Language and National Identity in Africa Andrew Simpson, 2008-02-07 This book focuses on language, culture, and national identity in Africa. Leading specialists examine countries in every part of the continent - Egypt, Morocco, Sudan, Senegal, Mali, Sierra Leone, Ghana, Ivory Coast, Nigeria, Cameroon, Congo, Kenya, Tanzania, Zambia, South Africa, and the nations of the Horn, Ethiopia, Eritrea, Djibouti, and Somalia. Each chapter describes and examines the country's linguistic and political history and the relation of its languages to national, ethnic, and cultural identities, and assesses the relative status of majority and minority languages and the role of language in ethnic conflict. Of the book's authors, fifteen are from Africa and seven from Europe and the USA. Jargon-free, fully referenced, and illustrated with seventeen maps, this book will be of value to a wide range of readers in linguistics, politics, history, sociology, and anthropology. It will interest everyone wishing to understand the dynamic interactions between language and politics in Africa, in the past and now.

Convergence: English and Nigerian Languages Ndimele, Ozo-mekuri, 2016-02-22 The present volume, which is the 5th in the Nigerian Linguists Festschrift Series, is devoted to Professor Munzali A. Jibril, a celebrated icon in university administration, and an erudite Professor of English Linguistics. The title of this special edition was specifically chosen to crown Professor Jibril's academic prowess in both English and indigenous Nigerian languages, and to mark and laud his official departure from active university lectureship. 72 assessed papers are included from the many submitted. Papers cover the main theme of the volume, i.e. the interaction between English and indigenous Nigerian languages, and there are a number of papers on other secular areas of linguistics such as: language and history, language planning and policy, language documentation, language engineering, lexicography, translation, gender studies, language acquisition, language teaching and learning, pragmatics, discourse and conversational analysis, and literature in English and African languages. There is also a rich section devoted to the major 'traditional' fields of linguistics - phonology, morphology, syntax and semantics.

How Many Languages Do We Need? Victor Ginsburgh, Shiomo Weber, 2011-04-04 In the global economy, linguistic diversity influences economic and political development as well as public policies in positive and negative ways. It leads to financial costs, communication barriers, divisions in national unity, and, in some extreme cases, conflicts and war--but it also produces benefits related to group and individual identity. What are the specific advantages and disadvantages of linguistic diversity and how does it influence social and economic progress? This book examines linguistic diversity as a global social

phenomenon and considers what degree of linguistic variety might result in the greatest economic good. Victor Ginsburgh and Shlomo Weber look at linguistic proximity between groups and between languages. They describe and use simple economic, linguistic, and statistical tools to measure diversity's impact on growth, development, trade, the quality of institutions, translation issues, voting patterns in multinational competitions, and the likelihood and intensity of civil conflicts. They address the choosing of core languages in a multilingual community, such as the European Union, and argue that although too many official languages might harm cohesiveness, efficiency, and communication, reducing their number brings about alienation and disenfranchisement of groups. Demonstrating that the value and drawbacks of linguistic diversity are universal, *How Many Languages Do We Need?* suggests ways for designing appropriate linguistic policies for today's multilingual world.

Readers will find a wealth of information on important contemporary issues like AIDS, human rights, petroleum, and faith-based conflict.

Languages and Education in Africa Birgit Brock-Utne, Ingse Skattum, 2009-05-11 The theme of this book cuts across disciplines. Contributors to this volume are specialized in education and especially classroom research as well as in linguistics, most being transdisciplinary themselves. Around 65 sub-Saharan languages figure in this volume as research objects: as means of instruction, in connection with teacher training, language policy, lexical development, harmonization efforts, information technology, oral literature and deaf communities. The co-existence of these African languages with English, French and Arabic is examined as well. This wide range of languages and subjects builds on recent field work, giving new empirical evidence from 17 countries: Botswana, Ethiopia, Ghana, Kenya, Madagascar, Malawi, Mali, Mozambique, Niger, Nigeria, Senegal, South Africa, Swaziland, Tanzania, Uganda, Zambia and Zimbabwe, as well as to transnational matters like the harmonization of African transborder languages. As the Editors - a Norwegian social scientist and a Norwegian linguist, both working in Africa - have wanted to give room for African voices, the majority of contributions to this volume come from Africa.

