of the previous era of comics production, Kirkman is the most prominent comic book everyman of this dynamic, evolving new era.

Modernizing Solitude Yoshiaki Furui,2019-02-05 An innovative and timely examination of the concept of solitude in nineteenth-century American literature During the nineteenth century, the United States saw radical developments in media and communication that reshaped concepts of spatiality and temporality. As the telegraph, the postal system, and public transportation became commonplace, the country achieved a level of connectedness that was never possible before. At this level, physical isolation no longer equaled psychological separation from the exterior world, and as communication networks proliferated, being disconnected took on negative cultural connotations. Though solitude, and the lack thereof, is a pressing

concern in today's culture of omnipresent digital connectivity, Yoshiaki Furui shows that solitude has been a significant preoccupation since the nineteenth century. The obsession over solitude is evidenced by many writers of the period, with consequences for many basic notions of creativity, art, and personal and spiritual fulfillment. In *Modernizing Solitude: The Networked Individual in Nineteenth-Century American Literature*, Furui examines, among other works, Henry David Thoreau's *Walden*, Harriet Jacobs's *Incidents in the Life of a Slave Girl*, Herman Melville's "Bartleby, the Scrivener," Emily Dickinson's poetry and letters, and telegraphic literature in the 1870s to identify the virtues and values these writers bestowed upon solitude in a time and place where it was being consistently threatened or devalued. Although each writer has a unique way of addressing the theme, they all aim to reclaim solitude as a positive, productive state of being that is essential to the writing process and personal identity. Employing a cross-disciplinary approach to understand modern solitude and the resulting literature, Furui seeks to historicize solitude by anchoring literary works in this revolutionary yet interim period of American communication history, while also applying theoretical insights into the literary analysis.

Re-Constructing the Book Maureen Bell, Shirley Chew, Simon Eliot, 2019-01-15 This title was first published in 2001. Literary critics, textual editors and bibliographers, and historians of publishing have hitherto tended to publish their research as if in separate fields of enquiry. The purpose of this volume is to bring together contributions from these fields in a dialogue rooted in the transmission of texts. Arranged chronologically, so as to allow the use of individual sections relevant to period literature courses, the book offers students and teachers a set of essays designed to reflect these approaches and to signal their potential for fruitful integration. Some of the essays answer the demand Show me what literary critics (or textual editor; or book historians) do and how they do it, and stand as examples of the different concerns, methodologies and strategies employed. Others draw attention to the potential of the approaches in combination.

Unamuno, Berdyaev, Marcel C. A. Longhurst, 2021-10-01 This book seeks to examine the mutual interplay between existentialism and Christian belief as seen through the work of three existentialist thinkers who were also committed Christians - a Spaniard (Miguel de Unamuno), a Russian (Nikolai Berdyaev), and a Frenchman (Gabriel Marcel). They are compared with each other and with leading non-religious existentialists. The major themes studied include reason, freedom, the self, belief, hope, love, suffering, and immortality.
