Sybil M. Farwell, Nancy L. Teger

Around the World with Historical Fiction and Folktales Beth Bartleson Zarian, 2004 As more school districts undergo the painstaking task of curriculum integration, resources that offer children an opportunity to live vicariously in times and places they cannot experience any other way become increasingly necessary. Whether two teachers are covering the same topic in separate classes (e.g. English and history), or designing a thematic unit with the school librarian, this book will assist all parties in the selection of high quality literature. In this handy guide to nearly 800 award winning historical fiction for Kindergarten through 8th grade, Beth Zarian literally spans the globe. Entries are first divided into three sections - American history, world history, and myths and folklore - then chronologically from prehistoric times to present day, and finally by grade level. Each entry is accompanied by a short annotation. For anyone wishing to teach historical facts in an entertaining way, *Around the World with Historical Fiction and Folktales* is the only way to travel.

The Joyful Reading Resource Kit Sally M. Reis, 2009-06-30 The Joyful Reading Resource Kit All children deserve a chance to learn to love reading. The Joyful Reading Resource Kit offers teachers an impressive array of tools, resources, and activities for getting students at all levels excited about reading while developing their proficiency in comprehension. Serving as a companion to Joyful Reading, the book offers teachers everything they need to implement the Schoolwide Enrichment Model in Reading (SEM-R), a differentiated instructional approach that encourages students to read independently for a period of time each day on books of their own choice. Implemented in three phases, the SEM-R program has been shown by research to improve fluency and comprehension among at-risk students. The Joyful Reading Resource Kit includes: Reproducible bookmarks for scaffolding students in critical thinking and comprehension activities Extensive lists of recommended books Tips for supporting students in selection of appropriately challenging books Materials for managing independent reading in the classroom, including log sheets, five-minute conference tips, writing prompts, assessment rubrics, and a reading growth chart Exciting enrichment resources to develop students' reading interests, including a survey form, online books, Web-based activities, and Renzulli Learning resources Hands-On Creativity activities that help students elaborate ideas, develop fluency, brainstorm, and much more Reproducible X-ploration projects on varied topics that students can pursue independently at their own pace The Joyful Reading Resource Kit is a vital compendium not only for classroom teachers but also for parents and after-school educators who wish to support students in discovering the rich

rewards and delights of reading.

Supporting Reading in Grades 6-12 Sybil M. Farwell, Nancy L. Teger, 2012-06-11 This book presents a curricular framework for students grades 6-12 that school librarians and teachers can use collaboratively to enhance reading skill development, promote literature appreciation, and motivate young people to incorporate reading into their lives, beyond the required schoolwork. *Supporting Reading Grades 6-12: A Guide* addresses head-on the disturbing trend of declining leisure reading among students and demonstrates how school librarians can contribute to the development of lifelong reading habits as well as improve students' motivation and test scores. The book provides a comprehensive framework for achieving this: the READS curriculum, which stands for Read as a personal activity; Explore characteristics, history, and awards of creative works; Analyze structure and aesthetic features of creative works; Develop a literary-based product; and Score reading progress. Each of these five components is explained thoroughly, describing how school librarians can encourage students to read as individuals, in groups, and as school communities; support classroom teachers' instruction; and connect students to today's constantly evolving technologies. Used in combination with an inquiry/information-skills model, the READS curriculum enables school librarians to deliver a dynamic, balanced library program that addresses AASL's Standards for the 21st-Century Learner.

