Bernini Claude Douglas Dickerson (III), Gian Lorenzo Bernini, Anthony Sigel, Ian Wardropper, 2012 The brilliantly expressive clay models created by Gian Lorenzo Bernini (1598-1680) as sketches for his works in marble offer extraordinary insights into his creative imagination. Although long admired, the terracotta models have never been the subject of such detailed examination. This publication presents a wealth of new discoveries (including evidence of the artist's fingerprints imprinted on the clay), resolving lingering issues of attribution while giving readers a vivid sense of how the artist and his assistants fulfilled a steady stream of monumental commissions. Essays describe Bernini's education as a modeler; his approach to preparatory drawings; his use of assistants; and the response to his models by 17th-century collectors. Extensive research by conservators and art historians explores the different types of models created in Bernini's workshop. Richly illustrated, Bernini transforms our understanding of the sculptor and his distinctive and fascinating working methods.-- Publisher's website.

Rethinking Culture and Creativity in the Digital Transformation Luciana Lazzeretti, Stefania Oliva, Niccolò Innocenti, Francesco Capone, 2023-03-31 This book discusses the role of digital technologies in the growth and development of cultural organizations and the creative sector. It includes contributions by authoritative scholars who address this topic through different perspectives, methodologies and approaches. The first part of the volume focusses on theoretical contributions that identify the main transformations caused by the digital revolution, the use of data, outlining new possible analytic frameworks and future lines of research. The second part of the volume presents empirical contributions applied to different fields in the study of the cultural and creative sectors. These range from analyses of traditional cultural

organizations such as museums, the evolution of trajectories in the fashion industry, techno-creative communities, digital services for tourism, to cultural and creative industries and wealth and creative work. This edited volume will be of great value to scholars in the fields of Economics and Management including Economic Geography and Economic Development. Students and researchers interested in learning more about new technologies and their impact on cultural and creative sectors will also benefit from this book. This book was originally published as a special issue of European Planning Studies.

The Art Market in Rome in the Eighteenth Century Paolo Coen, 2018-11-05 Recent interest in the economic aspects of the history of art have taken traditional studies into new areas of enquiry. Going well beyond provenances or prices of individual objects, our understanding of the arts has been advanced by research into the demands, intermediaries and clients in the market. Eighteenth-century Rome offers a privileged view of such activities, given the continuity of remarkable investments by the local ruling class, combined with the decisive impact of external agents, largely linked to the Grand Tour. This book, the result of collaboration between international specialists, brings back into the spotlight protagonists, facts and dynamics that have remained unexplored for many years.

Strolling Through Rome Mario Erasmo, 2015-04-23 Rome, the Eternal City - birthplace of western civilisation and soul of the ancient world - has a history that stretches back two thousand five hundred years. It is also one of the most-visited places in the world, but where does one begin to delve into two millennia of history, culture, art and architecture, whilst also navigating the vibrant modern city? Mario Erasmo here guides the traveller through Rome's many layers of history, exploring the streets, museums, piazze, ruins and parks of this 'city of the soul'. Punctuated with anecdote, myth and legend, these unique walks often retrace the very steps taken by ancient Romans, early Christians, medieval pilgrims, Renaissance artists and aristocrats on the Grand Tour. Here is a rich cultural history of Rome that brings its epic past alive, illuminating the extraordinary sights and fascinating secrets of one of Europe's most beguiling cities.

The Portrait in the Renaissance John Pope-Hennessy, 2023-10-17 A major account of Renaissance portraiture by one of the twentieth century's most eminent art historians In this book, John Pope-Hennessy provides an unprecedented look at two centuries of experiment in portraiture during the Renaissance. Pope-Hennessy shows how the Renaissance cult of individuality brought with it a demand that the features of the individual be perpetuated, a concept first manifested in the portraits that fill the great Florentine fresco cycles and led, later in the fifteenth century, to the creation of the independent portrait by such artists as Sandro Botticelli, Antonio del Pollaiuolo, Giovanni Bellini, and Antonello da Messina. Pope-Hennessy goes on to describe the process by which Titian and the great artists of the High Renaissance transformed the portrait from a record of appearance into an analysis of character.

Imago Dei Jaroslav Pelikan, 2023-10-17 A sweeping account of the controversies surrounding the worship of images in

