Patrimony Alan Dean Foster, 2008-09-30 In this Pip & Flinx thriller, Alan Dean Foster displays the brilliance that has made him one of the brightest lights in science fiction. In *Patrimony*, fans will learn more about their favorite redhead—with emerald eyes, uncanny powers, and a poisonous minidrag—than they ever dreamed possible. “I know who your father is . . . Gestalt.” A shocked Flinx hears these dying words from one of the renegade eugenicists whose experiments with humans twenty-odd years ago shocked the galaxy . . . and spawned Flinx. So Flinx and his minidrag, Pip, venture to Gestalt, an out-of-the-way planet perfect for someone who never wants to be found—disregarding the advice of those who think Flinx could make better use of his time locating the ancient, sentient weapons platform that could be the galaxy’s only chance of stopping the exterminating scourge that’s fast approaching. Flinx might agree with them—but the quest for patrimony wins out. (Sorry, galaxy!) Could Gestalt supply the key to Flinx’s shadowy past and strange powers? An eccentric loner in a remote area could be the father Flinx has never stopped searching for, perhaps the only person who can unravel the mystery of his birth and his amazing, agonizing powers. Unfortunately for Flinx, Gestalt also hosts a resident bounty hunter who’s just learned about the stupendous reward offered for a certain dead redhead. Flinx gets a chance to test his adversary’s skills when our hero’s skimmer is blasted out of the sky and into a raging river in the middle of nowhere—a nowhere of impassable terrain and ravenous, carnivorous beasts. But hey, what’s one more impossible challenge for someone who’s spent his life defying the odds and escaping the inescapable? Flinx has one thing going for him . . . plenty of experience.

Midworld Alan Dean Foster, 2012-09-11 A jungle planet must defend against exploitative aliens in this novel by the #1 New York Times–bestselling author of *Star Wars: The Force Awakens*. From the rich imagination of science fiction great Alan Dean Foster comes the story of *Midworld*, a Humanx Commonwealth planet that’s equally fragile and hostile. Covered by a lush rainforest, *Midworld* is home to a primitive society that lives in harmony with the natural world. But the arrival of an exploitative human company, whose workers know nothing of *Midworld*’s delicate ecosystem, sparks a conflict. Should *Midworld*’s villagers aid the humans or stand against them? The hero of Foster’s addictive page-turner, *Born*, decides to lead

two humans across the perilous jungle. His choice propels Midworld toward annihilation—and leads him headlong into a battle for survival.

A Call to Arms Alan Dean Foster,1992 For eons, the Amplitur had searched space for intelligent species, each of which was joyously welcomed to take part in the fulfillment of the Amplitur Purpose. Whether it wanted to or not. When the Amplitur and their allies stumbled upon the races called the Weave, the Purpose seemed poised for a great leap forward. But the Weave's surprising unity also gave it the ability to fight the Amplitur and their cause. And fight it did -- for thousands of years. Will Dulac was a New Orleans composer who thought the tiny reef off Belize would be the perfect spot to drop anchor and finish his latest symphony in solitude. What he found instead was a group of alien visitors -- a scouting party for the Weave, looking for allies among what they believed to be a uniquely warlike race: Humans. Will tried to convince the aliens that Man was fundamentally peaceful, for he understood that Human involvement would destroy the race. But all too soon, it didn't matter. The Amplitur had discovered Earth... First Time in Paperback

Voyage to the City of the Dead Alan Dean Foster,2013-04-29 Far, far Upriver, where knowledge failed and fable ruled, in a frozen land of demons and monsters, the City of the Dead stood guard over a great treasure. Now the Mai, Delta-dwellers of the planet Horseye, as befitted a race of busy traders and merchants, had a great respect and love for wealth. But, a prudent species, they knew also that danger was, well, dangerous. So their thoughts turned to the Humanx couple, Lyra and Etienne Redowl, impatiently waiting permission to explore the planet. Suddenly bureaucracy was benign, permits permitted and their epic voyage up the most spectacular river chasm in the whole Humanx Commonwealth was underway...
