

La Importancia Del Acto De Leer Paulo Freire Resumen

RIVAS MÁXIMUS, Carmen

La importancia del acto de leer Paulo Freire, 1983

Freire's Key Terms Teresa García Gómez, 2024-09-05 This book brings together clear and concise definitions of 33 key terms used by the great educational thinker, Paulo Freire. From 'critical consciousness' to 'concientization' and from 'oppressed' to the 'banking model of education' Freire's concepts and ways of understanding education are as relevant today as they ever were. The critical definitions attend to the theoretical and practical implications of each term allowing readers to appreciate the philosophical and emancipatory nature of Freire's work and learn how these ideas can be applied in educational, social, and political setting to drive social change. Each term is explained in relation to Freire's wider body of work, noting the nuances and meanings that developed through his career as pedagogue. The book shows the significance of Freire's legacy, and offers an opportunity to put into practice, rethink, and remake his proposal for a radical model of education.

Elogio de Paulo Freire Inés Fernández Mouján, 2024-01-16 Este libro revisita a Paulo Freire, puntualizando sus alcances en ética, política y cultura, las tres dimensiones fundamentales de la educación. Plantea un diálogo con su vida intelectual y con las nociones centrales que organizan su discursividad militante y comprometida con su tiempo y sus gentes. Traza el corpus teórico del educador brasileño, con el fin de analizar sus presupuestos más importantes y abrir nuevas y fecundas discusiones en el campo de la educación popular. Revisa, interpreta y deconstruye el concepto de acción cultural liberadora de Freire, a partir de las categorías de identidad cultural, subalternidad, colonialidad del poder, intervención y resistencia que nos proveen los estudios poscoloniales, decoloniales, subalternos y culturales. Este análisis establece las tensiones que se presentan en la educación como choque antagónico, conflictivo e inesperado en el que, sin embargo, es posible la transformación y la creación de nuevas formas de encuentro con el otro.

El maestro sin recetas Paulo Freire, 2019-11-20 ¿Se pueden trasladar al aula las técnicas pedagógicas aprendidas en los libros? ¿Qué pasa cuando la teoría que un maestro estudió choca con la realidad de sus alumnos? ¿Cómo evitar el enojo y la frustración de un docente que probó todas las recetas y siente que fracasó? En este libro, Paulo Freire parte de estas preguntas para repensar la función de los métodos de alfabetización y, más general, del conocimiento especializado, que suele ocupar el lugar ideal del deber ser en vez de ser una herramienta más en el proceso educativo. A través del diálogo con

colegas y estudiantes, Freire explica el alcance de los métodos para enseñar lectoescritura, que son imprescindibles pero insuficientes. Porque lo que está en juego no es sólo que los niños aprendan a leer, sino que desarrollen su capacidad de conocimiento y de creación de significado. Considerar la técnica como algo primordial es perder el objetivo de la educación: la lectura de las palabras es un paso necesario para abrirse a la lectura del mundo, y a la escritura y la creación personal. El entrenamiento técnico-científico de los educadores sólo es importante cuando permite pensar y decidir sin fórmulas preconcebidas sobre cuestiones decisivas: cómo acompañar el pasaje de la oralidad a la escritura, cómo hacer para que la palabra escrita no se burocratice y conserve la vitalidad de la lengua hablada, cómo partir de lo que traen los alumnos para desarrollar múltiples alfabetizaciones y discursos. Partiendo de su propia experiencia, reflexiona también sobre la alfabetización en ciencias y el modo de alentar la curiosidad epistemológica, la experimentación y el vínculo productivo con el error. El maestro sin recetas es, una vez más, un aporte fundamental de Freire en pos de una educación que vaya más allá de la instrucción básica, que ofrezca cada vez más contenidos y herramientas para ser verdaderos ciudadanos en un mundo difícil.