the early Byzantine church In 726, the Byzantine emperor, Leo III, issued an edict that all religious images in the empire were to be destroyed, a directive that was later endorsed by a synod of the church in 753 under his son, Constantine V. If the policy of Iconoclasm had succeeded, the entire history of Christian art—and of the Christian church, at least in the East—would have been altered. Iconoclasm was defeated by Byzantine politics, popular revolts, monastic piety, and, most fundamentally of all, by theology, just as it had been theology that the opponents of images had used to justify their actions. Analyzing an intriguing chapter in the history of ideas, the renowned scholar Jaroslav Pelikan shows how a faith that began by attacking the worship of images ended first in permitting and then in commanding it. Pelikan charts the theological defense of icons during the iconoclastic controversies of the eighth and ninth centuries, whose high point came in 787, when the Second Council of Nicaea restored the cult of images in the church. He demonstrates how the dogmas of the Trinity and the Incarnation eventually provided the basic rationale for images: because the invisible God had become human and therefore personally visible in Jesus Christ, it became permissible to make images of that Image. And because not only the human nature of Christ, but that of his Mother had been transformed by the Incarnation, she, too, could be “iconized,” together with all the other saints and angels. The iconographic “text” of the book is provided by one of the very few surviving icons from the period before Iconoclasm, the Egyptian tapestry Icon of the Virgin now in the Cleveland Museum of Art. Other icons serve to illustrate the theological argument, just as the theological argument serves to explain the icons. In an incisive foreword, Judith Herrin explains the enduring importance of the book and discusses how later scholars have built on Pelikan’s work. Please note: All images in this ebook are presented in black and white and have been reduced in size.

Italian Renaissance and Baroque Bronzes in the Metropolitan Museum of Art Denise Allen, Linda Borsch, James David Draper, Jeffrey Fraiman, Richard E. Stone, Peter Jonathan Bell, Raymond Carlson, Federico Carò, Paola D’Agostino, Alex Foo, Claudia Kryza-Gersch, Fernando Loffredo, Tommaso Mozzati, 2022-06-15
The revival of the bronze statuette popular in classical antiquity stands out as an enduring achievement of the Italian Renaissance. These small sculptures attest to early modern artists’ technical prowess, ingenuity, and desire to emulate—or even surpass—the ancients. From the studioli, or private studies, of humanist scholars in fifteenth-century Padua to the Fifth Avenue apartments of Gilded Age collectors, viewers have delighted in the mysteries of these objects: how they were made, what they depicted, who made them, and when. This catalogue is the first systematic study of The Metropolitan Museum of Art’s European Sculpture and Decorative Arts collection of Italian bronzes. The collection includes statuettes of single mythological or religious figures, complex figural groups, portrait busts, reliefs, utilitarian objects like lamps and inkwells, and more. Stunning new photography of celebrated masterpieces by leading artists such as Antico, Riccio, and Giambologna; enigmatic bronzes that continue to perplex; quotidian objects; later casts; replicas; and even forgeries show the importance of each work in this complex field. International scholars provide in-depth discussions of 200 objects included in this volume, revealing new attributions and

dating for many bronzes. An Appendix presents some 100 more complete with provenance and references. An essay by Jeffrey Fraiman provides further insight into Italian bronze statuettes in America with a focus on the history of The Met's collection, and Richard E. Stone, who pioneered the technical study of bronzes, contributes an indispensable text on how artists created these works and what their process conveys about the object's maker. A personal reminiscence by James David Draper, who oversaw the Italian sculpture collection for decades, rounds out this landmark catalogue that synthesizes decades of research on these beloved and complex works of art.

Photography and Italy Maria Antonella Pelizzari,2010-11-15 In this beautifully illustrated book Maria Antonella Pelizzari traces the history of photography in Italy from its beginnings to the present as she guides us through the history of Italy and its ancient sites and Renaissance landmarks. Pelizzari specifically considers the role of photography in the formation of Italian national identity during times of political struggle, such as the lead up to Unification in 1860, and later in the nationalist wars of Mussolini's regime. While many Italians and foreigners— such as Fratelli Alinari or Carlo Ponti, John Ruskin or Kit Talbot—focused their lenses on architectural masterpieces, others documented the changing times and political heroes, creating icons of figures such as Garibaldi and the brigands. Pelizzari's exploration of Italian visual traditions also includes the photographic collages of Bruno Munari, the neorealist work of photographers such as Franco Pinna, the bold stylized compositions of Mario Giacomelli, and the controversial images created by Oliviero Toscani for Benetton advertising in the 1980s. Featuring unpublished works and a rare selection of over one hundred images, this book will appeal to art collectors and students of art history and Italian culture.

Literary Sisterhoods Deborah Heller,2005 In literary works by women authors ranging from Mme de Stael, George Eliot, and Anna Banti, to contemporary writers Alice Munro and Grace Paley, Deborah Heller examines how women writers over

the past two centuries have represented the challenges of being both a woman and an artist. Literary Sisterhoods examines the untold connections between the woman author and her subject, between woman authors, and among women artists the world over. Heller teases out a convincing assertion of sisterhoods for a diverse range of authors and works despite the differences of the cultures and eras they represent. Heller's book builds on feminist criticism and scholarship that has helped make us aware of the distinctive perspectives on female experience revealed in women's writing. Literary Sisterhoods explores how women authors construct their female protagonists' quests for creative self-expression. Situating these narrative journeys in their own times and cultures, Heller shows how they contribute to a common tradition that speaks to readers today.
