My Dining Hell Jay Rayner, 2012-06-01 I have been a restaurant critic for over a decade, written reviews of well over 700 establishments, and if there is one thing I have learned it is that people like reviews of bad restaurants. No, scratch that. They adore them, feast upon them like starving vultures who have spotted fly-blown carrion out in the bush. They claim otherwise, of course. Readers like to present themselves as private arbiters of taste; as people interested in the good stuff. I'm sure they are. I'm sure they really do care whether the steak was served au point as requested or whether the soufflé had achieved a certain ineffable lightness. And yet, when I compare dinner to bodily fluids, the room to an S & M chamber (only without the glamor or class), and the bill to an act of grand larceny, why, then the baying crowd is truly happy. Don't believe me? Then why, presented with the chance to buy this ebook filled with accounts of twenty restaurants - their chefs, their owners, their poor benighted front of house staff - getting a complete stiffing courtesy of the sort of vitriolic bloody-curdling review which would make the victims call for their mothers, did you seize it with both hands?

Uncommonly Good Ideas—Teaching Writing in the Common Core Era Sandra Murphy, Mary Ann Smith, 2014-04-15 This innovative resource provides teachers with a road map for designing a comprehensive writing curriculum that meets

Common Core standards. The authors zero in on several “big ideas” that lead to and support effective practices in writing instruction, such as integrating reading, writing, speaking, and listening; teaching writing as a process; extending the range of students’ writing; spiraling and scaffolding a writing curriculum; and collaborating. These “big ideas” are the cornerstones of best researched-based practices as well as the CCSS for writing. The first chapter offers a complete lesson designed around teaching narrative writing and illustrating tried and true practices for teaching writing as a process. The remaining chapters explore a broad range of teaching approaches that help students tackle different kinds of narrative, informational, and argumentative writing and understand complexities like audience and purpose. Each chapter focuses on at least one of the uncommonly good ideas and illustrates how to create curricula around it. *Uncommonly Good Ideas* includes model lessons and assignments, mentor texts, teaching strategies, student writing, and practical guidance for moving the ideas from the page into the classroom. “An uncommonly good book about uncommonly good ideas about teaching writing in the era of the Common Core—and beyond. In this slender volume two master teachers, Sandra Murphy and Mary Ann Smith, share the knowledge accumulated during their lifetimes of teaching writing and exploring the broader world of related theory and research. They confront the hard problems all teachers will face, but do so with an evident joy in their chosen profession. The book is slender, readable, and well worth the ride, whether you are a novice terrified as you stare into your first classroom or an old hand looking for an extra boost with a new class and a new year.” —Arthur Applebee, Distinguished Professor and chair, Department of Educational Theory and Practice, University at Albany “Throughout this book I find the intelligence and insights that help me think about what it looks like to teach writing through the Common Core State Standards while maintaining my own integrity as a teacher. This book is a master class that you can take throughout the year, reading today about what you need to learn to do better tomorrow.” —Jim Burke, best-selling author and high school teacher

Good Manners for Nice People Who Sometimes Say F*ck Amy Alkon, 2024-07-02 A gem . . . Alkon explains why so many people are rude and how it's possible to be courteous, even if you're foul-mouthed and clueless about etiquette. —Dr. Adam Grant, Wharton School professor and New York Times–bestselling author To lead us out of the miasma of modern mannerlessness, science-based and bitingly funny syndicated advice columnist Amy Alkon rips the doily off the manners genre and gives us a new set of rules for our twenty-first century lives. With wit, style, and a dash of snark, Alkon explains that we now live in societies too big for our brains, lacking the constraints on bad behavior that we had in the small bands we evolved in. Alkon shows us how we can reimpose those constraints, how we can avoid being one of the rude, and how to stand up to those who are. Foregoing prissy advice on which utensil to use, Alkon answers the twenty-first century's most burning questions about manners, including: Why do many people, especially those under forty, now find spontaneous phone calls rude? What can you tape to your mailbox to stop dog walkers from letting their pooch violate your lawn? How do you shut up the guy in the pharmacy line with his cellphone on speaker? What small gift to your new neighbors might make them think twice about playing Metallica at 3 a.m.? Combining science with more than a touch of humor, Good Manners for Nice People Who Sometimes Say F*ck is destined to give good old Emily a shove off the etiquette shelf (if that's not too rude to say). Miss Manners with fangs. — LA Weekly

Food and the Self Isabelle de Solier, 2013-10-10 We often hear that selves are no longer formed through producing material things at work, but by consuming them in leisure, leading to 'meaningless' modern lives. This important book reveals the cultural shift to be more complex, demonstrating how people in postindustrial societies strive to form meaningful and moral selves through both the consumption and production of material culture in leisure. Focusing on the material culture of food, the book explores these theoretical questions through an ethnography of those individuals for whom food is central to their self: 'foodies'. It examines what foodies do, and why they do it, through an in-depth study of their lived experiences. The book uncovers how food offers a means of shaping the self not as a consumer but as an amateur who

engages in both the production and consumption of material culture and adopts a professional approach which reveals the new moralities of productive leisure in self-formation. The chapters examine a variety of practices, from fine dining and shopping to cooking and blogging, and include rare data on how people use media such as cookbooks, food television, and digital food media in their everyday life. This book is ideal for students, scholars, and anyone interested in the meaning of food in modern life.