Using Literature to Support Skills and Critical Discussion for Struggling Readers Nancy S. Williams, 2004 Emphasizing the need to develop higher-level thinking skills and critical discussion with intermediate and middle school struggling readers, Williams uses quality children's literature as a springboard to help readers: understand and use descriptive vocabulary and figurative language, make personal connections with text, create and solve text related mathematical problems, promote an active, engaged discussion and critical analysis of the story and the important issues raised in text, extend meaning through research and writing, art, and drama. To help teachers match student to text, literature selections are categorized according to interest (e.g., mystery, sports, humor, identity/solving problems), genre, and include reading level, interest level, and number of pages. Discussion questions and extension activities specific to over 100 children's literature selections provide opportunities for students to ask questions, discuss and use descriptive language, make predictions and inferences, evaluate story elements, and critically reflect on character perspectives and social issues raised in the text. All questions are appropriate for individual work, special education classrooms, general education and inclusion classrooms, and help teachers facilitate literature discussion groups, book club discussion and response writing, self-regulated reading, guided reading, and whole class discussions.

Teaching Literacy in Sixth Grade Karen D. Wood, Maryann Mraz, 2005-05-13 Sixth grade marks the transition to middle school and, for many students, the transition to early adolescence. The sixth-grade classroom is a place where problem-solving and abstract thinking skills can flourish as teachers devise creative ways to integrate language arts with

effective content-area instruction. This book walks the reader through everyday life in a successful sixth-grade language arts/social studies classroom and provides foundational knowledge and hands-on strategies for working with diverse learners.

Children's Literature in Action Sylvia M. Vardell, 2019-06-14 This practitioner-oriented introduction to literature for children ages 5–12 covers the latest trends, titles, and tools for choosing the best books and materials as well as for planning fun and effective programs and activities. The third edition of *Children's Literature in Action* provides an activity-oriented survey of children's literature for undergraduate and graduate students seeking licensure and degrees that will lead to careers working with children in schools and public libraries. Author Sylvia M. Vardell draws on her 30 years of university teaching and extensive familiarity with the major textbooks in the area of children's literature to deliver something different: a book that focuses specifically on the perspective and needs of the librarian, with emphasis on practical action and library applications. Its contents address seven major genres: picture books, traditional tales, poetry, contemporary realistic fiction, historical fiction, fantasy, and informational books. Each chapter includes practical applications for the educator who shares books with children and who develops literature-based instruction. Chapters are enriched by author comments, collaborative activities, featured books, special topics, and activities including selected awards and celebrations, historical connections, recommended resources, issues for discussion, and assignment suggestions. This new edition incorporates the 2018 AASL National School Library Standards.

Historical Dictionary of Children's Literature Emer O'Sullivan, 2023-04-24 History is constantly evolving, and the history of children's literature is no exception. Since the original publication of Emer O'Sullivan's *Historical Dictionary of Children's Literature* in 2010, much has happened in the field of children's literature. New authors have come into print, new books have won awards, and new ideas have entered the discourse within children's literature studies. *Historical Dictionary of Children's Literature, Second Edition* contains a chronology, an introduction, and an extensive bibliography. The dictionary section has more than 700 cross-referenced entries. This book will be an excellent resource for students, scholars, researchers, and anyone interested in the field of children's literature studies.

Igniting a Passion for Reading Steven Layne, 2023-10-10 When teaching reading, American classrooms often focus exclusively on skills instruction. But how can you teach the how without the why? In his new book, *Igniting a Passion for Reading*, Steve Layne shows teachers how to develop readers who are not only motivated to read great books, but also love reading in its own right. Packed with practical ways to engage and inspire readers from kindergarten through high school, this book is a must-have on every teacher's professional book shelf. Well-known for his children's books, young adult novels, and keynote speeches across the nation and around the world, Steve, aka Dr. Read, offers teachers everywhere a plan for engaging even the most reluctant reader. From read-alouds to creating reading lounges to author visits and so much more,

this book will help schools create a vibrant reading culture. The book also includes reminiscences from many of today's well-known children's and young adult authors—Mem Fox, Sharon Draper, Steven Kellogg, Candace Fleming, Eric Rohman, Neal Shusterman, and Joan Bauer—about the teacher who ignited their passion for reading. Written with humor, grace, and poignancy, *Igniting a Passion for Reading* will have a profound effect on the teaching of reading in our nation's schools.

