13 Reasons Why NOT to Kill Yourself Lisa Hanson, 2022-05-10 This Is Your Anti-Suicide Note... I'm writing this note to YOU because I want you to know your life has great value. There are many books about preventing suicide, but few are written for those who want to commit suicide. This book is that book. This is a direct note to YOU...your anti-suicide note. Maybe you've been abandoned, abused, mocked, or humiliated. Perhaps you have sunk so low into despair that you think there's no way to overcome what you are feeling. Feeling helpless, broken, abused, or unwanted is terrible, BUT you are not alone. Many have felt this way and overcame it. You can overcome too. I've been through pain as well, and that's how I KNOW there is hope for you. I'm not sharing tips or strategies. This is a note from my heart to yours because I care about your life very much. Things will get better. God wanted me to write this book for you. To show you that you have a purpose. He has a plan for you. Even if you don't know HIM. May your heart be open, your mind healed, and your life long. I hope you will write to me and tell me: I chose LIFE. You are greatly loved, Lisa Hanson

**Youth and Suicide in American Cinema** Alessandra Seggi, 2022-10-27 This book explores the depiction of suicide in American youth films from 1900 to 2019. Anchored in Sociology, this multidisciplinary study investigates the causes and consequences of suicide and uncovers the socio-cultural context for the development of youth, film, and suicide. While such cinematic portrayals seem to privilege external explanations of suicide versus internal or psychological ones, overall they are neither rich nor sensitive. Most are simplistic, limited or at the very least unbalanced. At times, they are flatly controversial. In light of this overall problematic depiction of suicide, this book offers a proactive approach to empower young audiences—a media literacy strategy to embrace while watching these films.

Generation Z Corey Seemiller, Meghan Grace, 2018-11-02 No other generation in history has received as much coverage as the Millennial generation. Books, Google searches, blogs, and news articles are everywhere about them. Yet, Generation Z is comprised of our youth and young adults today and has received very little attention comparatively. Those in Generation Z are among our youngest consumers, students, colleagues, constituents, voters, and neighbors. Being able to better understand who they are and how they see the world can be helpful in effectively working with, teaching, supervising, and leading them. *Generation Z: A Century in the Making* offers insight into nearly every aspect of the lives of those in Generation Z, including a focus on their career aspirations, religious beliefs and practices, entertainment and hobbies, social concerns, relationships with friends and family, health and wellness, money management, civic engagement, communication styles, political ideologies, technology use, and educational preferences. Drawing from an unprecedented number of studies with higher education research institutions, market research firms such as Pew and Census, other generational researchers and industry leaders, this is the authoritative defining work on Generation Z that market researchers, consumer behaviour specialists, and employers sorely need – and it is a fascinating read for anyone interested in the sociology of generations.
