Wm. David Sloan, Jenn Burleson Mackay

Pro-Child Politics Katy Faust, 2024-09-24 In *Pro-Child Politics*, Katy Faust has mobilized a collection of experts who apply her children-before-adults approach to their areas of expertise. From porn to debt, foreign policy to religious liberty, each chapter explains how a child-first approach isn't just nice—it's a necessity. Contributors explain how the needs of children are being ignored and propose practical, bold reforms that will ensure the next generation will not only survive, but thrive. Life - Dr. Abby Johnson (And Then There Were None, ProLove Ministries) Masculinity - Ken Harrison (Waterstone/Promise Keepers) Femininity - Peachy Keenan (Domestic Extremist) Family - Katy Faust (Them Before Us) Race - Delano Squires (The Heritage Foundation) Gender Ideology - Chris Elston (Billboard Chris) Porn - Jon Schweppe (American Principles Project) The Economy - Christopher Bedford (The Blaze) Taxes - Grover Norquist (Americans for Tax Reform) Debt - Phil Kerpen (American Commitment) Energy - The Honorable Neil Chatterjee ESG/DEI - Justin Danhof (Strive) Religious Liberty - Ashley McGuire (The Catholic Association) Education - Tiffany Justice (Moms for Liberty) Digital Technology - Maria Baer (The Colson Center for Christian Worldview) Environment - Chris Barnard (American Conservation Coalition) National Security - Dan Caldwell (Defense Priorities) Policing - Ari Hoffman (The Post Millennial and Talk Radio 570 KVI) Border Security/Immigration - Lora Ries (The Heritage Foundation) What does pro-child politics require? That every adult prioritizes the rights and well-being of children above their own self-interest. Because the only alternative is for children to sacrifice for adults. And that is a world characterized not only by damaged children, but widespread injustice. No other book on your shelf spans the topics covered in this collection. The diverse subjects addressed in these pages share one commonality: when we believe lies, children are victimized. *Pro-Child Politics* strips away the thin veneer of adult talking points to spotlight the most overlooked constituency: our children.

What Liberals Believe William Martin, 2012-09-01 In a political and media environment dominated by conservative interests, liberals need every opportunity to be heard, without distortion and in their own words. *What Liberals Believe* fulfills this need by bringing together the largest collection of progressive quotations ever published. Compiled by William Martin from speeches, publications, books, blogs, and other sources, it offers wisdom and humor from the keenest progressive minds, both past and present, including Anna Quindlen, Frank Rich, Michael Moore, Oscar Wilde, Bill Clinton, Howard Dean, Rosa Parks, Barbara Ehrenreich, and John F. Kennedy. This one-of-a-kind book includes timely, insightful

quotations covering hundreds of critical issues and even presents a chapter entitled Callous and Clueless Quotes from the Right to remind readers just how nasty and thuggish right-wing discourse has become. A perfect resource for writers, bloggers, researchers, activists, speechwriters, teachers, and students, *What Liberals Believe* will appeal to anyone who has grown weary of the extremism of the shameless right. With a new, updated section reflecting the 2012 presidential season, this book contains everything you need to contextualize incumbent Barack Obama with what other liberals, past and present, believe. *What Liberals Believe* is an excellent resource to have on hand during the upcoming election.

Pro-Life Answers to Pro-Choice Arguments Randy Alcorn, 2009-01-21 As politicians, citizens, and families continue the raging national debate on whether it's proper to end human life in the womb, resources like Randy Alcorn's *Pro-life Answers to Pro-choice Arguments* have proven invaluable. With over 75,000 copies in print, this revised and updated guide offers timely information and inspiration from a sanctity of life perspective. Real answers to real questions about abortion appear in logical and concise form. The final chapter -- Fifty Ways to Help Unborn Babies and Their Mothers-- is worth the price of this book alone!

Interpreting Straw Man Argumentation Fabrizio Macagno, Douglas Walton, 2017-09-06 This book shows how research in linguistic pragmatics, philosophy of language, and rhetoric can be connected through argumentation to analyze a recognizably common strategy used in political and everyday conversation, namely the distortion of another's words in an argumentative exchange. Straw man argumentation refers to the modification of a position by misquoting, misreporting or wrenching the original speaker's statements from their context in order to attack them more easily or more effectively. Through 63 examples taken from different contexts (including political and forensic discourses and dialogs) and 20 legal cases, the book analyzes the explicit and implicit types of straw man, shows how to assess the correctness of a quote or a report, and illustrates the arguments that can be used for supporting an interpretation and defending against a distortion. The tools of argumentation theory, a discipline aimed at investigating the uses of arguments by combining insights from pragmatics, logic, and communication, are applied to provide an original account of interpretation and reporting, and to describe and illustrate tactics and procedures that can be used and implemented for practical purposes.. This book will appeal to scholars in the fields of political communication, communication in general, argumentation theory, rhetoric and pragmatics, as well as to people working in public speech, speech writing, and discourse analysis.

