**Karen Farrington**

**Prison Conditions in South Africa** Human Rights Watch (Organization), 1994 While visiting over twenty prisons as well as lockups in at least five different cities throughout South Africa, we found significant improvements had been made since the political climate began to change in 1990. Nevertheless, South Africa's prisoner-to-population ratio is among the highest in the world, and many aspects of prison life remain depressingly unchanged from the years of official apartheid. South African prisons are places of extreme violence, where assaults on prisoners by guards or fellow inmates are common and often fatal.

**Street Gangs Throughout the World** Herbert Covey, 2021-07-01 This new third edition provides an update on what is known about street gangs throughout the world and summarizes some of the major works on street gang phenomena. It focuses on those countries that have a greater presence in the literature. Chapter 1 introduces the reader to the topic of street gangs throughout the world. Chapter 2 identifies some of the challenges faced by scholars when studying gangs in different countries. Chapter 3 reviews some of the basic research on street gangs in the United States and Canada. Chapter 4 covers what is known about street gangs in Europe and Russia. Chapter 5 reviews the literature on street gangs in one of the hottest areas of the world for gangs, Central America. In addition, this chapter examines South American and Caribbean gangs. Street gangs in Brazil, El Salvador, Guatemala, Jamaica, Brazil, Mexico, Nicaragua, Trinidad, and other countries are covered. The presence of street gangs and gang violence in these and other countries has been identified as a major factor in the mass migration of refugees to the United States. Chapter 6 reports on the street gangs of Africa. Research on gangs in South Africa goes back decades and the country has a unique history on how gangs evolved. Other countries, such as Egypt, Nigeria, and Kenya are developing a body of literature that highlights the distinctive nature of gangs and gang members in these countries. Chapter 7 addresses street gangs in Asia, including China, India, Hong Kong (post-reunification), Japan, and other countries. This chapter provides rare glimpses of gangs in China, a relatively secretive country. Although different in many ways from gangs in Asia, information is also included here about gangs in Australia and New Zealand. Practitioners in the criminal justice and juvenile justice fields will find this book to be a valuable resource.

Strategic Notes on Third Generation Gangs John P. Sullivan, 2020-04-02 Strategic Notes on Third Generation Gangs builds upon the third generation street gang (3Gen Gang) theory first articulated in a series of papers by John P. Sullivan in 1997. From that foundation, Dr. Sullivan and Dr. Robert J. Bunker, editors of this volume, and others have expanded that core to articulate the threat that sophisticated gangs with transnational reach and political dimensions pose to community, national, and global security. This Small Wars Journal-El Centro Anthology provides empirical depth to their theoretical perspective, bringing together strategic notes and essays on third generation gangs and military-trained gang members with new content assessing the theoretical and policy ramifications of both theory and reality on the ground. - Dave Dilegge, SWJ Editor-in-Chief

**Global Perspectives on Youth Gang Behavior, Violence, and Weapons Use** Harding, Simon, Palasinski, Marek, 2016-02-02 Youth violence has become a concern as gangs become a popular option for urban children and teenagers and weapons use among young populations becomes more prevalent. Exploring the psychological motivations and foundations upon which such violence is developed and cultivated can assist in better understanding the modern dilemma of violence, weapons use, and gang behavior among children, teenagers, and young adults. Global Perspectives on Youth Gang

Behavior, Violence, and Weapons Use reconsiders the traditional understandings of youth violence in various forms, such as gang activities, criminal behavior, and weapons use. Focusing on the psychosocial elements of violence among children, teenagers, and young adults, this timely publication is ideally designed for use by policy makers and government executives, professionals, educators, and graduate-level students involved in psychology, criminology, social work, and criminal justice studies.

