Thought and Poetic Structure in San Juan de la Cruz's Symbol of Night N. Grace Aaron, 2005 *Thought and Poetic Structure in San Juan de la Cruz's Symbol of Night* is a comprehensive appraisal of the traditional critical perspectives of mysticism: philosophical, theological, literary, and psychological. Examining the a priori limitations of these approaches, the book presents an original definition of the symbol as an integral whole of experience and expression, and concludes that night is the form - the organizing principle - of spiritual life.

The Legacy of Muslim Spain Salma Khadra Jayyusi, Manuela Marín, 1992 The civilisation of medieval Muslim Spain is perhaps the most brilliant and prosperous of its age and has been essential to the direction which civilisation in medieval Europe took. This volume is the first ever in any language to deal in a really comprehensive manner with all major aspects of Islamic civilisation in medieval Spain.

Vida de San Juan de la Cruz. The Life of St. John of the Cross ... Translated by Kathleen Pond. With Plates, Including a Portrait, a Map and Notes. Kathleen POND, 1958

The Romancero of Saint John of the Cross Elizabeth Teresa Howe, 2019-10-01 This book is a study of the nine short poems, called romances, composed by the Spanish mystic Saint John of the Cross (San Juan de la Cruz). The focus of the poems is the Trinity, and their point of departure is the opening verses of the Gospel of John. This is the first in-depth, English-language analysis of these poems, and looks at their literary, historical, scriptural, theological, and mystical elements. It also ties these works to San Juan's better-known lyrical poems and his prose commentaries. It will appeal to anyone interested in Spanish mystical poetry and the sources that inform that poetry.

St. John of the Cross Colin P. Thompson, 2003 Looking for connections between his verse and prose, Colin Thompson argues for a theological understanding of the intensely beautiful and moving poems. He seeks to explain the principles that guide St. John in his exploration of the self and its encounter with the divine, and provides an analysis of the poet's most famous symbol - the dark night of the soul.--BOOK JACKET.

St John of the Cross: His Life and Poetry Gerald Brenan, 1973-05-17 The paperback edition of a very successful and in some ways remarkable book, first published in 1973. Gerald Brenan is well known for his 'expository' works on Spanish

history and literature, and now in his eighties he has returned to an early interest in the Spanish mystics to produce an absorbing study of St John of the Cross, one of the foremost of Catholic mystics and poets. The book is perhaps the first in English to combine an objective - but sensitive and lively - account of St John's life with a fresh translation (by Mr Brennan's associate Lynda Nicholson) of his verse.

St. John of the Cross OCT Peter Tyler, 2010-04-30 Peter Tyler endeavours to represent St John of the Cross in the truest light, covering his life from the angles of John as Theologian, as Mystic, Psychologist, and Artist. Tyler draws parallels, at times uncomfortable, between the age of disruption and change in the church during which St John wrote, and our current age. In so doing he makes the case for this controversial, but largely misunderstood, figure to be an important guide for practical theology today.

The Cristos yacentes of Gregorio Fern?ez Ilenia Col?n Mendoza, 2017-07-05 Analyzing seventeenth-century images of the dead Christ produced by Gregorio Fern?ez, author Ilenia Col?endoza investigates how and why the artist and his patrons manipulated these images in connection with the religious literature of the time to produce striking images that moved the faithful to devotion. In so doing, she contributes new findings to the topic of Spanish sacred sculpture. The author re-examines these sculptures not only in the context of a larger sculptural group but also as independent sculptures that were intended as powerful aids to contemplation and devotion as was prescribed by the writings of San Juan de la Cruz and Luis de Granada. Combining study of the sculptural works with that of liturgical sources, she reveals the connection between the written word and the sculpted work of art. Through this interdisciplinary approach, the author links Fern?ez's sculptural program with the strategic objectives of major patrons of the period, such as the Duke of Lerma and King Philip III of Spain, both fervent defenders of the Catholic faith.

Géographie linguistique et biologie du langage: Autour de Jules Gilliéron Elizabeth A. Livingstone, 1993 Papers presented at the Eleventh International Conference on Patristic Studies held in Oxford 1991 (see also *Studia Patristica* 24, 25, 26 and 28). The successive sets of *Studia Patristica* contain papers delivered at the International Conferences on Patristic Studies, which meet for a week once every four years in Oxford; they are held under the aegis of the Theology Faculty of the University. Members of these conferences come from all over the world and most offer papers. These range over the whole field, both East and West, from the second century to a section on the *Nachleben* of the Fathers. The majority are short papers dealing with some small and manageable point; they raise and sometimes resolve questions about the authenticity of documents, dates of events, and such like, and some unveil new texts. The smaller number of longer papers put such matters

into context and indicate wider trends. The whole reflects the state of Patristic scholarship and demonstrates the vigour and popularity of the subject.

