Baron Trump's Marvellous Underground Journey Ingersoll Lockwood, 2021-07-09 Bulger was not himself at all, dear friends. There was a lack-lustre look in his eyes, and his tail responded with only a half-hearted wag when I spoke to him. I say half-hearted, for I always had a notion that the other end of Bulger's tail was fastened to his heart. His appetite, too, had gone down with his spirits; and he rarely did anything more than sniff at the dainty food which I set before him, although I tried to tempt him with fried chickens' livers and toasted cocks' combs—two of his favorite dishes. There was evidently something on his mind, and yet it never occurred to me what that something was; for to be honest about it, it was something which of all things I never should have dreamed of finding there. Possibly I might have discovered at an earlier day what it was all about, had it not been that just at this time I was very busy, too busy, in fact, to pay much attention to any one, even to my dear four-footed foster brother. As you may remember, dear friends, my brain is a very active one; and when once I become interested in a subject, Castle Trump itself might take fire and burn until the legs of my chair had become charred before I would hear the noise and confusion, or even smell the smoke.

Collected Works of Ingersoll Lockwood: the Baron Trump Novels and 1900; Or, the Last President Ingersoll

Lockwood,2019-04-11 This collection contains the THREE novels by INGERSOLL LOCKWOOD that have surprised the world of the XXI century. This author wrote over 120 years ago, during the 1890`s, these three novels, in which the characters are first, a kid, whose name was Baron Trump, and his Master is Don; and a separate novel about a president who resides in 5th avenue, New York, in a tower with his name, who surprisingly wins an election... The Baron Trump novels recount the adventures of the German boy Wilhelm Heinrich Sebastian Von Troomp, who goes by Baron Trump, as he discovers weird underground civilizations, offends the natives, flees from his entanglements with local women, and repeats this pattern until arriving back home at Castle Trump. Chris Riotta noted in Newsweek that Baron Trump's adventures begin in Russia, and also mentioned another book of Ingersoll's, The Last President, in which the president's home city of New York is riven by protests against a rigged presidential election. Jaime Fuller wrote in Politico that Baron Trump is precocious, restless, and prone to get in trouble, often mentions his massive brain, and has a personalized insult for most people he meets. These novels, and some of its phrases and situations, really make people wonder if there are authors who have a window to the future, true prophets like Verne and his From Earth to the Moon, Poe with his Arthur Gordon Pim (a story that occurred with names and last names 50 years later); and Robertson in Futility or the Wreck of the Titan, a novel about the wreck of the Titanic, with locations, names and descriptions, written 20 years! before the actual events.

INGERSOLL LOCKWOOD The Collection, 4 In 1:This collection contains the Four Books by INGERSOLL LOCKWOOD that have surprised the world of the XXI century.The Last President (Or 1900),Travels And Adventures Of Little Baron Trump,Baron Trumps Marvellous Underground Journey,Laconics of Cult.Ingersoll Lockwood (2 August 1841 - 30 September 1918) was an American lawyer and writer, and the Ambassador to the German Empire appointed by Abraham Lincoln. As a writer, he is particularly known today for his Baron Trump novels. Many of his works have been described as prophetic because they contain strange coincidences with the US president. His main character name is Baron Trump, about the adventures of a boy who lives in castle Trump and travels to Russia and has relations there. His other book, the Last President, is about a president who lives in New York and gets elected against all odds. Many of his books have been hidden for over 100 years and had a resurgence because of these strange coincidences with the Trump family.However, Laconics of Cult is a very different book, deeply antireligious. It questions how the human being has been controlled by different cults or religions with their shadowy gods on their shadowy thrones,. In it the author attempts at creating a humanitarian New Cult, which he calls of the Immortal Human , free of the shackles of organized religion.

1900 or The Last President Ingersoll Lockwood,2020-05-28 Janet Ossebbard, a researcher from the Neatherlands, in her documentary The End of the World as we Know it poses the question: How the mysterious author Ingersoll Lockwood was able to write a book in 1889 and another one for years later about a young Baron Trump and his adventures through a space-time portal guided by a man called Don, the master of all masters. This author also wrote a book about the last president. The theory claims that Donald Trump and his family time-traveled from a distant time to the present in order to save USA and the world. Can this be true? This edition of 1900 Or The Last President is the complete and original novel by Ingersoll Lockwood. Now you can read it; draw your own conclusions and enjoy an excellent piece of classical literature.

The Trump Code Troy Anderson,2024-09-17 Could the Trump family's connections to time travel, esoteric knowledge,

and secret societies hold clues to unlocking the mysteries of our past and future? By the end of this book, you will be able to connect the uncanny parallels between the novels Lockwood penned over a century ago and the Trump family legacy. Additionally, you will be able to solve the mystery to the upcoming 2024 election season. In the annals of American presidential history, there is no more peculiar tale than the eerie similarities between former President Donald Trump and a series of novels called, *The Baron Trump Collection*, penned by the obscure yet seemingly prophetic hand of American lawyer and novelist Ingersoll Lockwood in the late 1800s. *The Trump Code* delves into the connections between the Baron Trump novels and the enigmatic Trump family legacy, asking whether this nineteenth-century novelist foresaw the future of not only Trump but America and the world. It also uncovers a web of historical events and divine providence. Drawing from biblical passages about Enoch, Elijah, the Apostle John, the Mount of Transfiguration, and a mysterious verse in Ephesians on how Christ's followers are seated in heavenly places, along with theories of time travel by Albert Einstein, Nikola Tesla, and others, *The Trump Code* connects the pieces of this riveting puzzle, posing the question of whether truth is stranger than fiction, as Mark Twain famously said. As we peel back the layers of history, *The Trump Code* confronts questions that defy easy answers: Could this fictional novel hold clues to the upcoming 2024 presidential election, with all its division and chaos? Is there a divine hand guiding the course of human events, as suggested by the parallels in these novels between fiction and reality? Or are we witnessing the machinations of darker forces, hinted at by the curious numerology surrounding Lockwood's name?

The Baron Trump novels are two children's novels written in 1889 and 1893 by the American author and lawyer Ingersoll Lockwood. They remained obscure until 2017, when they received media attention for perceived similarities between their protagonist and U.S. President Donald Trump. Ingersoll published the first novel, *Travels and adventures of Little Baron Trump and his wonderful dog Bulger*, in 1889, and its sequel, *Baron Trump's Marvellous Underground Journey*, in 1893. The novels recount the adventures of the German boy Wilhelm Heinrich Sebastian Von Troomp, who goes by , Baron Trump, as he discovers weird underground civilizations, offends the natives, flees from his entanglements with local women, and repeats this pattern until arriving back home at Castle Trump. The novels were part of a trend in American children's literature that responded to the demand for fantastic adventure stories triggered by Lewis Carroll's *Alice in Wonderland* (1865). In July 2017, the books were rediscovered by Internet forum users, and then the media, who amused themselves by highlighting perceived similarities between the protagonist and U.S. President Donald Trump, whose son is named Barron Trump.
