**Fashion, Dress and Post-postmodernism** José Blanco F., Andrew Reilly, 2021-01-28 Scholars have argued that postmodernism is dead and that we are entering into a new era that some have labelled altermodernism, digimodernism, performatism, and post-postmodernism. This book expands on the nascent scholarship of post-postmodernism to highlight how dress, fashion, and appearance are reflections of this new age. The volume starts with a discussion of fashion, subjectivity, and time and an analysis of temporality, technology, and fashion in post-postmodern times. Later chapters analyse the work of design houses and mass producers such as Vetements, Gucci, and Uniqlo whose products align with post-postmodern aesthetics, hyperconsumption, and hypermodern branding. The book looks at diverse geographic and identity markers by discussing post-postmodernism and the religio-politico-cultural questions in South Asian Muslim fashion, image and identity presentation in queer social networking apps, and by exploring fashion designer Tom Ford's output as a movie director. Two chapters discuss the post-postmodern fashion exhibition with analyses of recent exhibitions and an in-depth look at the work of exhibition maker Judith Clark. The final chapter is written by members of The Rational Dress Society, a counter-fashion collective that makes JUMPSUIT, an experimental garment to replace all clothes. Fashion, Dress, and Post-postmodernism is a companion to research on relationships between post-postmodernism, fashion, and dress, and the go-to resource for researchers and students interested in these areas.

The Enigma of Meaning Gregory Desilet, 2023-03-03 This work focuses on humanity's first technology--language--by placing the views of two of the greatest philosophers of the 20th century in direct confrontation on the topic of language/sign communication. It addresses the dominant role of language by the unexpected means of exposing the limits of words and signs for conveying meaning. Identifying these limits leads to the surprising realization that such limits are also precisely what make communication possible. Wittgenstein strives to shore up the foundation of meaning through a deeper understanding of the tension between rules and practice in the use of signs--while Derrida strives to expose the tension in the nature of the sign itself. This tension underscores the presence of the sign as intimately bound up with its absence. As a result, these two approaches feature contrasting roles for interpretation between a sign and its meaning. Highlighting the differences between these approaches reveals the play of hazards and benefits for language users when faced with alternative ways of understanding and accessing the power and potential of language.

**The Once and Future Age** Joe Richardson,2013-11 By no means do I think that the mythos I've developed is the only one for you. There are many works that get you off commonly accepted paradigms and from these sources you may be able to take a little here and a little there in the search for what personally makes sense. Many of the books and films I deem valuable are cited within this text. But as to why I believe the information encased herein to be important, I must say that what I have seen for explanations of reality outside of my own belief structure still leaves many areas unexamined, so I included a number of sources; perhaps in total they will amount to something greater than their individual parts. Also, in many correct and important theories the ideas I have come in contact with do not go far enough. I see doors that I want to make ajar, windows that I seek to get unstuck; like a whale, I always want to dive deeper. And so my promise to you as the reader is that you'll have an opportunity to see subjects that you may have thought you knew portrayed in a different light, interpretations coming from a different angle and ideas new to you.

Outline schmidt hammer lassen,2012-11-05 Zu den beachtlichen Errungenschaften der skandinavischen Architektur zählen: Verantwortung für die Umwelt und Sinn für das Soziale. Die dänischen Architekten Schmidt Hammer Lassen (1986 gegründet, Büros in Kopenhagen, Aarhus, Oslo und London) knüpfen in ihren bemerkenswerten Gebäuden an diese Standards an, sie legen grossen Wert auf die Praktikabilität der von ihnen entworfenen Strukturen, an ihre Einbindung in den realen Kontext der Umgebung und der Nutzer. Diese Monographie bietet eine Auswahl der 20 besten Bauten und Projekte der letzten Jahre (aus Dänemark, Grönland, Schweden, Norwegen, Island, England, Tschechien, Saudi Arabien). Die Themen, nach welchen alle Entwürfe dargestellt und analysiert werden, sind: ökonomische, ökologische und soziale

Nachhaltigkeit, den durch das Gebäude der Umgebung verliehenen Mehrwert, seine Identität stiftende Kraft, die Durchlässigkeit zwischen öffentlichen und privaten Sphären.

*Interpretations on Behalf of Place* Robert Mugerauer,1994-01-01 In this book, Mugerauer emphasizes the interplay between European continental philosophy and North American environments and architecture. Drawing on a keen understanding of conceptual trends in both scholarship and the design professions, he clarifies various competing philosophical visions and their considerably different perspectives on environment, place, and architecture. The book covers Derrida's deconstruction, Foucault's genealogy, Heidegger's originary thinking, and Eliade's hermeneutics in order to interpret cultural displacements and the possible recovery of place, especially through interpretation of dwelling, sense of place, landscapes, architecture, planning, urban design, and technology.
