Next Generation Internet Peter Hoffmann,2025-01-07 The development of the internet, particularly the World Wide Web, is currently hitting its limits—both technically and socio-culturally, as well as economically. A new internet is promised as a solution, one that aims to overcome the boundaries between the real and the virtual world, merging reality and digitality—the metaverse. Technical, semantic, and organizational details are closely intertwined in this context. But what does this mean upon closer examination? What technical and technological challenges must be overcome to achieve such a merging? What economic opportunities arise—and which ones may be precluded? How can we ensure that an open and universally accessible metaverse is created? And how can we prevent a few large providers from imposing their proprietary ideas in this new metaverse? This book aims to provide answers to these questions.

Immersive Technology in Smart Cities Sagaya Aurelia,Sara Paiva,2021-07-07 This book presents recent trends and enhancements in the convergence of immersive technology and smart cities. The authors discuss various domains such as medical education, construction, brain interface, interactive storytelling, edification, and journalism in relation to combining smart cities, IoT and immersive technologies. The book sets up a medium to promulgate insights and in depth understanding among experts in immersive technologies, IoT, HCI and associated establishments. The book also includes case studies, survey, models, algorithms, frameworks and implementations in storytelling, smart museum, medical education, journalism and more. Various practitioners, academicians and researchers in the domain contribute to the book.

Studying Digital Media Audiences Craig Hight,Ramaswami Harindranath,2017-01-27 This volume addresses ongoing debates in the field of audience research by exploring relevant conceptual and methodological issues concerning the systematic study of digital audiences.

Biomedical Visualisation Paul M. Rea,2019-07-23 This edited book explores the use of technology to enable us to visualise the life sciences in a more meaningful and engaging way. It will enable those interested in visualisation techniques to gain a better understanding of the applications that can be used in visualisation, imaging and analysis, education, engagement and

training. The reader will be able to explore the utilisation of technologies from a number of fields to enable an engaging and meaningful visual representation of the biomedical sciences, with a focus in this volume related to anatomy, and clinically applied scenarios. The first six chapters have an anatomical focus examining digital technologies and applications to enhance education. The first examines the history and development of ultrasound, applications in an educational setting, and as a point-of-care ultrasound at the bedside. The second chapter presents a transferable workflow methodology in creating an interactive educational and training package to enhance understanding of the circadian rhythm. The third chapter reviews tools and technologies, which can be used to enhance off-campus learning, and the current range of visualisation technologies like virtual, augmented and mixed reality systems. Chapter four discusses how scanning methodologies like CT imagery, can make stereoscopic models. The fifth chapter describes a novel way to reconstruct 3D anatomy from imaging datasets and how to build statistical 3D shape models, described in a clinical context and applied to diagnostic disease scoring. The sixth chapter looks at interactive visualisations of atlases in the creation of a virtual resource, for providing next generation interfaces. The seventh and eight chapters discuss neurofeedback for mental health education and interactive visual data analysis (applied to irritable bowel disease) respectively. The final two chapters examine current immersive technologies -virtual and augmented reality, with the last chapter detailing virtual reality in patients with dementia. This book is accessible to a wide range of users from faculty and students, developers and computing experts, the wider public audience. It is hoped this will aid understanding of the variety of technologies which can be used to enhance understanding of clinical conditions using modern day methodologies.

La Parisienne et le bucheron Louisa Méonis, 2017-06-21 Pour obtenir sa précieuse promotion et le bureau avec fenêtre qui va avec, Sophie, éditrice, est prête à tout. Même à quitter pour un temps la capitale et à s'exiler dans la Savoie profonde afin de dénicher l'auteur à succès qui se cache sous le pseudo « KJ ». Mais, à peine arrivée, elle doit se rendre à l'évidence : la Savoie en plein hiver est une contrée hostile, surtout pour les éditrices en doudoune rose et boots à paillettes. Heureusement, un spécimen local tout à fait charmant vient bientôt à sa rescousse. Il s'appelle Bastien, il est aussi fort qu'un ours, aussi sexy qu'une raclette un jour de famine et sa famille possède le gîte qu'elle a loué. Et Sophie trouve soudain que la Savoie est la plus belle région du monde... A propos de l'auteur : Révélée par sa série à succès « Lola », Louisa Méonis a commencé à écrire des textes quasiment en même temps qu'elle a appris à lire. Dévoreuse compulsive d'histoires en tout genre, elle aime tout autant inventer des intrigues palpitantes, pour le plus grand plaisir de ses lecteurs.

Demystifying Creativity Fawzi Mesmar, 2024-12-24 This book is a study of the psychology, neuroscience, and philosophy of creativity, originality, and inspiration viewed from the lens of a seasoned game developer. It introduces the concept of creative sobriety—a practice that advocates better understanding our own sources of inspiration so that we can intellectually drive our creative voice closer to originality. The creative process is an improvised dance between the conscious and the

subconscious mind, where knowledge, experience, intuition, observation, imagination, and projection meet in ways that are completely unique to each person. Presenting practical and theoretical approaches to originality and game concept generation, this book explores the notion of creative sobriety before moving to chapters that blend theory and practice, covering topics such as innovation, the creative process, auteurship, collaboration, and creative vision. This book will be of great interest to students of game design and creative professionals working within the industry as well as those looking to learn more about the creative process.

Augmented and Virtual Reality in Libraries Jolanda-Pieta van Arnhem, Christine Elliott, Marie Rose, 2018-05-24

Augmented and Virtual Reality in Libraries is written for librarians, by librarians: understanding that diverse communities use libraries, museums, and archives for a variety of different reasons. Many current books on this topic have a very technological focus on augmentation and are aimed towards computer programmers with advanced technology skills. This book makes augmented reality, virtual reality, and mixed reality applications much more accessible to professionals without extensive technology backgrounds. This innovative title touches on possible implementation, projects, and assessment needs for both academic and public libraries, museums, and archives.