Nigerian Languages, Literatures, Culture and Reforms Ndimele, Ozo-mekuri, 2016-04-30 The papers in this volume

were selected from the Silver Jubilee edition of the Annual Conference of the Linguistic Association of Nigerian (LAN) which was held at the Nigerian Educational Research and Development Council (NERDC), Abuja, Nigeria. The Silver Jubilee edition is dedicated to the father of Nigerian Linguistics, Professor Emeritus Ayo Bamgbose. Professor Emeritus Bamgbose was the first indigenous Professor of Linguistics in Nigeria, and the first black African to teach linguistics in any known university south of the Sahara. He was there from the very beginning, and together with co-operation of people such as the late Professor Kay Williamson, he nurtured Nigerian linguistics. He is not just a foremost Nigerian linguist, but also a most famous, respected, celebrated, distinguished, and cherished African linguist of all times. To be candid, Nigerian linguistics is synonymous with Professor Emeritus Bamgbose. In 58 well-written chapters by experts in their fields, the book covers aspects of Nigerian languages, linguistics, literatures and culture. The papers have not been categorized into sections; rather they flow, hence there is some overlapping in the arrangement. The book is an essential resource for all who are interested to learn about current trends in the study of languages, linguistics and related subject-matters in Nigeria.

Fragmented Identities of Nigeria John Ayotunde Isola Bewaji, Rotimi Omosulu, 2022-01-27 In *Fragmented Identities of Nigeria: Sociopolitical and Economic Crises*, edited by John Ayotunde Isola Bewaji and Rotimi Omosulu, readers are offered essays which explore the historiogenesis and ontological struggles of Nigeria as a geographical expression and a political experiment. The transdisciplinary contributions in this book analyze Nigeria as a microcosm of global African identity crises to address the deep-rooted conflicts within multi-ethnic, multi-linguistic, multi-religious, and multicultural societies. By studying Nigeria as a country manufactured for the interests of colonial forces and ingrained with feudal hegemonic agendas of global powers working against the emancipation of African people, *Fragmented Identities of Nigeria* examines the history, evolution, and consequences of Nigeria's sociopolitical and economic crises. The contributors make suggestions for pulling Nigeria from the brink of an identity implosion which was generated by years of misgovernance by leaders without vision or understanding of what is at stake in global black history. Throughout, the collection argues that it is time for Nigeria to reassess, renegotiate, and reimagine Nigeria's future, whether it be through finding an amicable way the different ethnicities

can continue to co-exist as federating or confederating units, or to dissolve the country which was created for economic exploitation by the United Kingdom.

African Culture and Global Politics Toyin Falola,Danielle Sanchez,2014-01-10 This volume attempts to insert itself within the larger discussion of Africa in the twenty-first century, especially within the realm of world politics. Despite the underwhelming amount of attention given to Africa's role in international politics in popular news sources, it is evident that Africa has a consistent record of participating in world politics- one that pre-dates colonization and continues today. In continuance of this legacy of active participation in global political exchanges, Africans today can be heard in dialogues that span the world and their roles are impossible to replace by other entities. It is evident that a vastly different Africa exists than ones that bolster images of starvation, corruption, and compliance. The essays in this volume center on Africa and Africans participating in international political discourses, but with an emphasis on various forms of expression and philosophies, as these factors heavily influence Africa's role as a participant in global politics. The reader will find a variety of essays that permeate surface discussions of politics and political activism by inserting African culture, rhetoric, philosophies into the larger discussion of international politics and Africa's role in worldwide political, social, and economic debates.

An International Handbook offers a comprehensive overview of current topics in research on language contact. Broadly conceived, it stands out for its international approach to language contact, complementing the theoretical state-of-the-art

with examples from traditionally eclipsed areas and languages. Next to a thorough introductory overview of the ground-breaking methodological and theoretical approaches that shaped the discipline, ample attention goes to the new and innovative insights on language contact in the 21st century. Combining concise introductory contributions with in-depth treatment of the most relevant case studies in the field, the handbook speaks to both junior and established scholars.

The Languages of West Africa Diedrich Westermann, M. A. Bryan, 2017-09-22 This volume, originally published in 1970, presents a survey of the languages spoken in an area extending from the Atlantic coast at the Sengal River eastward to the Lake Chad region. The area covered by this volume is mainly a geographical one, so it follows that not all the languages included are related to one another, though a certain degree of homogeneity appears.