A Handbook of Children's Literature, Methods and Materials Emelyn Elizabeth Gardner, Eloise Ramsey, 1927

Critical Content Analysis of Children's and Young Adult Literature Holly Johnson, Janelle Mathis, Kathy G.

Short, 2016-06-17 In this book the authors describe their strategies for critically reading global and multicultural literature and the range of procedures they use for critical analyses. They also reflect on how these research strategies can inform classrooms and children as readers. Critical content analysis offers researchers a methodology for examining representations of power and position in global and multicultural children's and adolescent literature. This methodology highlights the critical as locating power in social practices by understanding, uncovering, and transforming conditions of inequity. Importantly, it also provides insights into specific global and multicultural books significant within classrooms as well as strategies that teachers can use to engage students in critical literacy.

Researching History Education Linda S. Levstik, Keith C. Barton, 2018-02-06 The authors' research is well known and among the most important American works being done on how children learn history. It is thus a great idea to gather this pivotal research in one place. The volume offers a new perspective through the authors' reflections on the research process. It is profound without pomposity, ideal for the intended audience; the tone is just right. There really isn't another book that does what this one does. Stephen J. Thornton, University of South Florida Researching History Education combines a selection of Linda Levstik's and Keith Barton's previous work on teaching and learning history with their reflections on the process of research. These studies address students' ideas about time, evidence, significance, and agency, as well as classroom contexts of history education and broader social influences on students' and teacher's thinking. These pieces—widely cited in history and social studies education and typically required reading for students in the area—were chosen to illustrate major themes in the authors' own work and trends in recent research on history education. In a series of new chapters written especially for this volume, the authors introduce and reflect on their empirical studies and address three issues suggested in the title of the volume: theory, method, and context. Although research on children's and adolescents' historical understanding has been the most active area of scholarship in social studies in recent years, as yet there is little in-depth attention to research methodologies or to the perspectives on children, history, and historical thinking that these methodologies represent. This book fills that need. The authors' hope is that it will help scholars draw from the existing body of literature in order to participate in more meaningful conversations about the teaching and learning of history. Researching History Education provides a needed resource for novice and experienced researchers and will be

especially useful in research methodology courses, both in social studies and more generally, because of its emphasis on techniques for interviewing children, the impact of theory on research, and the importance of cross-cultural comparisons.

The Joy of Children's Literature Denise Johnson,2023-12-18 This book provides in-depth coverage of children's literature with integrated reading methods in a concise, accessible format. Johnson emphasizes that reading, writing, discussing, and finding pleasure in children's books are essential tools in being able to recognize and recommend literature, and being able to share the joy of children's literature with children themselves. This fully updated third edition includes up-to-date research, new book titles within each chapter, a greater focus on diversity and inclusion, and new sections on Activities for Professional Development and Print and Online Resources.

Modern Methods Of Teaching History Shalini Wadhwa,2000

Using Nonfiction for Civic Engagement in Classrooms Vivian Yenika-Agbaw,Ruth McKoy Lowery,Paul H. Ricks,2018-02-22 This book acknowledges the existence of high quality nonfiction children's literature that may serve as a basis for conversation about civic engagements and our roles as global citizens. It touches on our social history, and offers ideas for how educators might be able to engage readers in healthy and useful dialogues on what it means to be human and how nonfiction texts attempt to reconstruct this reality in this quest to recognize our collective humanity.

U.S. History Through Children's Literature Wanda Miller,1997-03-15 Allow students to step back in time to experience the thoughts, feelings, dilemmas, and actions of people from history. For each history topic, Miller suggests two titles-one for use with the entire class and one for use with small reading groups. Summaries of the books, author

information, activities, and topics for discussion are supplemented with vocabulary lists and ideas for research topics and further reading. This integrated approach makes history meaningful to students and helps them retain historical details and facts.