They are known to operate primarily in the Western Cape prison of Pollsmoor, however it is thought that they control most of the South African prisons. Although the origins of the gang remain sketchy at best, there is one story that has been passed down from teacher to student over the years. It is the story of Nongoloza and Kilikijan. The entire story begins with a man named Po who was said to embody the interests of all black people. Po noticed that young men left their homelands and went to the mines never to return. He then wondered why this was the case and ventured off to the mines to find out why. When he saw how they lived and how they were treated Po became upset. He went off to his cave near Pietermaritzburg and pondered, finally coming to the decision that deliverance of these young men was necessary. One day Po spotted a young Zulu man who identified himself as Nongoloza who said he was on his way to the mines to look for work. Po then warns the young man of the conditions in the mines, telling him they will ultimately lead to his demise. Po then persuades Nongoloza to join him in his crusade against...

*Global Flows, Local Appropriations* Sindre Bangstad, 2007 *Global Flows, Local Appropriations; Facets of Secularisation and Re-Islamization Among Contemporary Cape Muslims* is the first ethnographic study of muslims in Cape Town, South Africa at this level in 25 years. It explores processes of secularisation and re-islamization among Cape Muslims in the context of a post-apartheid South Africa in which liberal and secular values have attained considerable purchase in the new political and social elites. Fractured by status, ethnicity and religious orientation, Cape muslims have responded to these changes through an ambiguous accomodation with the new order. This study explores this development through chapters on conversions to Islam among black Africans in Cape Town, Cape women's experiences with polygyny, Cape muslims and HIV/AIDS, the status of Islam in a prison Cape Town in the post-apartheid era and on contestation over rituals among Cape muslims.

**Power on the Inside** Mitchel P. Roth, 2020-11-05 *Power on the Inside* is the first book to examine the historical development of prison gangs worldwide, from those that emerged inside mid-nineteenth-century Neapolitan prisons to the new generation of younger inmates challenging the status quo within gang subcultures today. Historian-criminologist Mitchel P. Roth examines prison gangs throughout the world, from the Americas, Oceania, and South Africa to Southeast Asia, Europe, and beyond. The book examines the many variables that influence the evolution of prison subcultures, from colonialism and population demographics to prison architecture and staff-prisoner relations. *Power on the Inside* features eighty historical and contemporary images and will inform professionals in the field as well as general readers who want to know more about the realities of prison gangs today.

**Encyclopedia of Gangs** Louis Kontos, David C. Brotherton, 2007-11-30 In light of Los Angeles' gang state of emergency, ethnic and minority gangs are arguably more high profile now than at any other time in our history. News media typically focus on the crime and violence associated with gangs, but not much else. This encyclopedia seeks to illuminate the world of

gangs, including gang formations, routine gang activities, aberrations and current developments. One hundred essay entries related to gangs in the United States and worldwide provide a diffuse overview of the gang phenomenon. Each entry defines and explains the term, provides an historical overview, and explains its significance today. As the following entries demonstrate, gangs are part of the fabric of American society. They are not only in our communities but also our schools and other social institutions. Understanding the world of gangs is therefore needed to understand American society. Entries include: Bikers, Bloods, Cholas, Crips, gang mythology, gang warfare, graffiti, Hell's Angels, Hong Kong Triads, Latin Kings, law enforcement, occultic gangs, mafia, media, prison gangs, rites, Skinheads, Streetgang Terrorism Omnibus Prevention Act, tattoos, trafficking, Wanna-bes, West Side Story, Witness Protection programs, and youth gangs.

Maximum Security Karen Farrington, 2014-01-06 Maximum Security tells the stories of the world's harshest prisons, and the people on either side of the locked door. From Alcatraz and Devil's Island to La Santé, France and Boscobel, USA 'supermax', this book is about the eternal cat and mouse game played out between convicts and the warders who try to keep them behind the four tall walls of 'the Big House'. These pages are packed with accounts of repressive prison regimes and the people who fight against them, the vicious hierarchies that operate within the prison population, what it's like to be on Death Row, riots and hostage-taking, violent abuse by both guards and inmates, plus daring escapes against the odds. From institutional corruption and sadistic punishments to drug smuggling and prisoner murder, Maximum Security lets you peer between the cell bars into a hidden world of crime and punishment.

