Dictionary of Midwestern Literature, Volume 1 Philip A. Greasley,2001-05-30 The Dictionary of Midwestern Literature, Volume One, surveys the lives and writings of nearly 400 Midwestern authors and identifies some of the most important criticism of their writings. The Dictionary is based on the belief that the literature of any region simultaneously captures the experience and influences the worldview of its people, reflecting as well as shaping the evolving sense of individual and collective identity, meaning, and values. Volume One presents individual lives and literary orientations and offers a broad survey of the Midwestern experience as expressed by its many diverse peoples over time. Philip A. Greasley's introduction fills in background information and describes the philosophy, focus, methodology, content, and layout of entries, as well as criteria for their inclusion. An extended lead-essay, The Origins and Development of the Literature of the Midwest, by David D. Anderson, provides a historical, cultural, and literary context in which the lives and writings of individual authors can be considered. This volume is the first of an ambitious three-volume series sponsored by the Society for the Study of Midwestern Literature and created by its members. Volume Two will provide similar coverage of non-author entries, such as sites, centers, movements, influences, themes, and genres. Volume Three will be a literary history of the Midwest. One goal of the series is to build understanding of the nature, importance, and influence of Midwestern writers and literature. Another is to

provide information on writers from the early years of the Midwestern experience, as well as those now emerging, who are typically absent from existing reference works.

Culture and Environment ,2019-07-01 The inspiration for this book arose out of a large international conference: the ninth World Environmental Education Congress (WEEC) organized under the theme of Culture/Environment. Similarly, the theme for this book focuses on the Culture/Environment nexus. The book is divided into two parts: Part 1 consists of a series of research studies from an eclectic selection of researchers from all corners of the globe. Part 2 consists of a series of case studies of practice selected from a wide diversity of K-Postsecondary educators. The intent behind these selections is to augment and highlight the diversity of both cultural method and cultural voice in our descriptions of environmental education practice. The chapters focus on a multi-disciplinary view of Environmental Education with a developing view that Culture and Environment may be inseparable and arise from and within each other. Cultural change is also a necessary condition, and a requirement, to rebuild and reinvent our relationship with nature and to live more sustainably. The chapters address the spirit of supporting our praxis, and are therefore directed towards both an educator and researcher audience. Each chapter describes original research or curriculum development work.

Fort Bridger, Wyoming Hunt Janin,2024-12-05 For nearly fifty years, Fort Bridger played a role in all major events of the 19th century Rocky Mountain frontier and westering experience. Founded in 1842 by mountain man Jim Bridger, this southwestern Wyoming post was one of the most important outfitting points for travelers on the Oregon Trail, riders of the Pony Express, the Overland Stage, and the Union Pacific Railroad. Trappers, buffalo hunters, Forty-niners, soldiers and outlaws would pass through what is now the Fort Bridger State Historic Site. This post, or fort, is used as a basis for an illustrated account of the Rocky Mountain West. The book explores reasons why American Indian behavior varied between helpfulness and aggression toward mountain men and emigrants. Also detailed are weapons of the frontier, Fort Bridger's role in the 1857 Mormon War, the 1867 Wind River Mountains gold rush, and the Great Diamond Hoax of 1872. Several appendices are presented, including a discussion of gender in the westering movement and a selected chronology of frontier history. Interesting and highly detailed excerpts are taken from such primary sources as a trapper's journal and an 1850 account of buffalo butchering.
