Vincente Minnelli Joe McElhaney, 2009 This text offers a comprehensive scholarly examination of Vincente Minnelli, one of American cinema's central filmmakers. The book demonstrates the sustained rigour of Minnelli's vision.

TV by Design Lynn Spigel, 2008 From the Publisher: While critics have long disparaged commercial television as a vast wasteland, TV has surprising links to the urbane world of modern art that stretch back to the 1950s and '60s during that era, the rapid rise of commercial television coincided with dynamic new movements in the visual arts—a potent combination that precipitated a major shift in the way Americans experienced the world visually. TV by Design uncovers this captivating story of how modernism and network television converged and intertwined in their mutual ascent during the decades of the cold war. Whereas most histories of television focus on the way older forms of entertainment were recycled for the new medium, Lynn Spigel shows how TV was instrumental in introducing the public to the latest trends in art and design. Abstract expressionism, pop art, art cinema, modern architecture, and cutting-edge graphic design were all mined for staging techniques, scenic designs, and an ever-growing number of commercials. As a result, TV helped fuel the public craze for trendy modern products, such as tailfin cars and boomerang coffee tables, that was vital to the burgeoning postwar economy. And along with influencing the look of television, many artists—including Eero Saarinen, Ben Shahn, Saul Bass, William Golden, and Richard Avedon—also participated in its creation as the networks put them to work designing everything from their corporate headquarters to their company cufflinks. Dizzy Gillespie, Ernie Kovacs, Duke Ellington, and Andy Warhol all stop by in this imaginative and winning account of the ways in which art, television, and commerce merged in the first decades of the TV age.

Runaway Hollywood Daniel Steinhart, 2019-02-26 After World War II, as cultural and industry changes were reshaping Hollywood, movie studios shifted some production activities overseas, capitalizing on frozen foreign earnings, cheap labor, and appealing locations. Hollywood unions called the phenomenon “runaway” production to underscore the outsourcing of employment opportunities. Examining this period of transition from the late 1940s to the early 1960s, Runaway Hollywood shows how film companies exported production around the world and the effect this conversion had on industry practices and visual style. In this fascinating account, Daniel Steinhart uses an array of historical materials to trace the industry's creation of a more international production operation that merged filmmaking practices from Hollywood and abroad to

produce movies with a greater global scope.

**Van Gogh on Demand** Winnie Wong, 2014-03-24 “Unsettles contemporary art’s unspoken hierarchies and topples modernist and postmodernist assumptions about originality, authenticity, and authorship.” —caa Reviews In a metropolis in south China lies Dafen, an urban village that houses thousands of workers who paint van Goghs, Da Vincis, Warhols, and other Western masterpieces for the world market, producing an astonishing five million paintings a year. Winnie Wong infiltrated this world, first investigating the work of conceptual artists; then working as a dealer; apprenticing as a painter; surveying wholesalers and retailers in Europe, East Asia and North America; establishing relationships with local leaders; and organizing a conceptual art exhibition for the Shanghai World Expo. The result is *Van Gogh on Demand*, a fascinating book about a little-known aspect of the global art world—one that sheds surprising light on the workings of art, artists, and individual genius. Wong describes an art world in which migrant workers, propaganda makers, dealers, and international artists make up a global supply chain of art. She examines how Berlin-based conceptual artist Christian Jankowski, who collaborated with Dafen’s painters to reimagine the Dafen Art Museum, unwittingly appropriated the work of a Hong Kong-based photographer Michael Wolf. She recounts how Liu Ding, a Beijing-based conceptual artist, asked Dafen “assembly-line” painters to perform at the Guangzhou Triennial, styling himself into a Dafen boss. Through such cases, Wong shows how Dafen’s painters force us to reexamine our preconceptions about the role of Chinese workers in redefining global art. “[A]

fantastically detailed exploration of a topic which touches the heart of many of the issues surrounding China's economic rise.” —South China Morning Post