Feminists Say the Darndest Things Mike Adams, 2008-02-21 A hilarious romp by a popular conservative columnist The four most common words a feminist uses are I, me, my, and mine. Feminists are the only people who actually use these words more in adulthood than they did when they were two years old. Mike Adams-like P. J. O'Rourke and Christopher Buckley- understands that the best way to fight humorless liberals is to poke fun at them. And no liberal group is more humorless, or more in need of poking, than feminists on college campuses. It might seem like professional suicide for a conservative male

professor to ridicule feminists for their antics on campus. But Adams does just that, with hilarious results. In *Feminists Say the Darndest Things*, he writes to feminists around the country with many thoughtful questions, such as: Why did they build a sex toy museum in the middle of a campus and then file sexual harassment charges against those who criticized their indiscretion? Why do they write scholarly articles like the one suggesting that deer hunters are simply acting out fantasies of raping underage women? And why, after his column said that feminists are intolerant of free speech, did they respond by trying to get him fired? When the author's pen pals take the bait, they do a better job of making feminism look silly than any critic ever could.

Abortion in the United States Dorothy E. McBride, Jennifer L. Keys, 2018-07-20 Distinctive in its use of two disciplinary lenses—sociology and political science—*Abortion in the United States* provides a balanced scholarly analysis of the most salient issues in the pro-life/pro-choice debate. According to the CDC, more than 660,000 legal abortions were performed in the United States in 2013, yet despite these numbers, or perhaps because of them, the abortion war rages on in state legislatures, in Congress, and in court rooms. This work offers an eye-opening look at the enduring cultural clash between reproductive rights activists, who have argued that access to safe, legal abortion is critical for ensuring women's equality, and impassioned activists seeking to overturn *Roe v. Wade*, who fervently believe that abortion is unethical. Written for high school and college students as well as for general audiences seeking to better understand opposing viewpoints, it gives readers essential background information and addresses persistent questions regarding the abortion debate. The new Perspectives chapter features the compelling voices of those engaged in the front lines of this battle alongside those of scholars from a range of disciplinary perspectives. Notable activists and leading advocacy groups are profiled, followed by the latest data on abortion rates and public opinion. Carefully curated documents and recommended news outlets, websites, documentaries, and academic readings invite continued exploration.

A Snowflake Named Hannah John Strege, 2020-02-18

When John and Marlene Strege learned they wouldn't be able to have a child, they were devastated. Then Marlene asked the question that would change their lives: Can frozen embryos be adopted? The answer not only gave them their beloved daughter Hannah, it drew all three into a political spotlight they never expected.

Hundreds of thousands of frozen embryos exist, held in stasis because parents using in vitro fertilization have completed their families without them. When scientists discovered a way to extract stem cells from human embryos for disease research and cures, those tiny lives were suddenly at risk. And Hannah, just a few months after this discovery, became the first human

face of the growing resistance to this new science. In the first few years of her life, she not only sparked other parents to adopt their own snowflake babies, but she also inspired the first frozen embryo adoption program, featured on Focus on the Family (getting a new godfather in Dr. Dobson), attended her mother's testimony in Congress, and stood at President Bush's side as he vetoed federal funding for embryonic stem cell research.

This compelling story unfolds at the intersection of faith and family, science and politics. Pro-life Christians, those who have experienced infertility or know those who have, and anyone concerned with where science can lead when moral and ethical concerns are ignored will welcome this book--and the sweet face of the baby who might never have been born.

A Heartbeat Away Janet Porter, 2020-06-16 The Heartbeat Bill ushered in more progress to end abortion in America in the first six months of 2019 than the previous fifty years. After decades of looking for answers, what we needed was to listen for one. The child in the womb is sending a signal. Each beat of their heart is a sign of life, a cry for help—an SOS we can no...

Abortion The New York Times Editorial Staff, 2018-12-15 Although abortion was officially decriminalized in the United States by the Supreme Court's Roe v. Wade decision in 1973, perspectives on abortion have always been, and remain today, radically different from state to state and person to person. Religion, access to birth control, the development of women's health care, and institutions such as Planned Parenthood are all at play in the public understanding of abortion. With recent changes in the Supreme Court causing uncertainty for the future of abortion access, the debate between pro-choice and pro-life advocates blazes on. Through this collection of articles, readers will discover stories of women's individual experiences, public protests, and groundbreaking U.S. legislation.

