**The goodstrat.com Reader** Martyn Jones,2025-07-28 Ah, GoodStrat.com, a website that sounds like it should be selling laminated PowerPoint templates to underqualified middle managers, but is in fact the online bunker of Martyn Richard Jones, a man who writes as if he's furiously trying to save British democracy using only a thesaurus, a broadband connection, and the ghost of Denis Healy, Tony Benn and Julio Anguita whispering in his ear. Visiting GoodStrat.com is like wandering into a dusty attic where someone's scrawled the entire history of post-war British politics on the back of a Corn Flakes box, while also trying to explain offshoring, behavioural economics, and why Jeremy Corbyn is actually the political equivalent of Gandalf (He arrives precisely when he means to, and usually loses a few Shadow Cabinet members in the process). What Is GoodStrat? GoodStrat, or Good Strategy, is meant to be the antidote to all the Bad Strategy out there, i.e. most of British politics since 2010, and every single decision involving Chris, Janet or Bob Grayling. But rather than publishing neat bullet points and shiny consultancy-speak, GoodStrat.com delivers long, opinion-drenched blog posts written in the style of a lecturer who's just realised the lecture theatre is empty but decides to finish the slide deck anyway, out of sheer principle.

**Succession to High Office** Jack Goody,1966-01-02 Positions of authority in any society are limited in number, and therefore rules of selection must operate in their recruitment. There must also be limitations upon the range of authority exercised. These problems are particularly acute in the case of high office, where the questions of recruitment and succession are of central importance. This 1979 volume provides a general and theoretical analysis of succession in different traditional African societies. Jack Goody's introduction spells out the main ways in which systems of succession to office differ, and assesses the problem each system solves and the dilemmas it creates. He also analyses the tensions to which succession gives rise, and relates these to specific methods of transferring office from one generation to the next, The four case studies, all based on extensive fieldwork, consider succession among the Bausto, the Baganda, the Nyamwezi and the

Yorùbá Elites and Ethnic Politics in Nigeria Wale Adebani, 2014-03-31 Yorùbá Elites and Ethnic Politics in Nigeria investigates the dynamics and challenges of ethnicity and elite politics in Nigeria, Africa's largest democracy. Wale Adebani demonstrates how the corporate agency of the elite transformed the modern history and politics of one of Africa's largest ethnic groups, the Yorùbá. The argument is organized around the ideas and cultural representations of Obáfemi Awólowo, the central signifier of modern Yorùbá culture. Through the narration and analysis of material, non-material and interactional phenomena - such as political party and ethnic group organization, cultural politics, democratic struggle, personal ambitions, group solidarity, death, memory and commemoration - this book examines the foundations of the legitimacy of the Yorùbá political elite. Using historical sociology and ethnographic research, Adebani takes readers into the hitherto unexplored undercurrents of one of the most powerful and progressive elite groups in Africa, tracing its internal and external struggles for power.

*Maucher and Malik on Management* Helmut Maucher, Fredmund Malik, Farsam Farschtschian, 2013-10-02 They are maxims of the successful corporate leader: good managers always focus on their companies, never on themselves; good managers view themselves as being servants to, rather than masters of, the whole; and good managers run their businesses with the goal of achieving long-term success, not as if their companies were short-term profit-generating machines. In this collection, Fredmund Malik and Farsam Farschtschian focus on one exemplary manager: Helmut Maucher, the former Nestlé CEO who turned his company into a powerful global enterprise without being distracted by passing fads. The resulting book--a combination of interviews, essays, and other works by Maucher--offers a unique exchange of ideas between three of the world's corporate management pioneers.

Media Matter Francisca Comas Rubí, Karin Priem, Sara González Gómez, 2021-11-22 This volume discusses a broad range of themes and methodological issues around images, photography and film. It is about sharing a fascination about the visual history of education and how images became the most influential (circulating) media within the field of education on local, regional, national and international levels. Within this volume images are primarily analyzed as presenters, mediators, and means of observation. Images are seen as mobile reproducible media which play an active role within the public and educational sphere. They are means of observation and storytelling, they shape identities by presenting models of how we should act in and perceive the world, they circulate through different contexts and media, all of which impacts their meanings.

**Reading Football** Michael Oriard, 2000-11-09 Is football an athletic contest or a social event? Is it a game of skill, a test of manhood, or merely an organized brawl? Michael Oriard, a former professional player, asks these and other intriguing questions in *Reading Football*, the first contemporary book about football's formative years. American football began in the 1870s as a game to be played, not watched. Within a brief ten years, it had become a great public spectacle with an immense following, a phenomenon caused primarily by the voluminous commentary about the game conducted in popular newspapers and magazines. Oriard shows how this constant narrative in football's early years developed many different stories about what the game meant: football as pastime, as the sport of gentlemen, as a science, as a game of rules and their infringements. He shows how football became a series of cultural stories about power, luck, strategy, and deception. These different interpretations have been magnified by football's current omnipresence on television. According to Oriard, televised football now plays a cultural role of enormous importance for men, yet within the field of cultural studies the influence of football has been ignored until now. From the book: A receiver sprints down the sideline, fast and graceful, then breaks toward the middle of the field where a safety waits for him. From forty yards upfield the quarterback releases the ball; it spirals in an elegant arc toward the goalposts as the receiver now for the first time looks back to pick up its flight. The pass is a little high; the receiver leaps, stretches, grasps the ball--barely, fingers clutching--at the very moment that the safety drives a helmet into his unprotected ribs. The force of the collision flings the receiver backward, slamming him to the turf. . . . This familiar tableau, this exemplary moment in a football game, epitomizes the appeal of the sport: the dramatic confrontation of artistry with violence, both equally necessary.

Leadersmithing Eve Poole, 2017-03-09 Shortlisted for the Business Book Awards 2018 'Leadership' is in danger of becoming a tired phrase in the world of management - it may sound cerebral and important, but more often comes across as static and trite. Which might explain why so many 'leaders' feel like imposters; they may have a vision or masterplan, but the reality is daily messiness, acute uncertainty and fragile loyalty from team members. Often, they have been parachuted in to transform a complex situation, or promoted in unexpected circumstances. Are there more effective ways in which people can learn the art of being a great leader? Being an effective leader is about the daily grind, and it is a far from glamorous existence, but it can be hugely rewarding if leaders are realistic about the choices they face. In many trades and professions,

mastery of the subject can take a lifetime; leadership is no different. An apprenticeship approach can breathe life into the development of leaders, day in, day out. Using insights gained by Ashridge Business School about how leaders really learn, Leadersmithing guides readers through the process of becoming more precisely job-ready and more effectively resourced for the challenges they face. The result is a more confident leader, more perceptive as to their vocation and mandate, and able to maintain the most effective position at the very top of their game.