Trabajo escolar inteligente y vivencial: Ángel Ignacio Ramírez, 2012-05-16 El presente libro fue surgiendo como producto del intercambio constante de ideas con docentes y directivos docentes y con funcionarios del sistema educativo, a lo largo del desempeño del autor como consultor sobre “desarrollo educativo pertinente y de calidad”, a nivel de educación básica y media. Los planteamientos que se exponen en el presente escrito tratan de buscar un encuentro creativo entre lo que se tiene y lo que se puede llegar a tener en función de las expectativas de calidad, calidez y pertinencia del siglo XXI. El libro está dirigido a docentes y directivos de las instituciones educativas, tiene un propósito eminentemente práctico: lograr que sus planteamientos, en la medida de lo posible, se conviertan en herramientas útiles para reorientar el trabajo escolar de modo que la institución educativa se ponga a tono con los desafíos del siglo XXI, en la medida que se hace vigente y eficiente en su labor. -Ecoe Ediciones-.

Pedagogía liberadora Paulo Freire, 2022-12-16 Los términos “pedagogía del oprimido”, “concientización” o “educación

como práctica de la libertad” forman parte de un discurso crítico que desarrolló, por espacio de casi medio siglo, el pensador Paulo Freire. A partir de una antropología filosófica que desde el primer momento integró, con análisis materialistas sobre la situación vital de los seres humanos, la práctica política y la dimensión ontológica, su obra conforma un conjunto amplio y productivo de respuestas a las estructuras de dominación social que se alimenta del marxismo, la teología de la liberación, la epistemología decolonial y los procesos de liberación de los sujetos subalternos. Los textos que se recogen en este volumen muestran a un Freire para el que no existe la división entre teoría y práctica, que engarza la reflexión sobre nuestra condición histórica como seres humanos en situación con la elaboración de técnicas y metodologías encaminadas a la producción colectiva del conocimiento.

CUBA, EDUCACIÓN Y DESARROLLO SOSTENIBLE Hassan Dalband, 2023-06-15 A los respetables lectores que accedan al libro “Cuba: educación y desarrollo sostenible” del Dr. Hassan Dalband, comienzo por compartirles que en esta obra encuentro, ante todo. Un himno de amor al pueblo, al maestro, y a la educación. El libro “Cuba: educación y desarrollo sostenible” es uno de los resultados de la enjundiosa labor investigativa desplegada por el Dr. Dalband, con el propósito de realizar un análisis crítico de las características, vías y métodos que emplea el sistema educativo capitalista para llevar a cabo la dominación sobre la clase obrera y la población en general, en contraposición a la educación popular y socialista, como alternativa ante la educación hegemónica, a partir de la experiencia cubana. El texto contiene una variedad y riqueza de las fuentes utilizadas por el autor, quien maneja abundante y actualizada bibliografía de autores cubanos, de otras nacionalidades, de organismos y organizaciones internacionales; incluye publicaciones periódicas, informes oficiales, además de las entrevistas realizadas a educadores, académicos y especialistas en la educación y la pedagogía, participantes en las transformaciones producidas por la Revolución Socialista en la educación. La relación entre la educación, el socialismo y la democracia participativa ocupa un lugar especial en esta parte de la obra, en ella el autor profundiza en la necesidad de entender el término y la significación de la Educación Popular en el sistema socialista. En las reflexiones de algunos de los expertos entrevistados se percibe la existencia de determinados prejuicios acerca de la necesidad de asumir la Educación Popular si el pueblo está en el poder. El autor destaca la necesaria relación existente entre la Educación Popular, la democracia participativa y el socialismo como bases principales de una educación literaria, participativa, revolucionaria, colectiva y humanista. El autor concluye la rigurosa obra que nos presenta aseverando que, a partir del ejemplo de Cuba, “es posible construir un sistema económico, social, político, cultural y de género con carácter socialista como sucede en la interpretación cubana y caribeña con justicia social, bienestar individual y colectivo. Una forma de gobierno con democracia participativa e incluyente con la rendición de cuentas y revocación de mandato”. Con la Educación Popular de corte socialista sí se puede crear un mundo mejor para toda la población mundial, y sin ella es imposible. Dra. C. Lesbia Cánovas Fabelo Academia de Honor, Academia de Ciencias de Cuba La Habana, octubre de 2022.

Educaciones críticas Dulce María Cabrera Hernández,Ximena Andrea González Grandón,Lourdes López Pérez,Luz María Stella Moreno Medrano,2025-01-17 Esta obra pone las ideas de Freire en diálogo con los retos actuales que enfrenta la educación, y destaca las oportunidades que existen para continuar la construcción de pedagogías liberadoras y esperanzadas.

