

La Vie Prive Des Hommes

John Milton

The Right to Life Christian Tomuschat,Evelyne Lagrange,Stefan Oeter,2010-03-08 The right to life stands at the heart of human rights protection. Individuals cannot enjoy any of the rights guaranteed to them unless their physical existence is ensured. All human rights instrument list the right to life as the first one of their safeguards. Nonetheless, in many situations human life finds itself under structural threat. Although obligated by law to protect the right to life, State authorities time and again engage in deliberate acts of killing. Fortunately, international review bodies have devised many imaginative counter-strategies. Another one of those structural threats is global warming. Obviously, armed conflict puts human life inevitably at risk; the limits of the 'license to kill' given by the laws of war must be scrupulously observed.

Artists' Lives Michael Peppiatt,2024-09-05 Praised by the Art Newspaper as the best art writer of his generation, Michael Peppiatt has encountered many European modern artists over more than fifty years. This selection of some of his best biographical writing covers a wide spectrum of modern art, from Van Gogh and Pierre Bonnard, to personal conversations with painter Sonia Delaunay, artist Dora Maar, who was Picassos lover in the 1930s and 1940s, and Francis Bacon, perhaps the most famous of the many artists with whom Peppiatt has formed personal friendships. Michael Peppiatts lively, engaging writing takes us into the company of many notable art-world personalities, such as the Catalan painter Antoni Tàpies, whom he visits in his studio, and moments of disillusion, such as his meeting with the self-mythologizing artist Balthus. Art criticism blends with anecdote: riding with Lucian Freud in his Bentley, drinking with Bacon in Soho, discussing Picassos trousers with David Hockney... This collection of Peppiatts most perceptive texts includes under-recognized artists, such as Dachau

survivor Zoran Music, or Montenegrin artist Dado, whose retrospective Peppiatt curated at the 2009 Venice Biennale. Remarkably varied in their scope and lucidly written for a general reader, these selected essays not only provide us with perceptive commentary and acute critical judgment, they also give a unique personal insight into some of the greatest creative minds of the modern era.

The Influence of Human Rights and Basic Rights in Private Law Verica Trstenjak,Petra Weingerl,2015-12-16 This book provides a comparative perspective on one of the most intriguing developments in law: the influence of basic rights and human rights in private law. It analyzes the application of basic rights and human rights, which are traditionally understood as public law rights, in private law, and discusses the related spillover effects and changing perspectives in legal doctrine and practice. It provides examples where basic rights and human rights influence judicial reasoning and lead to changes of legislation in contract law, tort law, property law, family law, and copyright law. Providing both context and background analysis for any critical examination of the horizontal effect of fundamental rights in private law, the book contributes to the current debate on an important issue that deserves the attention of legal practitioners, scholars, judges and others involved in the developments in a variety of the world's jurisdictions. This book is based on the General Report and national reports commissioned by the International Academy of Comparative Law and written for the XIXth International Congress of Comparative Law in Vienna, Austria, in the summer of 2014.