The Ethics of the Story David Craig, 2006-10-27 The best journalists are masters at their craft. With a comma and a colon, a vivid verb and a colorful adjective, they not only convey important information but also create a sense of place and evoke powerful emotions. A compelling story can shape _for good or ill_ the way a reader understands people, events, and issues. *The Ethics of the Story* examines the ethical implications of narrative techniques commonly used in journalism, not just literary journalism but also news and feature writing. The book draws on interviews with 60 talented journalists, including Pulitzer Prize winners, to offer practical advice about ethical choices in writing and editing. Much has been written about journalism ethics, but the discussion has often focused on spectacularly bad decisions _such as Jayson Blair's and Jack Kelley's use of fraudulent narrative_ rather than the ethical dimension of day-to-day choices about the building blocks of journalistic storytelling. *The Ethics of the Story* fills a gap in current work on ethics, writing, and editing. It will enlighten any serious wordsmith with a story to tell.

God and the Public Square G. Elijah Dann,2010-10-11 In *God and the Public Square*, Elijah Dann discusses the central issues on the forefront of ethical debate among Christian conservatives in North America. He discusses the hot-button issues of the day, including same-sex marriage, abortion, stem cell research, euthanasia, and the role of religion in politics. Dann offers a calculated response to the conservative Christian right's viewpoint and discusses the various obstacles that stand in the way of using religious values as the basis for public policy and legislation.

Jezebel's War with America Michael L. Brown,2019 In *21st-century America*, Jezebel is not a person. But it's as if the spirit of Jezebel is alive again today. This eye-opening book not only unveils the satanic plot to destroy America, beginning with an all-out assault on the church, but it will equip every believer with tools to defeat the enemy in their own personal lives as well as in the nation.

100 Ways to Get Your Church Noticed Neil Pugmire,2024-09-30 First published almost twenty years ago, this practical guide by a media professional has helped countless churches to raise their profile in their local communities and more widely. Packed with simple, clear advice and ideas for generating publicity for your church and its mission, this revised third edition engages with the rise in online worship in the wake of the pandemic, and includes many low-cost, effective ideas for churches feeling financial pressures. Written in clear and jargon-free language, it offers advice on: · Developing an effective communications strategy · Deciding the messages you want to convey · Creating or updating your website · Making the most of print, social media and online channels of communication · Putting your building to work, inside and out · Giving your publications a makeover · Liaising with the media and more. Illustrated throughout with examples that have worked successfully, this makes communication expertise readily accessible for churches in all contexts. Does the Bible Have Any Answers? David C Cook,2004-03 *Custom Curriculum* allows you to address the issues that students face in today's world in a way that can be fully customized to be a perfect fit for your group.

Social Ethics in the Making Gary Dorrien,2011-04-06 In the early 1880s, proponents of what came to be called “the social gospel” founded what is now known as social ethics. This ambitious and magisterial book describes the tradition of social ethics: one that began with the distinctly modern idea that Christianity has a social-ethical mission to transform the structures of society in the direction of social justice. Charts the story of social ethics - the idea that Christianity has a social-ethical mission to transform society - from its roots in the nineteenth century through to the present day Discusses and analyzes how different traditions of social ethics evolved in the realms of the academy, church, and general public Looks at the wide variety of individuals who have been prominent exponents of social ethics from academics and self-styled “public intellectuals” through to pastors and activists Set to become the definitive reference guide to the history and development of social ethics Recipient of a CHOICE Outstanding Academic Title for 2009 award

Abortion in the Age of Unreason Warren M. Hern, 2024-09-30 This vivid account by a nationally prominent doctor reports the daily challenges of offering and receiving abortion services in a volatile political and social atmosphere. In stories from the front lines – from protecting patients and staff from protesters’ attacks to the dangers to women of restricted access to abortion services, and the pertinent findings of his remote research in Latin America, Hern’s book is strikingly detailed just as it exposes the needs of women and the U. S. national interest. Dr. Hern – an abortion specialist, researcher, scholar, and highly visible public advocate – shows how abortion saves women’s lives given the many risks that arise during pregnancy – remarkably more than most people realize. He points to political and national solutions to reverse a reawakened crisis that now threatens democracy. Throughout the book, Dr. Hern shows how the current emergency was largely created by political actors who have exploited and distorted the abortion issue to increase and consolidate their power. A vital component of women’s health care, the crisis over abortion is not new. Yet the reversal of *Roe v. Wade* and the steady accumulation of power by America’s right wing has put the issue at a level of urgency and national prominence not seen since the days before legalization. Women’s need for safe abortion services will continue as the struggle to secure their rights intensifies. This book is about that struggle during what has evolved, over the last 50 years, to an Age of Unreason.

Media Bias Wm. David Sloan, Jenn Burleson Mackay, 2016-03-24 In this book, scholars examine the many prevailing arguments about media bias from a non-polemical perspective. Essays cover individual forms of bias, including ideology, politics, television, photography, religion, abortion, homosexuality, gender, race, crime, environment, region, military, corporate ownership, labor and health. Each essay introduces the topic, presents arguments for and against the specific bias, assesses the evidence for all arguments, and includes a list of suggested readings. Two additional essays discuss the broader aspects of the bias debate and give a personal perspective on reporting the controversial Israeli-Palestinian conflict.