Developing Culturally and Historically Sensitive Teacher Education Yolanda Gayol Ramírez,Patricia Rosas Chávez,Peter Smagorinsky,2020-09-17 Shortlisted for the UK Literacy Association's Academic Book Award 2021 This volume explores the literacy education master's degree program developed at Universidad de Guadalajara in Jalisco, Mexico, with the aim of addressing the nation's emerging social, economic, technological, and political needs. Developing the program required taking into account the cultural diversity, historical economic disparities, indigenous and colonial cultures, and power inequities of the Mexican nation. These conditions have produced economic structures that maintain the status quo that concentrates wealth and opportunity in the hands of the very few, creating challenges for the education and economic life for the majority of the population. The program advocates providing tools for youth to critique and change their surroundings, while also learning the codes of power that provide them a repertoire of navigational means for producing satisfying lives. Rather than arguing that the program can be replicated or taken to scale in different contexts, the editors focus on how their process of looking inward to consider Mexican cultures enabled them to develop an appropriate educational program to address Mexico's historically low literacy rates. They show that if all teaching and learning is context-dependent, then focusing on the process of program development, rather than on the outcomes that may or may not be easily applied to other settings, is appropriate for global educators seeking to provide literacy teacher education grounded in national concerns and challenges. The volume provides a process model for developing an organic program designed to address needs in a national context, especially one grounded in both colonial and heritage cultures and one in which literacy is understood as a tool for social critique, redress, advancement, and equity.

Experiencias docentes en tiempos de pandemia Aguilar, Floralba,Villagómez, María Sol,2022-02-18 Esta publicación responde a la coyuntura de uno de los momentos más difíciles para la educación, la pandemia que azota al mundo desde 2020. Estructurado en dos partes, los autores de este texto reflexionan sobre la filosofía de la educación ante la crisis, el acto educativo, la concienciación y el compromiso para la transformación personal y ciudadana, la educación en familia, la población indígena y las dificultades de acceso a la educación virtual. Reflexiones sobre la importancia de la enseñanza-aprendizaje de la didáctica de las ciencias sociales o el uso del aula invertida en las clases de matemáticas forman parte de las propuestas de quienes participan en esta compilación de artículos. Las dificultades del modelo educativo son

oportunidades para pensar en el futuro de la educación y la formación docente.

La literatura brasileña en España RIVAS MÁXIMUS, Carmen,2014-01-01 Apenas existen en lengua española investigaciones generales acerca de la literatura y cultura brasileñas, y aun menos si cabe sobre su recepción en España. La presente investigación acerca de la literatura brasileña en España, fundada en un modelo ya sometido a prueba y con muy buenos resultados sobre todo en un caso distante y difícil como lo es el de la literatura china, encierra una función instrumental que en gran medida se instituye previa a cualquier otro tipo de estudio sobre la materia tomada por objeto. Trazada con ambición totalizadora sobre el marco cultural e institucional y, específicamente, sobre la literatura de Brasil en España, sobre el conjunto bien contextualizado de sus producciones clasificado por géneros desde una rigurosa base documental bibliográfica y traductográfica, posee la virtud de ofrecer la imagen centrada, completa y eficiente de una relación cultural y literaria complicada, como todas las de envergadura, pero sin duda sujeta a unas peculiaridades que desde luego merecen gran atención y desde luego no sólo por tratarse de elaboraciones en lenguas de la misma familia románica e históricamente hermanas. Si la proximidad aleja por principio la virtualidad más fulgurante de toda relación en los estudios comparatistas, cabe decir que esto en el presente caso sólo es así hasta cierto punto, pues la proximidad de cultura y lengua puede albergar razones de mucha lejanía, pero al igual que de afectos difíciles, necesidades complejas, pasiones inconfesadas o latentes, y también secretos de extrema fidelidad que acaso penetran, o superan, la esfera de lo que a veces hemos denominado intracomparatismo y a menudo se despliega larga y casi sigilosamente en la Historia a través del hilo conductor de élites y genealogías.