Known Unknowns Charles Saatchi, 2014-09-10 In Known Unknowns, Charles Saatchi provides fascinating insights into some of the world's lesser-known but truly extraordinary historical events and social phenomena. 100 individual essays illustrated with 198 arresting photographs tackle subjects as varied as the tattoo habits of Russian criminals, the Vatican's favourite Barbie, North Korean traffic jams, American gun legislation and the world's richest animal. Behind each poignant, startling and often disconcerting image lies a treasure trove of hidden histories. Drawing on a career that has seen him produce and collect some of the most iconic images of modern times, Charles Saatchi presents his own unique perspective on contemporary culture.

Governing through Crime in South Africa Gail Super, 2016-04-22 This book deals with the historic transition to democracy in South Africa and its impact upon crime and punishment. It examines how the problem of crime has emerged as a major issue to be governed in post-apartheid South Africa. Having undergone a dramatic transition from authoritarianism to democracy, from a white minority to black majority government, South Africa provides rich material on the role that political authority, and challenges to it, play in the construction of crime and criminality. As such, the study is about the socio-cultural and political significance of crime and punishment in the context of a change of regime. The work uses the South African case study to examine a question of wider interest, namely the politics of punishment and race in neoliberalizing regimes. It

provides interesting and illuminating empirical material to the broader debate on crime control in post-welfare/neoliberalizing/post transition polities.

**Cape Town: A Place Between** Henry Trotter, 2020-01-01 Cape Town is a place between two oceans, between first and third worlds, between east and west. The majority of its citizens: a people between black and white, native and settler, African and European. How can we understand a city that is most assuredly in Africa, though not ""seemingly"" of it? By exploring this city's tween-ness, we can begin to understand the soul of this town ""haunted by its past, unsure of its future. A short book just over 100 pages, it allows readers to quickly identify the unique pulse of the city, its throbbing historical, social, cultural and political beat that underlies the transactions between all Capetonians. This is not a substitute for a traditional guidebook, but a perfect companion to one, filling in the intimate details that other books leave out.

**Confinement, Punishment and Prisons in Africa** Marie Morelle, Frédéric Le Marcis, Julia Hornberger, 2021-05-10 This interdisciplinary volume presents a nuanced critique of the prison experience in diverse detention facilities across Africa. The book stresses the contingent, porous nature of African prisons, across both time and space. It draws on original long-term ethnographic research undertaken in both Francophone and Anglophone settings, which are grouped in four parts. The first part examines how the prison has imprinted itself on wider political and social imaginaries and, in turn, how structures of imprisonment carry the imprint of political action of various times. The second part stresses how particular forms of ordering emerge in African prisons. It is held that while these often involve coercion and neglect, they are better understood as the product of on-going negotiations and the search for meaning and value on the part of a multitude of actors. The third part is concerned with how prison life percolates beyond its physical perimeters into its urban and rural surroundings, and vice

versa. It deals with the popular and contested nature of what prisons are about and what they do, especially in regard to bringing about moral subjects. The fourth and final part of the book examines how efforts of reforming and resisting the prison take shape at the intersection of globally circulating models of good governance and levels of self-organisation by prisoners. The book will be an essential reference for students, academics and policy-makers in Law, Criminology, Sociology and Politics.

**The Violence of Conservation in Africa** Ramutsindela, Maano,Matose, Frank,Mushonga, Tafadzwa,2022-01-11  
Offering insights on violence in conservation, this timely book demonstrates how and why the state in Africa pursues conservation objectives to the detriment of its citizens. It focuses on how the dehumanization of black people and indigenous groups, the insertion of global green agendas onto the continent, a lack of resource sovereignty, and neoliberal conservation account for why violence is a permanent feature of conservation in Africa.
