Problemas actuales de política educativa Manuel de Puelles, 2009-07-30 La educación ha sido hasta tiempos históricamente recientes un bien escaso, monopolizado por minorías privilegiadas. Esto explica las luchas sociales y políticas que en torno a la educación se libraron en los dos últimos siglos, similares a aquéllas que reivindicaron una mejor distribución de otros bienes escasos, como el poder o los recursos económicos. Es verdad que el siglo XX se caracterizó por un notable avance en la democratización de la educación, esto es, en el acceso universal a la educación básica, obligatoria y gratuita; sin embargo, la educación no dejó de ser conflictiva, desplazándose ahora la pugna social y política hacia la obtención de otro bien escaso: la calidad de la educación. El siglo XXI se abre con ese gran reto: la equitativa distribución de una educación de calidad para todos. Este libro se ocupa básicamente de los problemas reseñados. De ahí que la educación sea contemplada desde una óptica social y política, analizándose los conflictos que suscitaron, y suscitan, las políticas de libertad y de igualdad aplicadas a la educación, los problemas que plantea una escuela integrada que aspire a hacer posible una educación básica de calidad para toda la población escolar, los dilemas que alumbran las inacabables reformas educativas de nuestros días y, como marco actual ineludible, la relación problemática de la globalización con la educación. El libro se cierra, finalmente, con la consideración de la educación como un derecho social, una de las conquistas del siglo XX, en el contexto de la crisis del Estado de bienestar y de la aparición del neoliberalismo, nuevo fenómeno político que ha tenido una especial incidencia en las políticas educativas de nuestro tiempo. De este modo, Manuel de Puelles Benítez presenta en este libro los problemas de política educativa más actuales y que afectan al llamado mundo occidental (Europa, Estados Unidos y América Latina).

Entre ciencia y filosofía: algunos problemas actuales Germán Guerrero Pino, 2008-10-15 Entre ciencia y filosofía: algunos problemas actuales tiene el mérito de ser la primera obra colectiva del grupo de investigación Episteme: Filosofía y Ciencia, dirigido por el profesor Germán Guerrero Pino, y contiene 24 artículos sobre distintos campos recientes de la filosofía: filosofía e historia de la ciencia, filosofía de las matemáticas, filosofía de la mente, filosofía del lenguaje y filosofía de la biología. La vida general que unifica la colección de artículos es que hay una amplia zona de problemas filosóficos interesantes, algunos tradicionales y otros nuevos, en los que ciencia y filosofía pueden hacer causa común a la hora de adelantar soluciones.

Materiales para la historia del mundo actual Fernando Martínez Rueda, 2006 La publicación de Materiales para la Historia del mundo actual viene a llenar un vacío editorial considerable, con la selección y recopilación de los documentos más significados e importantes de la historia desde el final de Segunda Guerra Mundial. Compuesto de textos, mapas, gráficos y tablas de datos, su presentación y ordenación hacen de este libro algo más que una mera recopilación. Estamos ante un auténtico y original manual de Historia actual en el que los temas, en vez de explicarse minuciosamente, se ilustran a través de los documentos. Los dos volúmenes que conforman esta obra se organizan en cuatro bloques: El mundo bipolar, El mundo capitalista, El mundo socialista y El Tercer Mundo, precedidos todos de una breve introducción que contextualiza y sitúa los documentos en un marco temático concreto.