In Context: Teresa of Ávila, John of the Cross, and Their World Mark O'Keefe OSB, 2020-03-04 St. Teresa of Ávila and St. John of the Cross are among the greatest teachers of prayer in the Christian tradition. For nearly five centuries, their writings on the spiritual life have guided those seeking greater union with God. Beyond the written corpus of these saints, the lived experiences of these reformers of the Carmelite Order also draws fascination. Living in sixteenth-century Spain among kings, prelates, explorers, inquisitors, and reformers, these two saints were formed and sanctified by the context and circumstances of their historical time and place. In Context: Teresa of Ávila, John of the Cross, and Their World explores the social, cultural, intellectual, and religious themes that prevailed during the time in which St. Teresa of Ávila and St. John of the Cross lived and breathed. This book is not only a thematic overview but also visits particular situations in the lives of these saints: the events that shaped their writings, their lives, and the Carmelite Reform they initiated. Offering for the first time in English a comprehensive contextual overview of the Carmelite reformers, Father O'Keefe draws upon pivotal scholarly sources not available to many beginner-to-intermediate students of spirituality. The extensive bibliographies point readers toward the next steps in diving deeper into Carmelite studies. Also including: + A fully linked comprehensive index + 16 pages of color photos. This book is an excellent resource for any earnest student of St. Teresa of Ávila and St. John of the Cross.

A New Companion to Hispanic Mysticism, 2010-06-15 Winner of the 2011 SCSC Bainton Prize for Reference Works The “canon” of Hispanic mysticism is expanding. No longer is our picture of this special brand of early modern devotional practice limited to a handful of venerable saints. Instead, we recognize a wide range of “marginal” figures as practitioners of mysticism, broadly defined. Neither do we limit the study of mysticism necessarily to the Christian religion, nor even to the realm of literature. Representations of mysticism are also found in the visual, plastic and musical arts. The terminology and theoretical framework of mysticism permeate early modern Hispanic cultures. Paradoxically, by taking a more inclusive approach to studying mysticism in its “marginal” manifestations, we draw mysticism—in all its complex iterations—back toward its rightful place at the center of early modern spiritual experience. Contributors: Colin Thompson, Alastair Hamilton, Christina Lee, Clara E. Herrera, Darcy Donahue, Elena del Río Parra, Evelyn Toft, Fernando Durán López, Francisco Morales, Freddy Domínguez, Glyn Redworth, Jane Ackerman, Jessica Boon, José Adriano de Freitas Carvalho, Luce López-Baralt, María Carrión, Maryrica Lottman, and Tess Knighton.

John of the Cross Kavanaugh, Kieran, OCD, 1987 This volume contains carefully chosen texts that give a picture of the

“essential” St. John of the Cross (1542-1591), a Spanish Carmelite. Included are selections from The Ascent of Mount Carmel, The Dark Night, and Spiritual Canticle.

Dreams of Waking Vincent Barletta, Mark L. Bajus, Cici Malik, 2013-03-22 In this anthology, Vincent Barletta, Mark L. Bajus, and Cici Malik treat the Iberian lyric in the late Middle Ages and early modernity as a deeply multilingual, transnational genre that needs to break away from the old essentialist ideas about language, geography, and identity in order to be understood properly. More and more, scholars and students are recognizing the limitations of single-language, nationalist, and period-bound canons and are looking for different ways to approach the study of literature. The Iberian Peninsula is an excellent site for this approach, where the history and politics of the region, along with its creative literature, need to be read and studied together with the way the works were composed by poets and eventually consumed by readers. With a generous selection of more than one hundred poems from thirty-three poets, *Dreams of Waking* is unique in its coverage of the three main languages—Catalan, Portuguese, and Spanish—and lyrical styles employed by peninsular poets. It contains new translations of canonical poems but also translations of many poems that have never before been edited or translated. Brief headnotes provide essential details of the poets’ lives, and a general introduction by the volume editors shows how the poems and languages fruitfully intersect. With helpful annotations to the poetry, as well as a selected bibliography containing the most important editions and translations from all three of the main Iberian languages, this volume will be an indispensable tool for both specialists and students in comparative literature.
