Demarcating the Disciplines Samuel Weber, 1986 Demarcating the Disciplines was first published in 1986. Minnesota Archive Editions uses digital technology to make long-unavailable books once again accessible, and are published unaltered from the original University of Minnesota Press editions. With publication of this volume, Glyph begins a new stage in its existence: the move from Johns Hopkins University Press to the University of Minnesota Press is accompanied by a change in focus. In its first incarnation Glyph provided a forum in which established notions of reading, writing, and criticism could be questioned and explored. Since then, the greater currency of such concerns has brought with it new problems and priorities. Setting aside the battles of the past, the new Glyph looks ahead - to confront historical issues and to address the institutional and pedagogical questions emerging from the contemporary critical landscape. Each volume in the new Glyph series is organized around a specific issue. The essays in this first volume explore the relations between the practice of reading and writing and the operations of the institution. Though their approaches differ from one another, the authors of these essays all recognize that the questions of the institution - most notably the university - points toward a series of constraints that define, albeit negatively, the possibilities for change. The contributors: Samuel Weber, Jacques Derrida, Tom Conley, Malcolm Evans, Ruth Salvaggio, Robert Young, Henry Sussman, Peter Middleton, David Punter, and Donald Preziosi.

Vestments for All Seasons Barbara Dee Bennett,2002-12-01 A complete guide to what clergy wear, including the various cloths, a brief history, and theology of each liturgical garment. Vestments—the robes, stoles or other items worn by clergy, or cloths used at the altar—not only add beauty to a worship service, but are visual clues to the liturgical season and to the tone of a particular service. The most beautiful and meaningful vestments are often those made for a particular priest, serving in a specific sanctuary. But many shy away from trying to sew vestments, which seem too complicated and difficult to make. In *Vestments for All Seasons*, Barbara Baumgarten demystifies the making of vestments—from designing and fitting patterns, to fabric and color selection, to putting on the finishing touches. She provides patterns and directions for producing special vestments for Advent and Lent, Easter, and Pentecost, and general instructions for designing and making vestments completely from scratch. A history of the development of vestments from Roman times to the present is included, as well as a full glossary describing the various vestments worn by clergy, bishops, deacons, and choir.

Levels in Clause Linkage Tasaku Tsunoda,2018-02-05 This is a cross-linguistic exploration of the use of clause linkage markers in causal, conditional, and concessive sentences. Employing a five-level classification of clause linkage based on semantic and pragmatic grounds, it shows that, within individual languages different markers exhibit different distributions on the five levels. Also, the rich evidence presented from seventeen languages from many parts of the world documents that these distributions present commonalities as well as differences across the languages of the sample.