The Art of the Hollywood Backdrop Karen L. Maness, Richard M. Isackes, 2016-11-01 The definitive behind-the-scenes history of one of Hollywood's most closely guarded cinematic secrets finally revealed—painted backdrops and the scenic artists who brought them to the big screen. In almost every feature film of Hollywood's golden age, from *The Wizard of Oz* to *North by Northwest* to *Cleopatra* to *The Sound of Music*, painted backings have convinced moviegoers that what they are seeing—whether the fantastic roads of Oz, the presidents of Mount Rushmore, or ancient Egyptian kingdoms—is absolutely real. These backings are at once intended to transport the audience and yet remain unseen for what they really are. *The Art of the Hollywood Backdrop* reveals the hidden world and creators of these masterpieces, long-guarded as a special effects secret by the major studios such as MGM, Warner Brothers, Universal, Columbia, 20th Century Fox, and Paramount. Despite the continued use of hand-painted backings in today's films, including the big-budget *Interstellar* and Lemony Snicket's *A Series of Unfortunate Events* among many others, digital technology is beginning to supplant the art form. In an effort to preserve the irreplaceable knowledge of scenic masters, Karen Maness and Richard Isackes, in collaboration with the Art Directors Guild, have compiled a definitive history of the craft, complete with interviews of the surviving artists. This is a rich undiscovered history—a history replete with competing art departments, dynastic scenic families, and origins stretching back to the films of Méliès, Edison, Sennett, Chaplin, and Fairbanks.

*Latino Image Makers in Hollywood* Frank Javier Garcia Berumen, 2016-04-14 Latinos have been part of the Hollywood film industry for more than 100 years, yet beyond the remarkable success of a few, their visibility and clout have generally not reflected their significance in American society. Worse, the Latino image has suffered from widespread stereotyping in film, and performers face unjustified constraints in the kinds of roles available to them. Decade by decade from 1960 onward, this book analyzes important films made by or about Latinos, details the careers of Latino performers and filmmakers of the time, and analyzes how film portrayals of Latino characters and subjects connect with political and social trends of each decade. It discusses the role of gender, social class, and ethnicity in film portrayals and provides an overview of the diverse and dynamic Latino community in the United States, while celebrating a substantial and enduring contribution to Hollywood film history.

**The Poetics of Slumberland** Scott Bukatman, 2012-03-26 In *The Poetics of Slumberland*, Scott Bukatman celebrates play, plasmatic possibility, and the life of images in cartoons, comics, and cinema. Bukatman begins with Winsor McCay's *Little Nemo in Slumberland* to explore how and why the emerging media of comics and cartoons brilliantly captured a playful, rebellious energy. *Slumberland* is more than a marvelous world for Nemo and its other citizens; it is an aesthetic

space defined by the artist's innovations. The book broadens to consider similar 'animated' behaviors in seemingly disparate media--films about Jackson Pollock, Pablo Picasso, and Vincent van Gogh; the musical *My Fair Lady* and the story of *Frankenstein*; the slapstick comedies of Jerry Lewis; and contemporary comic superheroes--drawing them all together as purveyors of embodied utopias of disorder.--Page 4 of cover.

**The Bipolar Express** David Coleman, 2014-07-08 In the past few decades, awareness of bipolar disorder has significantly increased, but understanding of the condition remains vague for most of the general public. Though the term itself is relatively recent, the condition has affected individuals for centuries—and no more profoundly than in the arts. The historical connections among manic depression and such fields as literature, music, and painting have been previously documented. However, the impact of bipolar disorder on movie makers and its depiction on the screen has yet to be thoroughly examined. In *The Bipolar Express: Manic Depression and the Movies*, David Coleman provides an in-depth examination of the entwined natures of mood disorders and moviemaking. In this volume, Coleman looks at the writers, directors, and actors who have faced the mood swings and behavior that are hallmarks of this condition—from Greta Garbo and Orson Welles to Marilyn Monroe and Jonathan Winters. In addition to recognizing the cinematic contributions of manic depressive filmmakers, the author also looks at movies that have portrayed bipolar disorder—with varying degrees of accuracy—including *Citizen Kane*, *Rebel without a Cause*, *Breakfast at Tiffany's*, *Hannah and Her Sisters*, *The Aviator*, and *Silver Linings Playbook*. From early silents of the twentieth century through critically acclaimed films of today, this book compares depictions of mood swings on screen with clinical examples of actual manic depression, carefully distinguishing real from stereotypical portrayals. This fascinating study is augmented by a concise filmography of more than 400 feature-length films from around the world with themes or characters relating to manic depressive illness. Though aimed at film fans and anyone interested in manic depression, mental illness, or related medical studies, this book will also prove valuable to medical and mental health professionals.

