Stardom in Cinema, Television and the Web Vanni Codeluppi, 2021-03-01 In the last 50 years, the social importance of stars has steadily grown, to the point that stars have now become key role models who strongly influence people's behaviours. This book considers the connections between the three main media (cinema, television and the web) and each of the three phases into which the history of stardom can be divided. The first phase can largely be credited with the creation and codification of contemporary stardom, while the second is linked to the spread of television, which weakened the Hollywood stardom model and gradually transformed the figure of the star, making it more intimate and familiar. In the last of these phases, we have many 'outsiders' (personalities from a variety of professional domains and experiences) who are able to achieve considerable social visibility thanks to their skilful use of the web.

Pedagogical and Technological Innovations in (and through) Content and Language Integrated Learning Alba Graziano, Barbara Turchetta, Fausto Benedetti, Letizia Cinganotto, 2021-05-14 Widely spread all over Europe and the world, Content and Language Integrated Learning (CLIL) is the subject of great interest as the ultimate frontier of linguistic and pedagogical research. It impinges on the general cognitive processes involved in learning, on language acquisition and on the development of digital competencies. This volume attests to the spreading of the new "CLIL literacy" in the frame of pluriliteracies, and derives theoretical reflections from case studies and experiential reports, thus addressing both academic and school instructors. It combines research from international CLIL experts with the critical perspectives of academics not directly involved in its instruction.

Race and White Identity in Southern Fiction J. Duvall, 2008-04-28 White southern writers are frequently associated with the racism of blackface minstrelsy in their representations of African American characters, however, this book makes visible the ways in which southern novelists repeatedly imagine their white characters as in some sense fundamentally black.

Serialization in Literature Across Media and Markets Sara Tanderup Linkis, 2021-12-24 Serialization is an old narrative strategy and a form of publication that can be traced far back in literary history, yet serial narratives are as popular as ever. This book investigates a resurgence of serial narratives in contemporary literary culture. Analyzing series as diverse as Mark Z. Danielewski's experimental book series *The Familiar*; audiobook series by the Swedish streaming service Storytel; children's books by Lemony Snicket and Philip Pullman and their adaptations into screen; and serial writing and reading on the writing site Wattpad, the book traces how contemporary series at once are shaped by literary tradition and develop the format according to the logics of new media and digital technologies. The book sheds light on the interplay between the selected serials' narrative content and medial, social, and economic contexts, drawing on insights from literary studies, literary sociology, media studies, and cultural studies. *Serialization in Literature Across Media and Markets* thus contributes a unique and interdisciplinary perspective on a historical phenomenon that has proved ever more successful in contemporary media culture. It is a book for researchers and students of literature and media and for anyone who likes a good series and wants to understand why.

Alternatives within the Mainstream II Dimple Godiwala,2008-12-18 Alternatives Within the Mainstream II follows from the first volume's dedication to a critical appreciation of and a tracing of trajectories of the theatres of our Others on the British stage. The first volume Alternatives Within the Mainstream: British Black and Asian Theatres traced a history of Black and Asian British plays, playwrights, theatre companies and theatre voices. The two volumes celebrate the plurality on the post-war British stage in terms of class, gender, race and sexualities. Alternatives Within the Mainstream II: Queer Theatres in Post-war Britain is an introduction to queer sexualities and their presence on the post-war British stage. From an introduction which addresses the possibilities of an undoing of repressiveness in desiring another, this volume charts a history of queer on the British stage, from a climate of sexual repressiveness and criminalisation, to a period of legal acceptance of homosexual desire. It covers gay, les, trans and queer British theatres, the influence of American queer theatre, AIDS consciousness, black queer theatre and television drama. Alternatives Within the Mainstream II: Queer Theatres in Post-war Britain is aimed as an introductory text which introduces the several plays, playwrights, theatre companies and queer theorists to students and scholars of contemporary queer British theatres. This book is dedicated to Anthony Blair and the Labour government for bringing in the Civil Partnerships Act.

Chazzonos Lyle Rockler,2011-06-21 Cantor Hal Perlmutter's life is about to change forever. After he learns he has just inherited an unexpected windfall, Cantor Hal must decide whether to leave the temple where he has given away his neshama and his kishkes for almost twenty years. But Cantor Hal has no idea of the whirlwind of challenges that await him. Cantor Hal is well-respected among many in his community, but circumstances of his personal life are a source of contention for many. Divorced, with a gay son who lives with him and an orthodox daughter who lives with her mother, Cantor Hal faces not only

the complex decision whether to leave his bittersweet career, but also whether he should remarry. Worse yet, his son has taken up with a much older man, and his daughter is angry at her father for his liberal ways. In the midst of his uncertainty, Cantor Hal longs for nothing more than the days when a powerful era of cantorial artistry reigned. In this poignant tale that provides a compelling glimpse into a contemporary Jewish community, a cantor must look within to find the answers that have the power to lead him to a new beginning.

Categories We Live By Gregory L. Murphy,2024-01-09 An in-depth analysis of how humanity's compulsion to categorize affects every aspect of our lived experience. The minute we are born—sometimes even before—we are categorized. From there, classifications dog our every step: to school, work, the doctor's office, and even the grave. Despite the vast diversity and individuality in every life, we seek patterns, organization, and control. In *Categories We Live By*, Gregory L. Murphy considers the categories we create to manage life's sprawling diversity. Analyzing everything from bureaucracy's innumerable categorizations to the minutiae of language, this book reveals how these categories are imposed on us and how that imposition affects our everyday lives. *Categories We Live By* explores categorization in two parts. In part one, Murphy introduces the groundwork of categories—how they are created by experts, imperfectly captured by language, and employed by rules. Part two provides a number of case studies. Ranging from trivial categories such as parking regulations and peanut butter to critical issues such as race and mortality, Murphy demonstrates how this need to classify pervades everything. Finally, this comprehensive analysis demonstrates ways that we can cope with categorical disagreements and make categories more useful to our society.

Otherworld Adair Hart,2020-08-20 Investigating cases can be hard, especially when they involve another world. Earth Ward Inspector Dalton Kingston's cases have been getting harder since his arrival to this Earth six months ago. They're taking a physical toll on him. Forming a team is not only a good idea, but it will help him address his next case. A rash of murders and disappearances in Southern Ohio normally would not be something he investigated. However, when it's the Tanner Pack, a vicious werewolf, making the request for help, that's another story. Dealing with the case is one issue, but doing it with a new team is a challenge unto itself. They must navigate a powder keg of various factions and solve the case or risk losing a potential new Earth Ward ally. Dalton finds himself in a familiar role and providing what comes naturally to him—leadership.
