**Desperate Measures** Claire Fontijn, 2006-10-19 One of the most fascinating figures of seventeenth-century music, composer and singer Antonia Padoani Bembo (c.1640 - c.1720) was active in both Venice and Paris. Her work provides a unique cross-cultural window into the rich musical cultures of these cities, yet owing to her clandestine existence in France, for almost three centuries Bembo's life was shrouded in mystery. In this first-ever biography, Clare Fontijn unveils the enthralling and surprising story of a remarkable woman who moved in the musical, literary, and artistic circles of these European cultural centers.

*Italian Reform and English Reformations, c.1535–c.1585* M. Anne Overell,2016-05-06 This is the first full-scale study of interactions between Italy's religious reform and English reformations, which were notoriously liable to pick up other people's ideas. The book is of fundamental importance for those whose work includes revisionist themes of ambiguity, opportunism and interdependence in sixteenth century religious change. Anne Overell adopts an inclusive approach, retaining within the group of Italian reformers those spirituali who left the church and those who remained within it, and exploring commitment to reform, whether 'humanist', 'protestant' or 'catholic'. In 1547, when the internationalist Archbishop Thomas Cranmer invited foreigners to foster a bolder reformation, the Italians Peter Martyr Vermigli and Bernardino Ochino were the first to arrive in England. The generosity with which they were received caused comment all over Europe: handsome travel expenses, prestigious jobs, congregations which included the great and the good. This was an entry con brio, but the book also casts new light on our understanding of Marian reformation, led by Cardinal Reginald Pole, English by birth but once prominent among Italy's spirituali. When Pole arrived to take his native country back to papal allegiance, he brought with him like-minded men and Italian reform continued to be woven into English history. As the tables turned again at the accession of Elizabeth I, there was further clamour to 'bring back Italians'. Yet Elizabethans had grown cautious and the book's later chapters analyse the reasons why, offering scholars a new perspective on tensions between national and international reformations. Exploring a nexus of contacts in England and in Italy, Anne Overell presents an intriguing connection, sealed by the sufferings of exile and always tempered by political constraints. Here, for the first time, Italian

reform is shown as an enduring part of the Elect Nation's literature and myth.

*The Love of God* John C. Peckham,2015-07-28 Theology has constantly wrestled with the nature of God's love and what it means for how God relates to the world. In this comprehensive canonical theology of divine love, John C. Peckham argues for an account that avoids the errors of both voluntarist and experientialist theologies and faithfully represents the full biblical witness.
