Free Marcus Katz Howard Marc Chesley,2022-01-28 Woven into his odd, chatty Yelp reviews of restaurants, stores and services, 22-year-old Aspie Marcus Katz chronicles in vivid detail how, after the death of his doting mother, he is railroaded by the Los Angeles probate court into an abusive conservatorship. When his bullying conservator tries to warehouse him in a run-down, dead-end group home, intending to drain his inheritance, Marcus runs away to Oregon, pursued by his conservator, on a risky, ill-advised road trip to meet up with fellow Aspie Durinda, a devoted fan of his now viral Yelp reviews. She lives with others also on the autism spectrum on a collective farm in rural Oregon. It is here that Marcus hopes to make a stand and finally take control of his life.

Retranslation and Reception ,2022-08-22 This is the first complete study of the relationship between Retranslation and Reception. Although many translation scholars have cited Reception Theory in their work, this is the first systematic study of its relationship to Retranslation. The book starts from the hypothesis that frequent retranslations of the same literary text into the same language may be indicative of its impact in the target culture. The volume encompasses both theory and practical analysis of Retranslation and Reception as mutually dependent concepts. The sixteen chapters relate the translations analysed to their socio-historical contexts in order to assess the impact that they have had on the target culture in terms of the reception of the authors studied, and also explore the relationship that may exist between the appearance of new translations and historical, social or cultural changes.

Community Practice in the Network Society Peter Day,Doug Schuler,2004-08-02 Around the world, citizens in local communities are utilising ICTs to underpin the creation of a participatory and democratic vision of the network society. Embedded in the richness and diversity of community practice, a vision of a 'civil network society' is emerging. A society where ICTs are harnessed as tools to improve the quality of life and reflect the diversity of social networks; where people are viewed as citizens, not just as consumers, and where heterogeneity is perceived as a strength rather than a weakness. *Community Practice in the Network Society* looks at the broad context in which this is happening, presents case studies of local projects from around the world, and discusses community ICT research methodologies. Not only does it highlight the symbiotic relationship between community ICT practice and research, but it also provides evidence supporting the case for the development of more inclusive and participatory pathways to the network society.

Tails from the Classroom Dr Russell Grigg, Helen Lewis, 2021-01-14 Written by Helen Lewis and Russell Grigg, *Tails from the Classroom: Learning and teaching through animal-assisted interventions (AAIs)* is a fascinating exploration of the use of AAIs in educational settings and how they can inspire and support learners' all-round development. There is growing interest in the idea of bringing animals into the classroom, but it is only recently that researchers have gathered clear data to show the impact of AAIs on the behavioural, emotional, physical and cognitive development of children and young people. *Tails from the Classroom* brings together this research in a highly accessible way, illustrated with real-life case studies from a range of classroom contexts. It also includes lots of practical guidance on how to set up, manage and evaluate a project, ensuring that the welfare of all participants, including the animals, is a priority. Helen and Russell discuss how AAIs can contribute towards learning in different subject areas and across the curriculum, sharing a wide range of examples to illustrate possible starting points for teachers in a range of subject and thematic contexts - even in less obvious areas such as the arts, literature, and religious and moral codes. They also provide a historical overview of human-animal interactions, highlighting how animals have played a central part in humans' social, spiritual and cultural development. This then underpins the authors' exploration into animals' potential role in enhancing particular dimensions of children's social, emotional, intellectual and physical development and well-being. This groundbreaking book is not just for animal-loving educators, however. It is for anyone who is serious about inspiring learners of all ages and prepared to explore new ways of doing so. Suitable for educators working with learners of all ages.

The Little Prince Antoine de Saint-Exupéry, 2023-01-24 A beautifully illustrated tribute to celebrate 80 years of The Little Prince. In 2023, The Little Prince will celebrate 80 years of unsurpassed success. It is one of the most published and translated books in the world (by some accounts, second only to The Bible). Never before have its themes of loneliness, loss, love, and friendship been more relevant. While The Little Prince is packaged for children, it is appreciated and celebrated by all ages. This edition includes the entire, unmodified, original text by Antoine de Saint-Exupéry, first published in English after his exile to the U.S. in 1943. The story is accompanied by exclusive illustrations from Mondo Mombo, a well-known, Italian children's-art firm founded by Claudia Bordin.

The Book of Barely Imagined Beings Caspar Henderson, 2013-05-02 "Caspar Henderson takes us on an eye-opening tour of real animals that no sane human could ever have invented." —Frans de Waal, New York Times–bestselling author With The Book of Barely Imagined Beings, Caspar Henderson offers readers a fascinating, beautifully produced modern-day menagerie. But whereas medieval bestiaries were often based on folklore and myth, the creatures that abound in Henderson's book—from the axolotl to the zebrafish—are, with one exception, very much with us, albeit sometimes in depleted numbers. The Book of Barely Imagined Beings transports readers to a world of real creatures that seem as if they should be made up—that are somehow more astonishing than anything we might have imagined. The yeti crab, for example, uses its furry claws to farm the bacteria on which it feeds. The waterbear, meanwhile, is among nature's "extreme survivors," able to withstand a week unprotected in outer space. These and other strange and surprising species invite readers to reflect on what we value—or fail to value—and what we might change. A powerful combination of wit, cutting-edge natural history, and philosophical meditation, The Book of Barely Imagined Beings is an infectious and inspiring celebration of the sheer ingenuity and variety of life in a time of crisis and change. "The Book of Barely Imagined Beings is one that Pliny would have envied, Darwin applauded, and Borges relished . . . In these days of doom and gloom, I can think of nothing more rejoicing than Caspar Henderson's magical book." —Alberto Manguel, author of A History of Reading "Magnificent, bravura, beautiful and astoundingly interesting." —The Sunday Times "Spell-binding, brilliantly executed, extraordinary." —The Guardian