Francis Bacon - In the Mirror of Photography Katharina Günther, 2022-05-09 The British painter Francis Bacon (1909–1992) is famed for his idiosyncratic mode of depicting the human figure. Thirty years after his death, his working methods remain underexplored. New research on the Francis Bacon Studio Archive at Hugh Lane Gallery, Dublin, sheds light on the genesis of his works, namely the photographic source material he collected in his studios, on which he consistently based his paintings. The book brings together the artist's pictorial springboards for the first time, delineating and interpreting recurring patterns and methods in his preparatory work and adoption of photographic material. In addition, it correctly locates 'chance' as a driving force in Bacon's working method and qualifies the significance of photography for the painter. André Bazin, the Critic as Thinker R. J. Cardullo, 2017-01-28 André Bazin (1918-58) is credited with almost single-handedly establishing the study of film as an accepted intellectual pursuit, as well as with being the spiritual father of the French New Wave. Among those who came under his tutelage were four who would go on to become the most renowned directors of the postwar French cinema: François Truffaut, Jean-Luc Godard, Jacques Rivette, and Claude Chabrol. Bazin can also be considered the principal instigator of the equally influential auteur theory: the idea that, since film is an art form, the director of a movie must be perceived as the chief creator of its unique cinematic style. André Bazin, the Critic as Thinker: American Cinema from Early Chaplin to the Late 1950s contains, for the first time in English in one volume, much if not all of Bazin’s writings on American cinema: on directors such as Orson Welles, Charles Chaplin, Preston Sturges, Alfred Hitchcock, Howard Hawks, John Huston, Nicholas Ray, Erich von Stroheim, and Elia Kazan; and on films such as *High Noon*, *Citizen Kane*, *Rear Window*, *Limelight*, *Scarface*, *Niagara*, *The Red Badge of Courage*, *Greed*, and *Sullivan’s Travels*. André Bazin, the Critic as Thinker: American Cinema from Early Chaplin to the Late 1950s also features a sizable scholarly apparatus, including a contextual introduction to Bazin’s life and work, a complete bibliography of Bazin’s writings on American cinema, and credits of the films discussed. This volume thus represents a major contribution to the still growing academic discipline of cinema studies, as well as a testament to the continuing influence of one of the world’s pre-eminent critical thinkers.

**We’ll Always Have Paris** Harvey Levenstein, 2010-03-15 For much of the twentieth century, Americans had a love/hate relationship with France. While many admired its beauty, culture, refinement, and famed *joie de vivre*, others thought of it as a dilapidated country populated by foul-smelling, mean-spirited anti-Americans driven by a keen desire to part tourists from their money. *We’ll Always Have Paris* explores how both images came to flourish in the United States, often in the minds of the same people. Harvey Levenstein takes us back to the 1930s, when, despite the Great Depression, France continued to be the stomping ground of the social elite of the eastern seaboard. After World War II, wealthy and famous Americans returned to the country in droves, helping to revive its old image as a wellspring of sophisticated and sybaritic pleasures. At the same time, though, thanks in large part to Communist and Gaullist campaigns against U.S. power, a growing sensitivity to French anti-Americanism began to color tourists’ experiences there, strengthening the negative images of the French that were already embedded in American culture. But as the century drew on, the traditional positive images were revived, as many

Americans again developed an appreciation for France's cuisine, art, and urban and rustic charms. Levenstein, in his colorful, anecdotal style, digs into personal correspondence, journalism, and popular culture to shape a story of one nation's relationship to another, giving vivid play to Americans' changing response to such things as France's reputation for sexual freedom, haute cuisine, high fashion, and racial tolerance. He puts this tumultuous coupling of France and the United States in historical perspective, arguing that while some in Congress say we may no longer have french fries, others, like Humphrey Bogart in Casablanca, know they will always have Paris, and France, to enjoy and remember.
