Headquarters and Subsidiaries in Multinational Corporations S. Johnston,2005-07-31 In the global business environment, new organizational forms come and go but in today's multinational corporations the headquarters-subsidary link remains the primary channel by which the firm is managed. It facilitates strategy, control and coordination, and smoothes the progress of inter-unit product, personnel, factor and knowledge flows of every kind. Using data from CEOs of a large sample of Australian subsidiaries of foreign firms, this book brings new insights into the nature of this vital corporate relationship.

Multinational Corporations Paz Estrella Tolentino,2003-09-02 This work presents case-studies of the emergence and evolution of Multinational Corporations (MNCs) based in eleven developed and developing countries of widely divergent patterns of national development. From this analysis, Tolentino develops a comprehensive theory of the emergence and evolution of MNCs from a macroeconomic perspective.

Multinational Corporations and the Politics of Dependence Theodore H. Moran,2014-07-14 This study deals with a topic of increasing concern--the relations between multinational corporations and their host countries in the Third World. Theodore H. Moran describes how a reaction against dependencia, a realization that the fate of the nation hinges on the decisions made by uncontrollable outside forces, can spur a host country to opt for control of an industry, exposing the country to new dangers as well as new opportunities. Originally published in 1975. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Multinational Enterprises in Australia: a Preliminary Overview of the Effects on Employment Greg MacDonald, International Labour Office, 1994

Initiatives by Subsidiaries of Multinational Corporations Lars R. Dzedek, 2018-01-29 In the field of international business, it is increasingly recognized that Multinational Corporations (MNCs) can no longer rely on headquarters as the single source of competitive advantage. Therefore, growing interest centers on decentralized entrepreneurial initiatives that originate in their network of foreign subsidiaries. Based on an extensive review of literature, Lars R. Dzedek develops a comprehensive framework to help explain how the setting in which a foreign subsidiary operates impacts its entrepreneurial initiatives and outcomes. The author conducts an empirical investigation in 14 foreign units of two large MNCs and offers detailed case studies with rich insights into entrepreneurial subsidiary activities.

Australia in the Expanding Global Crisis Erik Paul, 2020-01-24 This book is a study of the key components and contradictions of the escalating global crisis and their impact on modern Australia. It elaborates the damage being done to democracy, human rights, and the fabric of society. Racism is structured in the universality of the nation-state and capitalism in the 21st century. Racism is a process that discriminates and segregates the human species, creating major conflicts and antagonisms. It generates a global struggle for equality and social justice. The global crisis is energised by the contradiction between a global capitalism that is in effect totalitarian and the imperatives of economic growth driving every nation-state of the world. Racism is embodied in the emergence of a new imperialism to maintain Western global hegemony, a growing source of instability and violence in the world system, endangering the survival of humanity. The book advocates the promotion of full democratic participation in the struggle for social, political, and economic equality.

This edition builds on the fundamental principles of corporate finance to provide the timely information and contemporary insights your students need to prosper in today's global business environment. Using strong corporate and increased international banking perspectives, it discusses a wide range of managerial topics and emphasises the most recent changes in the international environment. The Internationalisation Strategies of Small-country Firms Howard Dick, David Merrett, 2007-01-01 'This research project combines contemporary and historical analysis to trace the evolution of Australian multinationals. It provides unique insights into how firms from a small economy achieved global competitiveness in their niche markets, while examining the barriers that inhibited others. The evidence is presented in comparative, industry and firm-case studies, and tells the story of international business made in Australia. The longitudinal and multi-level analysis in this research provides new insights that challenge the predominance of cross-sectional analytical framework dominating strategic management. Any scholars sincerely interested how companies from small countries can succeed on the global stage ought to read this book.' - Klaus E. Meyer, University of Reading Business School, UK The international business literature often struggles to depict a universal experience of internationalisation from the perspective of large countries. This book seeks to enrich the literature by providing a nuanced overview of the little-known Australian experience, being an atypical case of a small- to medium-sized economy which liberalised rapidly from the 1980s outside any trading bloc. Six data-rich survey chapters explore Australia's mixed success in founding its own multinationals. The experience of Australian firms is set in historical and comparative perspective, including interactions with inward and specifically American FDI. Five industry studies next consider why firms in retail, wine and professional services were more successful than in financial services and shipping. Nine detailed case studies of firms then identify the elements of administrative heritage, strategy and learning that have been the key to success or failure. The book concludes by outlining what can be learned from Australia's example and presenting implications for future research. The Internationalisation Strategies of Small-Country Firms will appeal to scholars, researchers and postgraduate students in international business and international economics.

Moralizing Capitalism Stefan Berger, Alexandra Przyrembel, 2019-07-26 This book adds a crucial focus on morality to the growing literature on the history of capitalism by exploring social and cultural perspectives on the economic order that has dominated the modern world. Taking the study beyond narrow economic confines, it traces the entanglement between moral sentiments and capitalism, examining both moral critiques and moral justifications. Company bankruptcies, systems of taxation, wealth, and the running of stock exchanges were attacked on moral grounds, while ideas of economic justice and the humanization of capitalism loomed large over moral critiques. Many movements, from antislavery to labour campaigns, were inspired by aspirations to improve capitalism and halt the moral decay that was felt to have affected large sections of society. This book questions how moral sentiments are defined and have changed over time, and how these relate to both capitalism and anti-capitalism. Covering a range of different social movements and ethical issues, the 13 chapters present a moral history of capitalism, understood not simply as an economic system but as an order that encompasses all areas of modern life.

equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and gripping novel that will keep you speculating until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