Jamais 203 Kentin Jarno, 2025-04-30 Les cauchemars ne sont que des mauvais rêves, n'est-ce pas ? Pourtant, celui de Stella résonne comme une vérité glaçante : dans 203 jours, la nuit de son anniversaire, son coeur cessera de battre. En dépit de sa nature cartésienne, Cole, son meilleur ami et colocataire, décide de la croire. Mais surtout, il refuse de la laisser attendre la fin dans l'inertie. Il la pousse alors à rédiger une Bucket List et lui promet de l'aider à la réaliser avant l'échéance. 203 jours pour que cette fille qui s'est toujours excusée de vivre ose enfin exister. Entre deux défis, leurs regards se croisent et se fuient. Leurs coeurs, habitués à battre côte à côte, commencent à battre l'un pour l'autre. Et si ces 203 jours n'étaient pas la fin, mais le début d'une histoire d'amour qu'ils n'avaient jamais osé s'avouer ?

The Structural Change of Knowledge and the Future of the Social Sciences Ronald Pohoryles, Andrew Sors, 2019-05-17

This book is a compendium of pragmatism in the social sciences. While addressing several distinct spheres, it carries a common message: the future of the social sciences depends on a shared understanding of society based on the knowledge of various disciplines and transcending the currently forbidding borders between scientific knowledge and the other forms of knowledge. Looking back at the social science traditions this is nothing new. To ensure a fruitful future for the social sciences a paradigm shift is unavoidable. The consequence of the increase of knowledge in the last two centuries was the specialization of the sciences. The nineteenth century saw the separation of humanities and social sciences; the twentieth century is even characterized by specialization within the disciplines and the occurrence of competing schools of thought.

This book tries to overcome the barriers that are built between and within the disciplines, and to counteract the unnecessary barriers created by the emergence of schools of thoughts that distrust each other and the social sciences as a whole. This book was originally published as a special issue of Innovation: The European Journal of Social Science Research.

Aider les enfants qui ont peu d'estime de soi Margot Sunderland,2016-01-26 Accompagné d'une courte histoire illustrée [Isabelle et la poubelle de Margot Sunderland], ce guide permet aux psychologues, aux thérapeutes et aux enseignants de travailler les émotions difficiles et les situations compliquées avec des enfants de 4 à 12 ans. C'est un outil essentiel pour reconnaître l'émotion non résolue et réagir adéquatement pour aider l'enfant à avoir un comportement plus adapté. Le livre décrit la manière dont les enfants s'adaptent à leurs émotions, en leur causant du tort ou en faisant du mal à d'autres, il explique les conséquences que cela entraîne et comment les aider à réagir différemment. Les professionnels trouveront, dans cet ouvrage, de nombreux exemples et études de cas, des techniques thérapeutiques innovantes, une grande variété d'activités (avec documents photocopiables) pour travailler avec les enfants et leur apprendre à communiquer leurs sentiments de façon créative, imaginative et ludique.

Go Out ! N° 60 | Avril 18 Mina Sidi Ali,Mabrouk Hosni Ibn Aleya,Olivier Muller,Nyata Riad,Lucia von Gunten,Martin Besson,2018-04-02 Pour reprendre le plus illustre (et regretté) muezzin du magazine, à savoir Vincent Magnenat : « d'une manière évidente, certaines réalités commencent à filer à des vitesses que l'on ne s'attendait pas à rencontrer quelques dizaines d'années auparavant. On a entendu de la presse prospecto-futuriste que le temps s'accélérait. Qu'est-ce que c'est que ce WTF à la crème sans lactose que cette histoire ?! Un autre input sur ce sympathique pure-player cristalesque nous disait très récemment que les perceptions s'accélérent et leur dissociation avec. Autrement dit, le bordel qu'on mettait une itération à comprendre devient trop différent trop vite, et donc à la prochaine itération les champs ont tellement différé que tout devient plus bizarre, de moins en moins familier ». Vous nous suivez ? Non ? Nous non plus, mais une chose est sûre : Go Out! fête ses 6 ans ! Age tendre dans une accélération métaphysique toujours plus rude, il illustre parfaitement l'état d'esprit de l'équipe à ce jour. Celui d'éternels mioches célébrant bruyamment l'implosion d'événements culturels que connaît aujourd'hui Genève : les festivals s'enchaînent avec une ferveur épileptique et couvrent toutes les disciplines artistiques confondues, les lives fusent à l'image des expos et des perfos de théâtre et de danse. Dépassés par la supernova, ne sachant plus quoi couvrir en priorité et frisant le surmenage, Go Out ! voit progressivement Genève se hisser au rang de capitale

culturelle à l'échelle européenne. Que rêver de mieux comme gâteau d'anniversaire ! Pour marquer le coup, la clique créative de l'agence Workshop se joint à la partie pour célébrer le papier face au raz-de-marée digital qui a contaminé l'ensemble de la presse. A travers une cover concoctée par leurs soins pour l'occasion, Workshop se joint à nous pour tirer la sonnette d'alarme sur un secteur fragilisé tout en présentant ses meilleures pensées au journal local « Les Nouvelles » qui vient de disparaître. De son côté, Go Out ! remercie chaleureusement ses soutiens et ses partenaires grâce à qui il continue encore de scander en boucle et à tue-tête «sortez, découvrez et ne rentrez plus jamais ! » Mina Sidi Ali & Mabrouk Hosni Ibn Aleya