Language Pedagogy and Language Use in Africa Lioba Moshi, 2009-10-23 The study of African language pedagogy and use in the Diaspora was initiated in the 1960s as African countries attained independence from colonial powers. In the continent, the enthusiasm for the use of indigenous languages and scholarship has remained relatively moderate as scholars are conflicted in their loyalty to imperial languages. The attitude towards the use of African languages by African leaders has also hampered scholars' efforts to create and sustain the needed visibility for African languages around the world. Needless to say, the study of African languages is not only critical to the study of language theories but also important in changing Africa's overwhelming reliance on European languages to communicate with each other. The reliance has not only affected the politics of the continent but also its economic wellbeing. An analysis of the enormous developmental challenges facing the African continent will reveal that many of the economic, social, political and cultural challenges have major language components. It can actually be said that the challenges of development in Africa are either outright language challenges or are language-based. More significantly, at the social level in many parts of the continent, African languages are now perceived as inadequate means of communication. *Language Pedagogy and Language Use in Africa* discusses the importance of teaching and using of African languages in the African continent and beyond and provides illustrations of both their direct and indirect use as a result of historical and contemporary contacts, language planning policies and pedagogical concerns. The book contributes to the on-going discussion on the pedagogy, promotion, and use of African languages both on the continent and in the Diaspora.

Discourses in Sport Communication in Africa and the African Diaspora Unwana Samuel Akpan, 2024-07-25 This book explores sport communication in Africa and the African diaspora. Drawing on multidisciplinary perspectives, it deepens our understanding of the importance of sport in African society as well as the profound and growing influence of the African diaspora in world sport, as athletes, scholars, leaders, and business and media professionals. Including contributions from leading African researchers and experts on sport in Africa across the fields of sociology, history, business, communication studies, media studies, and education, this book examines sport communication across a wide variety of contexts and

countries, from the role of radio in developing awareness of the Olympic Games in Nigeria to the impact of Colin Kaepernick's protest on journalistic practices in Historically Black Colleges and Universities in the USA. Presenting fascinating case studies such as print media and the historiography of football in Cameroon, racism in European football, and the relationship between sport, communication policy-making, and sustainable development in Africa, this book shines new light on key themes in the study of sport communication. This is fascinating reading for anybody with an interest in social-cultural issues in sport, the business and management of sport, sport and the media, African studies, or development studies.

Language and the Construction of Multiple Identities in the Nigerian Novel Romanus Aboh, 2018-12-28 Language and the construction of multiple identities in the Nigerian novel examines the multifaceted relation between people and the various identities they construct for themselves and for others through the context-specific ways they use language. Specifically, this book pays attention to how forms of identities ethnic, cultural, national and gender are constructed through the use of language in select novels of Adichie, Atta and Betiang. Employing an interdisciplinary approach, this book draws analytical insights from critical discourse analysis, literary discourse analysis and socio-ethno-linguistic analysis. This approach enables the author to engage with the novels, to illuminate the link between the ways Nigerians use language and the identities they construct. Being a context-driven analysis, this book critically scrutinises literary language beyond stylistic borders by interrogating the micro and macro levels of language use, a core analytical paradigm frequently used by discourse analysts who engage in critical discourse analysis.

Development in Nigeria Edlyne Eze Anugwom, 2020-04-13 This book unravels the trajectories and dilemmas of development in Nigeria since its independence in 1960. Despite enormous human and material resources, development progress in Nigeria has not met expectations. By delving into the various factors that have influenced development efforts and initiatives, *Development in Nigeria: Promise on Hold?* aims to draw out lessons to help the country to achieve its potential. In many ways Nigeria typifies the African puzzle of near-misses, a never-ending drive towards development with enormous promise but no real practical output. As in many states within Africa, these failures can be traced to structural inadequacies and the perennial weakness of public institutions. Problems which collectively undermine sustainable development and growth include political corruption, ethnicity, failure of public institutions, distributional injustice, fiscal centralism in a purported federal state, faulty democratic traditions, malevolent elite class, religious and social conflicts, among others. By taking a comprehensive panoramic overview of the country's historical experience as both a military dictatorship and democracy, Edlyne Eze Anugwom presents a nuanced, comprehensive and contemporary interrogation of the ever-dynamic forces and factors in Nigeria's development project. This book's incisive examination of Nigeria's development aspirations over time will be of interest to students of Development and African Studies, as well as to practitioners and multilateral agencies involved in development planning and intervention in Nigeria who are looking for

strategies for overcoming the challenges facing the country.
