Avances en el estudio sobre el lenguaje científico y académico Ventura Salazar García, María Aurora García Ruiz, 2023-04-01 Los quince estudios que componen el presente volumen ofrecen un acercamiento plural al lenguaje científico y académico desde diversas disciplinas del ámbito de las Humanidades y de las Ciencias de la Educación. Se distribuyen en cuatro secciones. El capítulo introductorio, amén de anticipar el contenido de las aportaciones posteriores, incide sobre algunas de las claves lingüísticas y epistemológicas que configuran la naturaleza de este lenguaje de especialidad, así como de su enseñanza en el actual contexto universitario español. La siguiente sección muestra cómo el moderno discurso científico hunde sus raíces en el hontanar clásico, tanto en lo que se refiere a su génesis filosófica como a la clasificación lexicológica de su terminología. La tercera sección plantea propuestas de vocación aplicada en las que la caracterización del registro académico es inseparable de los cauces para su enseñanza en los ciclos formativos superiores. La

última sección atiende ciertos interrogantes que suscita el lenguaje de especialidad desde la óptica de determinadas disciplinas particulares, que van de la historia del arte a la traducción literaria, pasando por la didáctica, el análisis de discursos multimodales, etc. En definitiva, estas páginas ponen de relieve el papel nuclear que desempeña el lenguaje académico en la construcción y la transmisión del conocimiento.
